

AMERICA'S ALLIES DEEPLY REGRET TREATY DEFEAT

Thomas Nelson Page, Former
Ambassador to Italy, Says
Grave Injustice to Peace Cause

WORST ELEMENTS OPPOSED

Germans, Sinn Feiners, I. W. W.
and Bolsheviks Are Against
Treaty Made at Versailles.

Thomas Nelson Page, former ambassador to Italy, who has recently returned from that country, in the following article prepared for the United Press, gives his views as to the probable effect of the defeat of the peace treaty at the senate.

By Thomas Nelson Page
Former Ambassador to Italy
Washington, Nov. 21.—(U. P.)—
I consider the defeat of the peace treaty as an immeasurable misfortune. Those who defeated it have assumed the most terrible responsibility which any men have assumed in our time. Its effect must be to plunge Europe into even deeper chaos, from which America can hardly escape entirely. Those who were most against the treaty and the League of Nations were the Germans, the extreme Sinn Feiners, the I. W. W. and the Bolsheviks.

Those who have just killed the treaty, however sincere their motives, have given these cause for great rejoicing. No one maintains that the treaty or the league was perfect, but everyone knows in his heart that it was a better treaty and sanction than was hoped for one year ago.

Just one year ago and a little more, America and the world were holding their breath at what was happening in France. We were vowing to God that if peace were vouchsafed us, that the thing which was destroying the world and had already swept away so many millions of men should never come again. The ruins of France and Italy still were smoking. Our men were dying by thousands in the Argonne and along the other fronts to save the world, and it was saved.

ACTION IS DEPOSED
I was present when David Lloyd George laid the treaty of peace on the table of the house of commons and declared that the League of Nations was the only means of future safety in sight and that he could not imagine how any sensible man could oppose it being fully tried out. Since that time the treaty has been approved by all the allies.

But the senate of the United States has rejected alike the treaty and the League of Nations. Thus the United States and China stand out alone against the treaty and league. China may have a defensible reason, but what reason have we? If the treaty did not protect America then human intelligence has no sound basis.

Europe is in a condition bordering on chaos and this is not likely to bring order there. The first thing will be Germany's relief from the exactions of the treaty. Can it be that she now will put forth her efforts to pay the great reparation amount imposed upon her? Unless indeed she recognizes that the present situation offers the unexpected chance for her to conquer the world more commercially? If not this, then the result must and probably will be in any event reestablishment of great armaments.

SAFETY MUST BE SECURED
The League of Nations, having been repudiated by us, the result to us is clear. It means we must inaugurate here a great armament. We, Germany and China alone stand outside of the league, which at present constitutes a sort of inchoate alliance of those who have entered it. The present situation as I see it is that we have had a chance to escape from being overwhelmed by what threatened to be a universal deluge and the senate has thrown it away. We must now find some other ark of safety. The chief builder of the ark that promised us rescue worked himself nearly to death to save us. And it looks as if those who were not called in to help build the ark have sunk it. What will they give us in its place?

Attempts to Lower Taxes Investigated By Portland Official

Attempt of officials of the public service corporations in Portland to induce the state tax commission to lower their taxes prompted the city council to send Deputy City Attorney Latourette to Salem Wednesday to investigate the entire matter.

City commissioners point out that any reduction of the tax levy or the ratio of valuation on such property would result in a loss of revenue to the city at a time when such revenue is badly needed. Latourette found on inquiry at Salem that proceedings had not advanced far enough to warrant the announcement of any tentative figures. Properties of the public service corporations were taxed last year on a basis of 62 per cent of their actual value. Gross earnings, dividends paid and property owned by the corporation were all taken into consideration.

The budget, which totals \$12,685, is practically the same as that of last year.

Attempt to Rob S. P. Safe Is Frustrated

Forest Grove, Nov. 21.—An attempt to rob the safe in the Southern Pacific station was made early Thursday. Yegmen jimmied the door to the baggage room and secured a roll of blankets. The men tried to force the door to the safe and thoroughly soaped the door of the safe. Before they could apply the explosive the two lookouts on the outside were discovered by nightwatchman S. Jennings, who took four or five shots at the men but apparently hit none of them.

Walking Under Difficulties

"Believe me, I suffered from stomach and bowel trouble right. This weakened me so that I could scarcely walk. I could do no work. This was my condition when I started taking Venus' Wonderful Remedy on the advice of a friend. Now I am working every day and feel better than I ever did in my life. It is the only medicine that ever touched me." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. At all druggists.—Adv.
