VON DER GOLTZ DECLARES

RUSSIANS OUT OF BALTIC Berlin, Oct. 21 .- (I. N. S.)-General von der Golts, former commander of the German forces in the Baltic provinces, whose refusal to withdraw his men called forth a warning note from the peace conference, declared today that all of the German soldiers, who are under allegiance to the German government,

The German government never recalled me from the Baltic until early in October," said General von der Goltz. "I was requested to return to Berlin consultation but never recalled There is no 'situation' in the Baltic provinces so far as Germany is concerned. Not a single German soldier remains there out of the 30,000 who were formerly there. Half of them have returned and the other half have become naturalized Russians."

Asked how German soldiers could be ne naturalized citizens of another country, Von Der Goltz replied: "Many enlisted merely to travel into Courland. They received uniforms and desire is to find employment. The treaty of Versailles left no chance for existence in Germany. They joined the colors under contract whereby either side was entitled to give a fortnight's notice for severance. They had to go elsewhere than Germany or starve."

General von der Goltz said he had visited Berlin in August trying to ar-

Government Plans Return of Roads to Owners January 1

Washington, Oct. 21.-(I. N. S.)-Despite the tangled status of railroad legislation in congress, plans for returning the railroads to their private owners on January 1 are going steadily ahead, it was learned at the raidroad administration today.

Officials of the railroad administration stated today that they were making their plans in accordance with the statement of the president in his message to congress on May 20, that the railroads would be returned at the first of the next calendar year.

Director General Hines has publicly expressed his belief that federal con-

rol will cease on January 1. At the White House it was stated that the president has the power to turn the roads back without further legislation by congress.

Printing Profits Are Comparatively 'Bachelor Girls' Light During Year

An extended discussion of profits re-ceived by commercial printing firms oc-cupied the attention of the arbitration oard sitting on the printers' wage scale controversy at the Oregon building Monday night. The vast volume of testimony yet to be submitted would indicate that the hearings will be continued several weeks.

THE OREGON DAILY JOURNAL, PORTLAND, TUESDAY, OCTOBER 21, 1919.

Though a number of the employing printers acknowledged paying excess profits taxes, it was shown by an expert accountant at last night's meeting that the net profit of the trade for the past year amounted to only 7.2 per cent of the selling price. Figures, submitted by Joseph Gillingham for the employers showed \$520,000 invested in printing plants and equipment; business transacted for the past year, approximately \$1,500,000, and net profits, \$108,500.

Members of the allied printing trade unions introduced testimony indicating unions introduced testimony indicating that their employers are receiving compensation which places them in the "profiteer" class, but the employers deny

these charges and declare a loss of about

\$30,000 on the operation of their me-chanical departments for the past year.
