DOCK; WILL LOAD CARGO OF LUMBER

Pacific Steamship Co. Now Believes Delays in Meeting Oriental Schedule Will Cease.

CARGOES AWAITING

Vessels of Line Also Have Big Shipments Waiting for Them at the Far Eastern End.

With the shipping board giving more attention to the Portland-Oriental service allocations by the placing of the 9500-ton steel steamer Waban on dock this morning, the Pacific Steamship company officials say that further delays in getting vessels away from here may be prevented.

The Waban docked at the Eastern & Western Lumber company this morning to take on lumber for the Orient and will later move to the municipal terminal at St. Johns. The vessel is scheduled to sail October 25. Another 9500 ton steamer, the Nish-

saha, will be turned over to the Pacific Steamship company between October 20 and 24, according to information obtained from the division of operations of the United States shipping board.

The Coaxet left Cebu, Philippine islands, October 2, for Portland via Kobe, according to word received by the operators Tuesday. She is due back in Portland November 4 and is scheduled to sail again for the Orient November 29. The West Hartland, which left the local harbor September 21, is due

back here December 5. Full cargoes for the Waban and maha have been awaiting the vessels here for several weeks. Full cargoes are also in sight for these vessels in the Orient, according to the members of the foreign freight department of the company. The Coaxet will bring back hemp and Oriental merchandise.

PILOT PROTESTS REMOVAL

Nelson of Astoria Objects to Action of Governor Olcott.

Insisting that Governor Olcott did not do a good job when he removed him from the Oregon state board of pilot issioners, Thomas Nelson of Astoria appeared, together with Frank Swett, his appointed successor, to attend a meeting of the pilot board in Portland Tuesday afternoon. Nelson was oved by Olcott because he declined as manager of the Union Fishermen's Packing company to discharge Hannes Hattula, an alien slacker.

The state pilot act says that a member of the board of commissioners can be removed only by the governor on in-competence or neglect of duty. Nelson said the governor did not make either charge against him and that therefore he considers his deposition as illegal. Captain W. C. McNaught and Harbormaster Jacob Speier are the other members of the board and with Speier in Washing-It was impossible to solve the muddle at Tuesday's session.

sels with an aggregate deadweight tonhage of 8,109,058, have been turned over to the shipping board for operation.

TO BE REQUESTED

County Commissioners Decide to Ask State Highway Commission to Make Examination.

The state highway commission will be requested to make a complete survey of the physical condiion of the existing bridges across the Willamette river in Portland with a view of determining whether new structures should be built in the near future or whether it will only be necessary to make repairs, to fit them for further service. This action was decided on today by

the board of county commissioners after the local branch of the American Association of Engineers had submitted the names of three local engineers which it considered competent to plan and su-pervise the construction of new bridges. local engineers recommended were: C. H. Purcell, district engineer of the federal bureau of public roads; R. E. Kremers, chief of the bureau of highways and bridges for the city of

gineer of the O-W. R. & N. company. The recommendations came in a letter signed by W. H. Marsh, president of the society, and R. W. Barnes, secretary. They are the result of an effort to have Portland engineers selected for the work instead of some eastern or outside firm. to undertake the task and that they are men of unquestionable integrity and

Portland, and Samuel Murray, chief en-

The bridge program will call for an expenditure of between four and five nilitions of dollars, and will be the largest contract ever let in this county at one time. There is a possibility that in addition to the two structures already mentioned, a third will be erected at Sellwood to replace the ferry at that

Recommendations of the engineering society were taken under advisement until after the report from the state highway commission's engineer.

the turban by a large ring or button. She had a long brown coat. I don't know whether it was plush or velvet She had a white dress of some smooth satiny goods and long white gloves. She looked like a friendly, sensible, likable person.

They were on their way to a banque and reception given by the Advertising club, the Commonwealth club, Downtown association, Home Industry league and Rotary club.

FLASHES MAGIC CARD I decided to attend the banquet. soon discovered that there was no

chance to secure a ticket, and that hundreds of people were being turned away. When I asked two husky policemen and several other officials at the door to let me in, they said, "Nothing doing, no
