President's Illness, Labor Conference and Miserable Weather Causes the Uproar.

By Broadan Wall

New York, Oct. 15 .- The wildest stock market of the year was seen in Wall street Tuesday. The opening was firm, with some prices showing material gains. Within an hour losses had been recorded as measured from the high prices of the morning of from 8 to more than 12 points. Then, after a brief period of quiet, came a violent advance that carried quotations up 5, 10 and in one case 121/2 points. In the late trading average was lower than the low prices of the morning. Very material losses were recorded in a ma-

Three causes contributed to the uproar The first was the president's condition The second cause was the belief that the labor conference called by the president will dissolve without doing anything. Third, it was miserable weather in the street and the market is so largely professional that personal discomfort of the traders put them all in a pessimistic state of mind.

YIELDS TO BAIDERS

So, when a few daring raiders attacked the market, it yielded easily. The early raid was followed by a covering move-ment that frightened prime movers and forced them to cover their own contracts. In the afternoon call money ran up to 15 per cent and these traders, smarting from the defeat of the morning, made another vicious attack just before the closing. The Waltorf crowd was in leadership of this raid and so timed it that the gong stopped business just when the crowd had sold all the stock If no bad news develops and especial

ly if some understandable report comes from the bedside of the president, the raiders will find themselves in a serious predicament when business is resumed tomorrow morning. ALCOHOL SAVES DAY

Industrial alcohol was the best actor on the list. In the morning, when every thing was crumbling, this stock yielded only 21/2 points. In the face of declines elsewhere, it then began advancing anddid not stop until it had moved 131/2 points from the bottom, thus establishing a new high record. It was a signal o the professionals that they were running into trouble with their short sales.

The next line of defense was the to-12 1/2 points. In the late trading bacco shares, which held remarkably prices fell suddenly again, so that the strong during the entire session. Retail stores had an extreme swing of less than 3 points. The buying in this and in associated stocks was of the best character. If Dollar's Power Is Restored H.C.L. Goes

The problem of reducing the cost of living, the federal reserve board says, is mainly that of restoring the purchasing power of the dollar, which has declined because credit expansion, under necessities of war financing, proceeded at a more rapid rate than production and saving of goods. The process must now be reversed by increased production and saving, which will result in a reduction of the volume of purchasing media in circulation. Notice is served that the differential rate of federal reserve banks on notes secured encourage the purchase and absorption of Liberty bonds, will soon be done away with.

of tobacco.

The best known habit forming principle of tobacco is nicotine, but the most deadly and demoralizing is furfural. Both are deadly poison, which, when absorbed by the system slowly, but surely, affect the nerves, membranes, tissues, vital organs and vitality of the body.

The harmful effect of tobacco varies and depends on circumstances and the individual. In some it causes general debility, others catarrh of the throat, indigestion, constipation, extreme nervousness, sleeplessness, loss of memory, lack of will power, cowardice and fear, mental confusion, etc.; in others it causes heart disease, bronchial troubles, hardening of the arteries, palpitation of the heart, tuberculosis, blindness, cancer and the common affliction known as tobacco heart.

Rejects Request of Highway Commission for \$1,000,000 Sale Following Controversy.

Salem, Oct. 15 .- The state board of control, at a special session Tuesday afternoon, refused to accede to commission for the issuance of an- of business. other \$1,000,000 worth of bonds under the Bean-Barrett act of 1917. The board gave as its reason for this action the fact that the act of \$1,800,000 in bonds, of which \$1,200,000 already have been issued, the requested issue exceeding by \$400,000 the balance remaining under the authorization of the act.

It is expected that the highway commission will take mandainus proceedings to compel the board of control to accede to the request, on the ground that t was the intention of the legislature framing the act to meet the government appropriations, which have been largely increased by an amended act since the passage of the Bean-Barrett act.

The highway commission contends that the state has full authority to meet the government appropriation up to the extent of its 2 per cent taxation limitation. This limitation, it is estimated, will provide an aggregate of \$20,000,000. A total of \$17,800,000 already has been specifically authorized by various acts of the state legislature, leaving a margin of \$2,200,000, which the highway commission contends is still available for use
