Clubwomen Are A They Undertake

By Vella Winner

A MONG the uninitiated there is an in-clination to regard the clubwoman lightly. Such thoughts should be banisited, for they are untrue. Contact develops the fact that the clubwoman takes her mission as a clubwoman seriously and advocates cherished projects with an earnestness that cannot be doubted.

Such seriousness and earnestness are efefctive, as was evidenced at the convention of the Oregon Federation of Women's clubs held last week in Corvallis. The delegates did things.

. When the clubwoman leaves home as a delegate to a state convention, she undergoes a transformation en route. She enjoys the welcome respite from deciding what to have for dinner, or conducting her classes in school, or performing her duties as business or professional wom-an, and becomes a clubwoman with an

Thus it is that the womenfolk, assem bled in convention, support their favorite measures with an earnestness indicating those measures to be the only things that really matter in the whole world.

One urges the release from prison of inmates unjustly incarcerated, with a solemness of voice and seriousness of attitude that win general sympathy to the cause of the unfortunates. Another, with a catch in her breath and a tremor in her voice, agitates the creation of a child welfare department in the federa-

In an eloquent appeal the women were urged to give at least one program a year to humane interests. Then came the clarion cry that the world will go to the bowwows if the cost of living isn't reduced and that the way to do it is to stop buying new hats and frocks.

The clubwoman, at the end of the convention, went back to her duties as housewife, teacher, business or profes-sional woman, but while she was there she enjoyed herself in a way that would open father's eyes and make the family

During the year Mrs. Charles H. Castner, retiring president of the State Federation, has visited the following clubs: Forest Grove, Hillsboro, McMinnville, Portland, Brooklyn Mothers and Teachers, Grade Teachers' association, Inde-pendence, North Bend, Marshfield, Coquille, Prineville, Powell, Butte, Bend, l'umalo, Madras, Redmond, The Dalles, Baker, Pendleton, La Grande, the Southern Oregon district and Yamhill county. It is her belief that clubs are benefited by these visits and the joy of meeting the members of each club far surpasses the long hours spent in travel. In June she attended the Washington State Federation in Centralia and gained much of value from their methods and plans of work, and it is her belief as well as that Child Welfare of the president of our neighboring state that the two organizations can accomplish much that will benefit both states in the friendly controlled. Loan Fund Has Been of Great Help to Girls

ONE of the interesting reports delivered at the convention of the Ore gon Federation of Women's clubs in Corvallis last week was that of Mrs. Frederick Eggert, trustee chairman for the scholarship loan fund. In the recital of the club work for the period of 20 years, Mrs. Eggert told most interestingly of the fund that has done so much for the education and help of young women of Oregon, From 1907 until the present time Mrs. Eggert has served this fund and this work faithfully and ably. She has handled \$26,-700.33 of the money of the fund and her report in addition to the story of deeds done gave in dollars and cents a resume of what had happened. She said:

"The task of collecting the outstanding loans has for three or more years been steadily growing more and more burdensome. Our experience convinces us that one of the reasons for this is the fact that our clubs, both officers and members, seem not to realize that when upon their recommendation, and oft-times even urgent insistence, a loan is granted, that then their responsibility for that young woman has only begun and does not end until the last dollar

We have prepared 96 young women for positions in the public schools rang-ing from grade teachers, through every step up to county superintendents; 26 for special work, such as social service domestic science, library, kindergarten music, art and journalism, including four who now are United States Re-Cross hospital reconstruction workers, and 50 for miscellaneous activities. Thirty now are studying for varie

chosen vocations.
"Our Oregon institutions of learning have been enriched in students and reve enue through this fund. For the normal school 42 have received loans amounting to \$4080; 29 at University of Oregon. \$5095; 21 at Oregon Agricultural college. \$2345; 11 at Pacific university. \$1500; nine at Reed. \$1260; four at McMinuville, \$525, and four at Willamette uni-versity, \$400; two at Newberg, \$160." Much of the rest of the report consists in relating incidents of the good
