

WILSON MISINFORMED REGARDING ARMENIAN MASSACRE, TURKS SAY

President's Warning Note Received With Surprise; Russians Blamed for Recent Slaughter.

By Louis Edgar Browne
Special Cable to The Journal and The Chicago Daily News.
Paris, Nov. 7.—The Turkish government was amazed at the receipt recently through the American High Commissioner in Constantinople of a communication sent by President Wilson directly to the Turkish authorities to the effect that unless the continued massacres of Armenians ceased forthwith the principles enshrined in the president's 14 points would become inapplicable to the Turkish peace terms.

NOTE IS SURPRISE
This threat alarmed the Turks because they believed that their defense of Ottoman territorial integrity was of necessity based on the Wilsonian principle providing for the self-determination of peoples. The Turkish government under Damad Ferid Pasha replied to the note courteously, stating that the president had apparently been misinformed because no massacres of Armenians in the Turkish empire had taken place since the armistice. Ferid Pasha further said that the government was making every effort to repair damages, restore property and assist the American relief committee whose work was chiefly among the Armenians.

The allied diplomatic agents were also amazed at this note because it is a generally accepted fact in the Orient, even among the Armenians, who are the Turks' bitterest enemies, that no Armenians have been killed since the armistice. The Nationalists were first indignant and then amazed at President Wilson's misinformation. It now appears that the communication was sent without consulting the American delegates in Paris, who were as greatly surprised as were the Turks and the allied representatives. They offer the explanation that pressure of Armenian opinion in America forced the action.

RELIEF PROMISED ARMENIANS
It is possible that Armenian opinion was misinformed or that the recent massacre in Shusha was thought to be of Turkish origin. This massacre resulted in the death of 400 Armenians, but it occurred in Azerbaijan, which is in Russia, and situated about 100 miles from the nearest point in the Turkish provinces. Armenians in America can be assured that the present nationalist movement under Mustapha Kemal Pasha intends to prevent violence against the Armenians remaining in Turkey or any limitations thwarting their free movement or infringing on their property rights. Furthermore Kemal Pasha has promised the Armenians restitution as far as possible. The consensus of opinion among diplomatic representatives in Constantinople is that as yet the Nationalists are not affiliated with Azerbaijan in any way and therefore cannot be held responsible for a disturbance which occurred outside of Turkish territory.

Von Bernstorff Is Likely to Get Post At Italian Capital

By Anthony Czarneski
Special Cable to The Journal and The Chicago Daily News.
Rome, Italy, Nov. 7.—Diplomatic circles here are awaiting with keen interest developments regarding the selection of German representatives to the Italian government and the Vatican. According to statements made to me by representatives of the allied powers in Rome, the former German ambassador to the United States Count von Bernstorff, is regarded as the probable future representative of Germany at the quinquennial, as inquiries have been made regarding his status with the Italian government. It is reported as practically certain that Baron von Bergen, a Bavarian who did important work in the German foreign office in the division for American affairs when Count von

Bernstorff was in Washington, is to become the accredited German representative at the Vatican. Formerly Bavaria herself had a representative there and it is expected that Germany's selection will be largely controlled by the Bavarian recommendations.
It is also reported that with the next representative of Germany to the quinquennial will come two leading German business experts who are to cooperate with the ambassador and consular forces in making the business relations between the two peoples even closer than they were before the war. That trade relations between Germany and Italy are being reestablished is the opinion of business men as well as politicians here. German salesmen are already in evidence and many German firms have representatives here in the persons of Swiss, Dutch and other neutral business men.

ELECTION UNDER RULE OF D'ANNUNZIO, LIKE BELA KUN'S, IS FARCE

Poet Picks Own Candidates and Allows Only Citizens and Soldiers Supporting Him to Vote.

