Market for butter is not only firmer at Portland but all over the United States; in the leading markets the trend of the frade is daily showing improvement. This betterment in the tone is confined principally to the fresh make. Cold storage stock is being withdrawn in increasing supply, but a very large percentage of the withdrawals consists of rather peor quality, and principally stock that was not pasteurized. cently for the high price in effect for veal calves in the Front street trade, Here and Quotations Are Therefore the present record figures quoted for supplies are considered out of reason as compared with both the livestock price and the value of other meats.

Retailers have evidently come to this onclusion, for they have been very limited buyers of calves in the wholesale trade during the last few days. The fact that the hide market is badly unsettled with practically no demand at the moment and prospects for extreme price shading, means that veal prices districts. hat the best cubes available have sold must be lowered. Purchase by the government of a larg quantity of flour from Pacific Northwe millers for September delivery, ha livened up the situation somewhat. Cereals showed a quiet tone at count points owing to the sharp declines in th

Chicago trade during the day. Fall wheat sowing is becoming more general in the interior, although practically all operations are on summer fallowed land. Indications are pointing to a very heavy acreage this season, not only in Oregon, but in other Pacific Northwest

generally satisfactory except that unirrigate fruit is small. Winter apples are growing well North Portland yards overnight, but in most commercial apple districts. Picking of will begin in the Willamette valley this week.

Some third crop alfalfa has been cut in Umatilia county. Alfalfa, where well watered, is doing well. Pastures and ranges continue very dry, and reports of thin stock are coming from many localities. Some stock is being brought in earlier than usual, owing to lack of a county of the stock are coming from many localities. Coarse Grains In

Chicago, Sept. 3.—(L. N. S.)—New low levels for the season were made on both December and May corn today. The former touched \$1.29 % and the latter \$1.27 %. There were goodly reactions and recoveries from the low prices on buying by shorts. Heavy price losses were suffered in the grain markets today, as there was a general unloading by longs in addition to short sales, and the buying power failed to respond to the offerings that were thrown overboard. These losses were 4 1/2 @ 5 1/4 c for September corn. 2 1/4 @ 2 1/4 c for December, and 2 @ 2 % c for May. The losses in oats were not as large as those in corn, the

Wells of the Portland office of the weather bureau, in his last builetin for the season says: Threshing continues in most sections, but in some localities is complete. Very little plowing for winter wheat has been done, owing to the soil being too dry, but in Wasco county some wheat has been sown on summer fallowed land. Corn needs rain, and in some localities will be a very poor crop, but in others it is approaching normal maturity, and promises good yields.

Gathering of pears, peaches, early apples and evergreen blackberries continues, with results generally satisfactory except that unitrigate!

Powerless to Prevent Hanging and Beating of Bolshevists By Relatives of Their Victims.

Budapest, Sept. 3 .- (I. N. S.) -Premier Stephen Friedrich declared today that he will remain in power until the Hungarian general election, despite any wishes of the entente to the contrary and the reports that he was ready to retire.

A large section of the Hungarian people is said to be insistent that Premier Friedrich resign because of the oppo-
