DEMAND MORE MONEY FRESH EGGS HELD AT FIRM PRICES HERE: RECEIPTS GAINING

Efforts to Force Values Down Fall for the Time Being-F. O. B. Buyers Continue to Offer Up to 64e for Current Receipts Portaind.

Efforts to depress the price of fresh eggs have met with failure in the local trade within the last few days, and f. o. b. buyers continue to offer as high as 64 cents a dozen for current receipts, although some claim they are not bidding above 62 cents. However, there is no likelihood of anyone obtaining eggs at the lower price when the higher values are available to shippers.

values are available to shippers.

While receipts of eggs continue to increase, so far as home stock is concerned, and further shipments are being received from the central west, still the demand continues extremely favorable with both northern and southern markets materially higher than Portland. While to some extent the extreme values reported in outside markets can be explained by the fact that trade there in extras is confined exclusively to what are called commercial hemory eggs here. Then again Portland is a primary producing center and it is but natural that markets which are compelled to import the bulk of their needs, elled to import the bulk of their needs showing higher values.

BUTTER IS BEING CLEANED. UP Even ordinary quality butter is not showing great abundance in the local trade and firmer prices are shown all around. Extras continue ONION MARKET SHOWING STRONG

Market for onions is showing a strong tone cally with prices held well at country points, ome buying is still reported in the country at

LOCAL APPLE TRADE IS NOMINAL Nominal trading is showing in the local wholesale apple market. Nearby growers are taking care of practically all immediate wants of retailers by peddling from store to store, leaving only nominal business for wholesalers.

GOOD CAULIFLOWER VERY FIRM Good quality cauliflower is showing a strong tone and well maintained prices in the local trade. Offerings were shown around \$2.25@ 2.50 per dozen. Cabbage market firm at 2@

Lightweight hens are again dragging with general sales not above 28c a pound here. A few sales are shown at 22c and some at 24c.

Large hens are firm. Small springs are firm at 28 @ 30c with large ones plentiful.

BRIEF NOTES OF PRODUCE TRADE Country killed hogs off again with lower live-Fancy veals steady: heavy calves weaker and Fruit prices generally are steady and un-Canned milk market is gaining strength.

WEATHER NOTICE FOR SHIPPERS Weather bureau advices: Protect shipments during the next 36 hours against the following minimum temperatures: Going north, 44 degrees; northeast over S., P. & S. railroad, 32 degrees; east to Baker, 28 degrees; and south to Ashland, 40 degrees. Minimum temperature rees; east to Baker, Ashland, 40 degrees. at Portland tomorrow about 46 degrees,

and Some Lost by Holding.

Supposed Bargains in Fresh Stock Are Really Just Storage Goods. By Hyman H. Cohen

The general public is getting stung these days in the purchase of eggs every time it buys supplies at low prices. While there is a law which prohibits the sale of coldstorage eggs as fresh stock, still every day this measure is being openly violated. In fact, some of them put big placards on their eggs offering to sell strictly fresh ranch stock at 62 cents a dozen, when it is known positively that these same interests can not purchase such offerings in the whole-sale market below 66@88c a dozen, with selected stock even higher.

Such tactics are not only a cheat to the general public, but it makes it extremely difficult for the other retailers for real fresh stock.

During a short period of the war the law regarding the sale of cold storage eggs was enforced to a small extent, but even then authorities did but little to stop the practice of cheating the

Those desiring special information regarding any market, should write the Market Editor, Oregon Journal, inclosing stamp for reply.

Corn and Oats Up In Early Trading Specialty Shares

Chicago, Oct. 10.—(I. N. S.)—Sentiment was bearish during the last hour of the session today and prices were lower for the entire grain list. Losses were shown in October corn of ic, in December of 16 % 6 % c and in May of % 6 % c. Oats were 14 6 % c lower. Hog products also closed at a decline. Chicago, Oct. 10 .- (I. N. S.) -- Corn open

YAKIMA REPORTS A SLUMP IN THE HAY MARKET

Yakima. Wash., Oct. 10.—A siump in the hay market, due to falling off in demand from the Sound, has resulted in stopping practically all shipments and putting an end to baling activities on the reservation, according to reports reaching this city. The crop has not been heavy nor the movement active. Report comes here that there was an excellent crop of hay put up on the Sound this year and that many of the dairymen have built and filled siles and are using silage instead of hay. Buyers are offering as low as \$20 s ton for No. 1 alfalfa hay. Except in a few instances growers are refusing this offer and are standing pat for \$25 s ton. Local stockmen in anticipation of another open winter have not been buying as heavily as usual.

