

BIG DAM TO FILL GREAT RESERVOIR

Crown-Willamette Company Plans Additional Plants and Dam Across Youngs River.

Astoria, Oct. 6.—Announcement was made here Sunday that extensive developments are to be made by the Crown-Willamette Paper company of its holdings in the Youngs River Falls section of the Youngs River district, a few miles above Astoria.

The holdings of the Crown-Willamette people embrace over two townships of splendid timber, which will ultimately find its way into paper and paper products.

The development plans include the erection of a 49 foot dam in connection with a plan to electrically harness Youngs River falls. Power will be furnished for an electric plant which will be the center of a number of industries to be located in that vicinity. The company announced the proposed construction of a grinding and pulp mill with a capacity of 300 tons of paper pulp daily. This means the utilization of all spruce waste in the woods. A plant for the manufacture of the wooden plugs placed at the ends of rolls of paper will be constructed, thus utilizing the alder wood. East connection with Astoria will be effected by connecting with the Astoria Belt Line railroad.

The work of clearing the site for the dam has been completed. The dam will reach across the narrow valley, effectually damming up the stream for miles, and making a gigantic lake out of Youngs river valley. Over three thousand acres will be embraced in this high reservoir.

Two years ago the Crown-Willamette people began building a railroad from tide water below the falls into the heart of the forest owned by the company, and the concern now has 15 miles of standard gauge track completed and in operation in the logging district. Transportation facilities are one of the problems to be worked out. At the present time the output of the mills will have to be barged from tide water, a point about a mile below the falls, to its destination on the railroad at Astoria. However, with the building of the belt line railroad across Youngs River by the Port of Astoria, this matter will be solved, and it will be an easy matter for the company to connect with that line.

It is expected that not less than 500 men will be employed by the company within the next few months. Two hundred men now are on the payroll.

Doctor's Stepson Is Arrested as Forger Of Check for \$1200

Young Lochinvar, clad in a shining new leather motor coat and speeding along in a recently purchased flyover, instead of the swag backed nag of the poem, easily won the heart of his fair damsel, and Saturday afternoon drove her far away to Forest Grove, where he intended remaining all night at the home of the young lady's mother.

PORTLAND LOOKS BEST OF ALL TO NAVY MEN

Francis T. Capell

Francis P. Capell, son of Harry T. Capell, has just returned after serving 23 months on the battleship Alabama, doing patrol duty on the Atlantic coast. He was in the quartermaster department. He has been to Cuba, South American ports, through the canal and to Brest, France, but the Rose City looks best to him. He is planning to take up studies at the O. C. He was a carrier for The Journal at one time.

2 Shots Fired Into Streetcar; Ole Says It Was Bootlegger

Two shots were fired through the window of a Mt. Scott car Sunday night near Eightieth street and Sixtieth avenue, narrowly missing the conductor, and causing Officer Tuel to search the neighborhood in a fruitless effort to discover the gunman.

Ole Kludsen, Front and Clay streets, cleared up the mystery of the two shots, even if he was a little indefinite in his explanation. Ole said he happened to remark to a man on the Mt. Scott car several days ago, just as the car was passing near the spot where later the two shots were fired, that "this would be a fine place for a wildcat still." He noticed at the time that the stranger had a worried as well as menacing look.

"Those shots were fired at me," he told Sergeant Joe Day, of the inspectors department. "They thought I knew where they had a still and have been watching me."

Bank of Portland, according to a report made at police headquarters. Sunday morning Hair was brought here and placed in the city jail to await trial. The check was signed with the name of Dr. Kuhn, it is alleged. A second hand automobile was purchased from Conley's garage for \$975, and the leather coat for \$25, according to the story told the police by Hair. On his person was found \$128.60.

United States Supreme Court Opens Washington, Oct. 6.—(I. N. S.)—The fall term of the supreme court of the United States was opened this afternoon.

LUMBER MILLS TAKE ORDERS DESPITE CAR SHORTAGE OF OREGON

Increase in Orders Accepted Is Shown for Last Week; Middle West Needs the Lumber.

The volume of orders accepted by 123 mills reporting to the West Coast Lumbermen's association last week amounted to 61,232,416 feet, an increase of more than 1,500,000 feet over the previous week. This is the heaviest run of business reported for more than a month. A few of the mills continue their policy of refusing orders pending improvement in the car situation.

