### Eggs Are High In London; Only Best of Stock Is Wanted by Trade

There have been no startling changes in the food situation of the United States during August. The prices of food are high, and there is no relief in sight. In fact, the government is warning the people that the present high prices, or even higher prices, will probably prevail throughout next winter. Congestion at the docks and insufficient facilities for handling goods tends to increase the cost of commodities. Then, too, the government maximum prices for food-stuffs has been accepted by many storekeepers as their minimum prices. For example, inferior apples are selling at the maximum fixed price of Bd (\$0.16) a pound. This abuse has caused the British food controller to prohibit the use of the customary signs with the words "Government Controlled Prices," unless the word "Maximum" be added.

Eggs—Eggs are becoming dearer. In London

# BE ADVANCED SOON AS BILL IS PASSED

At the London wool auctions of the 18th 8600 bales were offered and quickly cheared, prices showing hardening tendencies on late advance for the better qualities of both merimes and crossbreeds. Sydney wools of both descriptions in greasy state brought 62d and 52 ½d (\$1.08 and 90c) per pound, respectively. Queensland scoured merimes ranged up to 78 ½d (\$1.44) for combing, and 75d (\$1.30) for lamb's. Victorian offerings consisting mainly of greasy clips realized 60d (\$1.04) for the finest merino; 18d to 33 ½d (\$1c to 58c) for cross bred lamb's. The best West Australian greasy merino pieces and lamb's wool brought 37 ½d and 37d (85c and 64c), respectively. New Zealand greasy crossbreeds consisting of medium to lower grades realized for best combing 34 ½d (60c) and for lamb's 40d (69c). In the 1700 bales of greasy crossbreed Punta Arenas free wools offered the best of the finer grades realized 45 ½d (79c).

ments have been made to Australian and 10,000 of New Zealand wools on Australian and 10,000 of New Zealand wools on government account for public auction in Boston, Mass., at the end of November.

On the 19th 11,000 bales of the best Queensland scoured wools were offered. Merine fleeces ranged up to 88d (\$1.53); clothing descriptions, 86d (\$1.49); Sydney greasy clothings. tions, 86d (\$1.49); Sydney greasy clothings, 156d (95c); Victorian greasy crossbreds and greasy comebacks, 55 and 57½d (95c and \$1.00) respectively; best Adelaide scoured megino combings 84%d (\$1.47); best New Zealand mo combines 84 % d (\$1.47); best New Zealand greasy crossbreds, 39d (\$8c).

At the auctions on the 21st 24,956 bales were offered "on description." Carbonizing wools were slightly lower than those at the inspection sales, while the finer grade remained unchanged. Good representative selections of combing and clothing scoured merinos attracted much attention. The best parcels of quality which were included among the Sydney offerings fell to American account at 92 % d (\$1.60); the finest of Adelaide greasy merinos were sold to American buyers at 55 % d (96c). The best Victorian and South Auswalian greasy lamb's wool realized for the best of scoured merinos 75d (\$1.30); pieces, 70 % d (\$1.31); slipe merinos, 43d (74c); greasy, 56s quality, 48d (83c).

On the 22d 8700 bales were offered. Sydney greasy merinos ranged up to 65d (\$1.12); the best Queensland scoured merinos brought 80d (\$1.38).

S.)—Offerings were larger at the opening of the cotton market today and with the exception of October, which started higher, the market showed a 10 to 25 point decline. Much of this was caused by selling due to bearish week-end figures. Wall street commission houses and New Osleans interests bought at the decline, while brokers having Southern connections were the chief early sellers. Liverpool traded both ways. After the opening the market was fregular, selling off 39 points under last night's close, but later was followed by a raily of about 10 points.

In the late dealings the market worked gradually higher on covering, Liverpool buying of the near positions and bull support, the latter based on reports that Louisians cotton oil mills were being forced to close on account of lack of seed. There was also fear of frosts over the

12,000 ..... August 15, 1924 104.27

These bonds were issued by the City of Rupert for Local Sidewalk Improvement District No. 4 for the purpose of improvements within that district, which consists of a large area of some of the most valuable property of the city, bounded by the Streets Walnut, Figh, K and Eleventh. The bonds constitute a direct lien against all the property abutting on the improvements made in the district.

These bonds are secured by taxation against all the property in Local Sidewalk Improvement. District No. 4 covered by the improvements, which taxes are levied, collected and disbursed in the usual manner. In addition to this, the City of Rupert by ordinance duly passed and approved, has agreed to purchase any and all property or parcels of land in the district that may for any reason become delinquent in payment of this special tax, the City agreeing to pay the full amount of such delinquency from the general fund and take over the property for its own uses. This would doubly insure to the bondholders the prompt payment of principal and interest, and makes the bonds in effect an obligation of the entire municipality. This City has always enjoyed a very high credit rating.