By A. R. Decker
Special Cable to The Journal and The Chicago Daily News.
Florence, Italy, Oct. 25.—(Delayed.)—Elections took place here today under Gabriele d'Annunzio's rule. They were a farce unequalled except by Bela Kun's Bolshevik elections in Hungary. The voting was controlled from the governor's palace where Colonel d'Annunzio's agents prepared the list of electors and candidates on the eve of the election. Crowds of civilians and soldiers paraded the streets with bands playing the Aditi march. The soldiers outnumbered the civilians two to one.
This preliminary scene was staged to create a semblance of enthusiasm. Residents of Fiume for the most part remained indoors and from behind closed shutters watched the demonstration. The draft for elections was announced two weeks ago but the lists of candidates were published less than two days previous to the actual elections. Naturally only one party was represented, namely the national union party which means only that section of the people desiring annexation to Italy.
During the week threats were made to shoot all opposing the "holy cause" of annexation. The Italian army code was given as the rule of procedure against all workers antagonistic to Colonel d'Annunzio and consequently today their only way of indicating their sentiment was to refrain from voting. Saturday night the bridge connecting Fiume with the suburb of Sussak, where the Slavs are concentrated, was closed and it was kept closed during the entire election. Sussak is included in Colonel d'Annunzio's demands, but Sussak was forbidden to vote. The poet's aides say that only the radicals and internationalists abstained from voting but this was obviously untrue.
Residents of Fiume are disgusted. They say the elections were a complete farce and only the radicals and internationalists evacuated the city and permit it to return to normal life.

Paris Shivers Without Coal People Hoard Metal Money

By William E. Nash
Special Cable to The Journal and The Chicago Daily News.
Paris, France, Nov. 7.—The coal and currency crises form the topics of the day in Paris. Some of the fuel yards have closed their doors and many householders go cold. Most of the hotels refuse to heat their rooms before November 1, and all the cafes still close before midnight on account of the lack of electricity.
As to currency, silver, nickel and copper pieces are being hoarded. If you have no small money you cannot ride on the taxicabs, omnibuses or street cars, for the conductors ordinarily have no change. Shopkeepers and waiters groan when they see a five franc (\$1

only 22,000,000 francs out of the usual 60,000,000. For the rest she is dependent on England and Belgium, which have little more than enough for their own needs.
The chief de cabinet of the minister of finance believes that the currency crisis is due largely to the publicity given it in the newspapers, this resulting in hoarding. He admitted that some coins had been melted down into metal bars because the raw silver was worth more than the coins themselves. Against these makeshift measures are being taken. Likewise, a certain amount of money is being drained off to Switzerland and Spain, where French silver pieces are worth par and paper bills are not.
Whatever caused the crisis, however, there is no doubt as to its existence and that measures must be taken to meet it. Le Petit Parisien says that 4,000,000 francs (\$800,000) worth of sous (1/2 cent) are soon to be issued. Other papers say that the mint will have to issue even larger quantities of franc and half franc (20 and 10 cent) pieces.
"Biggins says he attends strictly to his own business." "But what is his business?" "Just there seems to be the trouble. He has somehow made it his business to attend to everybody else's business."—Washington Star.

Tardieu Appointed To French Cabinet

Paris, Nov. 7.—(I. N. S.)—Andre Tardieu, former French commissioner to the United States, entered the French cabinet today, succeeding M. Lebrun, minister of reconstruction, who resigned. A controversy with Premier Clemenceau over points in the premier's Strasbourg speech was said to be the cause of M. Lebrun's resignation.

"You'd Never Think it Was the Same Bathroom"

A NEW bathroom with pure white fixtures of vitreous china costs less to maintain, because repairs are seldom necessary. And when you consider that old fixtures can be replaced with little or no trouble, you simply can't afford not to own a modern bathroom.
See our display of Thomas Maddock's modern, sanitary plumbing fixtures. We know of none better; we believe there are few as good.