Hogs showed further depression in the local trade for the day, although a slightly improved tone was indicated in eastern markets after the recent sharp slump there. However, Portland continues to top all nationally known hog markets.

There was a further drop of 50c in the hog All exchanges were open today in the

grain trade and the result is a resumption of business generally.

bearish regarding Northwest oats is a mystery to outsiders especially as they have been forced to purchase stock elsewhere for their requirements. Regarding the statement that premiums are not being paid for club and other soft wheat, a message came to The Journal from an interior miller during the day, stating that not only had a premium been offered and paid only had a premium been offered and paid there all through the present season for all wheat, but that the premium is further increased by the fact that many of the buyers are actually grading lower grade stock as something better.

There appears to be much controversy regarding this reported premium for soft wheat; some of the local buyers being indignant at the report, claiming that not only were they able to purchase all the soft wheat they wanted at the government basis, but were actually being offered more than they could use. In the meantime there is no question as to the huge premiums available for hard wheat; holders being able to name almost their own price.

Pacific coast crop report of the weather bureau:

Nevada—Killing frosts slightly damaged alfalfa, except in extreme south, where no frost occurred. Threshing nearly completed.

Idaho—Copious rains in the south softened the soil, plowing begun.

Washington—Gentle showers in middle of week moistened the soil for fall plowing and winter grain seeding. Some winter wheat has come up and is looking fine. Severe frosts at close of September killed all born not already matured, cut and shocked. Harrest and threshing of grain practically completed in all but very late localities.

Oregon—General rain fore part of week

cut. Much plowing and seeding of barley and wheat done.

LIEUTENANT WALES MEETS DEATH ON MOUNTAIN SIDE

New York, Oct. 10 .- (L N. S.)-First Lieutenant E. V. Wales, a Western contestant in the transcontinental air race, was killed at Deer Mountain, Wyo., late yesterday, and Lieutenant Goldsborough, a member of the Oregon forest airplane patrol, who accompanied Wales as a passenger, was injured, said a dispatch received at the American Flying club today. Wales and Goldsborough were caught

in a snow storm and while blinded crashed into the top of the mountain. The machine rolled down the mountain side into a deep snowdrift. Goldsborough, although crawled several miles to the Paulson and found Wales, but he was dead be fore they arrived.

Wales and Goldsborough were using a De Haviland four machine, driven by a 400 horsepower Liberty motor.

Lieutenant B. W. Maynard, the "flying motor trouble developed in his D H-4 plane. Intending to start this morning for San Francisco, Maynard discovered the motor. A part of the engine was brought to a downtown garage for repairs. Maynard estimated that he would

News of the tragic accident was re ceived from the control station at Raw-Wales and Goldsborough had arrived there Thursday morning and departed a few hours later, but the dispatch to the American Flying club had been substituted as a control station for Green River on account of a heavy fall of snow at the latter place. Rockwell plane No. 55, flying from San Francisco, was compelled to land 15 miles south of Bitter Creek, in Wyoming, said a dispatch to the headquarters of the American Flying club. This machine is piloted by Second Lieutenant Spencer Hall and carried First Lieutenant W. Bevan as a pas-

gine trouble discovered just as he was about to resume his flight this morning, Lieutenant W. B. Maynard, westbound took off at 12:30 p. m. from Fort Russell en route to Salt Eake City. Major J. C. Bartholf, in the S. E-5, plane No. 51, arrived in Cheyenne at 11:08 and left for the East 40 minutes later. Oregon Flyer Is Expert

Eugene, Oct. 10 .- (U. P.)-Lieutenant William Goldsborough, who was injured

tinental flight, was one of the first aviators to be sent to Oregon for forest patrol work and was stationed at Roseburg before headquarters was changed to Eugene. Lieutenant Goldsborough was considered one of the best flyers in the district. He left Eugene October 3 accompanying Lieutenant Batten to Mather field. His wife resides in San Francisco.

