Mental Work

Great Mistake to Imagine You Can Work Better and Faster on the Starvation Plan. Eat What You Like But Follow With Stuart's Dyspepsia Tablets.

Mental work uses up energy fast.
And energy comes from food. To
eat little or nothing in order to do
more work is a fallacy that has created an army of dyspeptics. A better plan is to eat the regular portions
of food such as make up the average
meal and follow each meal with Stuart's
Dyspepsia Tablets.

meal and follow each meal with Stuart's Dyspepsia Tablets.

You will then get a double benefit—energy from food and sociability with meals, for, as a rule, the light eater, or those who skip meals, get into a bad habit, a rut, of hermit like isolation. Do not be afraid of gassiness, sour stomach, heartburn, heavy feeling or coated tongue after meals. Stuart's Dyspepsia Tablets arouse the stomach to secrete

pepsia Tablets at any drug store, cat freely of what you like and you will do more and better work than on a skimpy diet. Try this plan .- Adv.
