FOR SUBMITTING CHANNEL REPORT

Portland's Request for 35-Foot Channel From City to Sea Is to Be Sent to Washington.

FULL INVESTIGATION MADE

Colonel Slattery, in Charge of Work, Says He Has Treated Project With Fairness.

Report of Colonel J. R. Slattery 1. S. engineers, on the request of Portland interests for a 35-foot channel from this city to the sea. will be ready for submission to Washington by the end of the present month, it was announced today

For several months the engineering deing a thorough investigation of the chan-Slattery in his report.

Letters have also been written to some of the leading shipping firms of the country, requesting their opinion on the project for a deeper ship channel. Among the larger firms to reply to the inquiry is the Blue Funnel Line. The firm stated that a 35-foot channel to Portland would no doubt tend to increase the shipping business of the Columbia river dis trict by attracting to it vessels of heavy "It is my desire to treat the channel

improvement project in a manner which will be fair to the people of Portland and fair to the government," said Colonel "To arrive at a just conclusion am making an exhaustive study of all material factors entering into the question, such as extent of service to be rendered and cost which rightfully should be assessed per ton to justify the government in the improvements. To get at these figures I have made

up a chart which shows shipping conditions from the year 1914 up to the present time. All costs which have been inthe government in building fettles and maintaining channels are accordingly charged to the tonnage benehe government's viewpoint. "My investigations have shown that there are some real advantages in favor of the port. It is our desire to carry on harbor improvement rather than aban-

mouth of the Columbia river will be necessary in the not distant future. The north jetty will also have to be extended. "Channel conditions at the mouth of the Columbia river, where there is 42 feet of water, are ideal, however. In fact, they are so good at this time that even if the powerful dredge Chinook, would be nothing for it to do in the way of channel work at the mouth of the Cosaid Colonel Slattery.

ALL ALONG THE WATERFRONT Robert Warrack, superintendent of the lighthouse department of this district.