Well Known in Oregon Lieutenant W. C. Goldsborough, who was injured in the Wyoming accident, was with the Oregon forest airplane patrol force since it first started the beginning of August, said W. B. Osborne Jr., forest examiner, who spent several weeks making flights for observation purposes. Goldsborough is especially

Worthington, No. 60, eastbound, arrived at 9:08 a. m. and left at 9:39 for Omaha.

CONCRETE OBTAINED

Only Portions of Roads to Torn Up Those Which Will Be Paved This Year.

is now obtainable for paving the Pacific highway and the North Bank highway. Cars have been provided for bringing concrete here from Concrete, Wash., for the North Bank highway, and for the Pacific highway Riverside cement has been brought by boat from California and is being hauled from Portland. Work is being rushed on both highways in an effort to get as much of the surface laid as possible before the rainy season begins. If the work is not completed this fall the roads will be left in such condition that it will not be necessary to use detours during the winter months, George H. Norris, engineer in charge, stated today. Only as much road Six and seven-tenths miles on the Pacific highway and 13 miles on the North Bank highway were to have been com-

Plant to Make Furniture

It is said Portland dealers have agreed to handle the plant's furniture and that about two thirds of the present

GRANGERS VOTE FOR MILLAGE METHOD OF PAYING ROAD COSTS

Resolutions Passed to Have Proposal Placed on Ballot at Special Bond Election.

Oregon City, Oct. 10.-The following esolutions were adopted by the Clackamas County Pomona grange at its first fall meeting in conjunction with the Abernethy grange at the latter's hall in Park place Wednesday:

Whereas, The grange was the first organization in the state to favor good roads and has consistently advocated their construction as rapidly as practicable under the pay-as you go system,

Whereas, A strong sentiment has developed in Clackamas county in favor of an extensive program for paving certain of the principal roads of the county,

mitted to the voters of the county ask-ing for a bond issue of \$1,700,000 for that purpose; therefore,

Resolved by Clackamas County Po-mona grange that we oppose the bond issue for the following reasons: Under the bonding system public im-provements usually cost 50 to 100 per cent more than under a direct tax, for the reason that large sums expended in haste breed waste and extravagance, especially when pay day seems a long way off. haste breed waste and extravagance, especially when pay day seems a long way off.

The interest bill must be added to

The interest bill must be added to first cost.

Under the bonding system a mile of paving will cost, say \$12,000, plus interest at \$8000, making a total cost per mile for the pavement at \$20,000.

Under the bonding system we will spend our money now while labor is scarce and materials are high.

Wheat is flow \$2 per bushel and common labor \$4 per day. We would bond the county and do the work on that basis and likely pay for it in normal times with wheat at \$1 per bushel and wages at \$2 per day, requiring twice the labor and material to pay the bonds when they come due. and material to pay the bolids when they come due.

Measured in days' labor and farm products in normal times, under the bonding plan it will cost \$40,000 per mile for paving as compared with \$5000 to \$12,000 per mile under the tax system, under which the improvements are made at actual going cost of labor and ma-terials.

Resolved further, That we favor the Resolved further, That we favor it paving program and road improvement substantially as outlined by the committee from different sections of the county, but we favor that the function of the provided by a tax levy on all further property of the county, which shall sufficient to carry on the work rapidly as labor conditions and cost materials will justify in the opinion the county court; and

materials will justify in the opinion of the county court; and

Further resolved. That a committee of five be appointed by this Pomona grange with instructions to prepare petitions and see that they are circulated to place a proposition of a 5 mill tax running for a period of 10 years on the ballot at the special election, thus giving the taxpayers an opportunity of choosing between the banding system and the ing between the bonding system and the direct tax plan of financing the pro-posed road improvements.

A. Richmond Is Made Defendant In Alienation Case

Vancouver, Wash., Oct. 10,-J. A. ages by G. G. Van Delinder for alleged alienation of Mrs. Van Delinder's af-fections. Van Delinder charges that Richmand urged Mrs. Van Delinder to Mrs. Van Delinder recently Richmond for damages for alleged breach of promise and obtained a ver-dict for \$5000, which was reduced by the court to \$3500. The case has Shortly after that Mrs. Van Del sued Richmond for the return of a