Famous Actress Tells How She Uses Derwillo To Beautify Her Complexion

Miss Ethel Clayton.
New York.—Miss Ethel Clayton, the clever young actress now successfully starring under the Paramount banner, is famous for her beautiful complexion. When her friends inquired about it she said, "It's all due to a toilet preparation called derwillo which I use twice daily. The experience I have had prompts me to make my secret public. This wonderful derwillo instantly beautified my skin and its continued use has made the results permanent." When Mae Edna Wilder, the well known beauty specialist, was interviewed in reference to Miss Clayton's remarkable complexion, stated "Anyone can have a beautiful complexion when they know how. It's a very simple process. I use the same article in my work, and until you try you have no idea of the marvelous results. The very first application will astonish you. Go to the toilet counter of any drug or department store and get a bottle of derwillo, then make the following test: Examine your skin critically before your mirror, note carefully its appearance, then apply derwillo as directed. After you have made the first application look in your mirror again and note the surprising change. A peach-like color mounts the cheeks; a baby softness comes to the skin; it makes the skin rosy-white, velvety and radiantly beautiful. It is wonderful for a dark, sallow skin, shiny nose, freckles, tan, oily skin, sun spots, coarse pores, pimples, blackheads, chapped, rough skin, ruddiness, wrinkles and many other facial blemishes. Derwillo method is absolutely harmless and will not produce or stimulate a growth of hair. It is superior to face powder, as perspiration does not affect it, therefore it stays on better. Thousands who have used it have had the same results as Miss Clayton, and I am sure if you will give it a fair trial you will become just as enthusiastic as I am and always use it in preference to any other powder or beautifier."
NOTE:—When asked about Derwillo one of our leading druggists said, "It is truly a wonderful beautifier, away ahead of anything we have ever sold before. We are authorized by the manufacturer to refund the money to anyone who is dissatisfied, and we would not permit the use of our name unless the product possessed unusual merit." It is sold in this city under an iron-clad money back guarantee by all department stores and up-to-date druggists, including the Owl Drug Co.—Adv.

Buchu and Marshmallow Compound

THE GREAT URIC ACID SOLVENT

Uric Acid causes more suffering and disease than anything else with which human flesh has to contend. Practically no one in this age of fast living, insufficient exercise and overeating is exempt from Uric Acid secretion in one or more of its terrible symptoms.

Rheumatism, Headache, Dyspepsia, Liver Troubles, Fermentation in the Bowels and Stomach, Bright's Disease, Heart Disease, Poor Circulation, Kidney and Bladder Troubles, Sleeplessness, Nervousness, etc., are some of the more common ailments arising from an excess of Uric Acid in the system.

The Kidneys are the natural filters of the blood, and when they are overworked and cannot properly carry off the poisons, the excess uric acid (Uric Acid) is absorbed into the system and in time crystallizes.

When this Uric Acid attacks the muscles between the joints and there is no fever, the condition is known as MUSCULAR RHEUMATISM. When it is deposited in the fibrous tissues surrounding the joints and causes inflammation, great pain and swelling, changing from one joint to another, it is called INFLAMMATORY RHEUMATISM. When it repeatedly attacks the nerves of the joints, causing severe pain, though with little or no swelling, it is known as CHRONIC RHEUMATISM.

Sciatica, Gout, Neuralgia and kindred diseases are all results from the same cause—an excess of Uric Acid, brought about by an impaired action of the Kidneys.

Get rid of the cause—the organs cannot properly fulfill their normal functions until this condition is remedied. Do not dose yourself with Rheumatism Cures and Kidney Medicines, as no permanent relief will be experienced until the excess Uric Acid is removed and the Kidneys assume their natural action.

Buchu and Marshmallow Compound is the greatest Uric Acid solvent made. It is not a patent medicine, but the result of the accumulated knowledge of experienced chemists and several thousand physicians all over the country. We have manufactured this remedy for twenty years, the marvelous results obtained warrant our claim that it is the best remedy ever compounded for this purpose. One bottle often restores the Kidneys and Bladder to their normal health and strength. Even in the most aggravated cases or those of long standing, the improvement shows after taking the first bottle should be so marked that the treatment should no longer be considered an experiment. \$1.00 per bottle at all good drug stores in Portland, or sent direct on receipt of price. JOYNER DRUG CO., Spokane, Wash.—Adv.