Despite the best efforts of the railroad administration to furnish the lumber mills with cars, the situation grew steadily worse during September. It is estimated that 4000 more cars moved out of Oregon and Washington during the month than were brought into these two states.

Confident that the car situation will improve and that the demand for lumber will not diminish, the mills are taking advantage of this opportunity to pile up stocks for future delivery. Total production of the 123 mills contributing to the association's report for last week was 85,622,192 feet, which is within 3.45 per cent of normal. Shipments for the week were 69,588,816 feet and the industry acquired a surplus of 16,033,376 feet through the week's operations.

The total volume on hand, however, is

GENEROUS BURGLARS LEAVE A FEW THINGS IN PENINSULA DISTRICT

Thieves Plunder Many Residences But Show Divergency In Stealing.

Good old Robin Hood and his merry men must have been working the Peninsula district Sunday afternoon. Whoever it was, the burglars showed a consideration and sportsmanship that could only have come from Sherwood forest. That is to say, they passed around the honors, taking a little here and a little there and going on their way satisfied.

While Little John jimmied a window in the residence of O. T. Stoll, 1480 Knowles street, for the sake of one ring and one watch fob, Robin himself obtained a diamond stickpin and other jewelry from the home of C. H. Stubbard, 1389 Fowler street. Friar Tuck passed over everything but \$2 in cash when he entered the house of J. Back, 1615 Fowler street, while another member of the band was so struck with remorse after he had turned everything topsy-turvy in the residence of A. and J. Webber, 1610 Chautauque street, that he left without stealing a single article.

Still another yeoman was so enchanted with modern clothing that he selected from the home of J. A. Anderson, 112 North Fourth street, only a pair of trousers and a coat. Meanwhile Henry Wagner, 256 Sacramento street, lost a diamond pin and Mrs. Applegate, 1540 Omaha street, reported a burglary, but

Manly War Refugees At Paris Cause of Apartment Shortage

Paris, Oct. 6.—(I. N. S.)—The enormous increase of this city's population since the war has resulted in an acute home famine. M. Guichard, controller general of the administration prefecture, declared today that over 300,000 war refugees have established homes here and that there is not a single vacant apartment now to be found anywhere.

Beauregard Descendant Dead Spokane, Wash., Oct. 6.—(U. P.)—Joseph Napoleon Gation, descendant of General Beauregard, son of a former president of the Bank of Montreal, and in charge of the first transcontinental dining car service over the Northern Pacific, is dead here.

Prices of food are said to be so high in Alaska that many of the miners are leaving the country.

Sermon Topics

Eve of Eden truly pictured womanhood. Dr. E. H. Pence, told his congregation at the Westminster Presbyterian church Sunday.

"Eve expounds the glories of motherhood. She tastes both its ecstasy and its bitterness. This is true in life, if a holy curiosity is bent to ignoble ends, and she wagers much to win the uses of power—in this she is no alien to the frailties of her sex.

"If the love she bore her husband, the thing of strength no stronger than the will, shall fail of which it was the offspring, the indulgence of self for his sake—we shall now soon see a different kind of love, mother-love—the fountain of which the higher, deeper than self—and which whelm all thoughts of self. It is the wonderful, the miracle thing of all human things. It has given value to all other values—the mother-love.

The Army of Constipation

Is Growing Smaller Every Day

CARTER'S LITTLE LIVER PILLS are responsible. Not only relieve constipation, but correct biliousness, sick headache, indigestion, salivary gland troubles, if they never fail—renewal of regular habits follow. Purely vegetable.

STOP ITCHING SKIN

Zemo the Clean, Antiseptic Liquid, Gives Prompt Relief

There is one safe, dependable treatment that relieves itching torture and that cleans and soothes the skin. Ask any druggist for a 35c or \$1 bottle of Zemo and apply it as directed. Soon you will find that irritations, pimples, blackheads, eczema, blotches, ringworm and similar skin troubles will disappear. Zemo, the penetrating, satisfying liquid, is all that is needed, for it banishes most skin eruptions, makes the skin soft, smooth and healthy.

KNOX Walbrook

Every man can find just the hat he wants in the Knox line and still keep well within the lines of correct style.

take for example the "walbrook"—curled-up brim of rather an english type—made in either smooth or rough finish.

shades for autumn—bottle green, artichoke green, dark brown and Knox mixture—an aristocrat among hats.
