READ THIS AD

We want you to take this into consideration: If you are looking for a farm, it is nice to buy a place that is a real farm and the same time a real investment. We have both right here. This is all level and every acre tillable. You need no tile. You can farm it 12 months of the year, and you need not worry about having to wait to get your crops in. This is all fall land, and fall crops are the ones that pay. Fifty-five acres in cultivation, 8 acres in timber, all of the balance is open land, only an old, rotten leg or stump here and there. There are about 25 acres of this that are extra easily cleared. Can be lunder plow in a short time. County road on two sides of the place. Fine living water that never falls and does not make any waste land, no draws. Good 6 rom house and outhouses, large barn, all kinds of fruit, fine maple shade trees around the house and barn. This place is 8 miles of Oregon City, on the Molalla road, one of the best-traveled roads in the county, all graveled, and the time isn't far off when it will be paved. One mile to electric line: 2 miles of store, sawmill, grist mill, and on cream route; daily mail; telephone in house. This place is admired by all passers-by, owing to its location and the lay of the land. Land all around this is selling at \$150 an acre. We are offering this for \$14,000, \$7000 down, balance 10 years at 5 per cent. Think of it—less than \$102 an acre! The man that buys this place some day will double his money, as it has many features, and the present demand for farms is going to raise land values to a very high price. You must remember land has only started to move. What will it be a year from now? See us for farms and investments, as we have both.
