The Columbia Grafonola Is Music Personified

Its tone arm is made like a cornet or bugle—its magnifier combines the clearness of metal with the rich woodiness of the violin-like horn that is made of wood steamed into place with its "expression" pieces glued in as in a master's violin. Its shuttered front is a patented arrange-

ment modulating the volume of the music—like a pipe organ.

Any Victor record can be played on the Columbia and in addition there are many exclusive Columbia artists such as the famous Barrios, Stracciari, Charles Hackett, Rosa Ponselle, Nora Bayes, the comedian Al Jolson and many others.

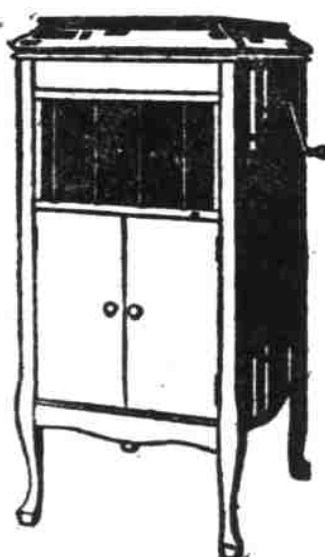

Every Part of the Columbia Grafonola Is Made by the Columbia Company

It is not "assembled" like so many talking machines. It is built by people long familiar with the Columbia and with Columbia standards. The Columbia motor is built by Columbia workmen. Its secret reproducer is patented and is the sort that doesn't squeak, doesn't rattle, doesn't get out of order.

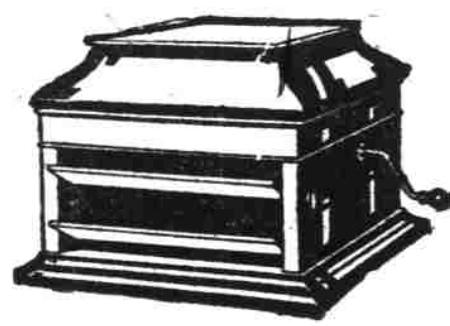

Give the family a Columbia Grafonola this Christmas and you will be glad of it all the year long.

Dozens of them ready for immediate delivery or Christmas reservations.

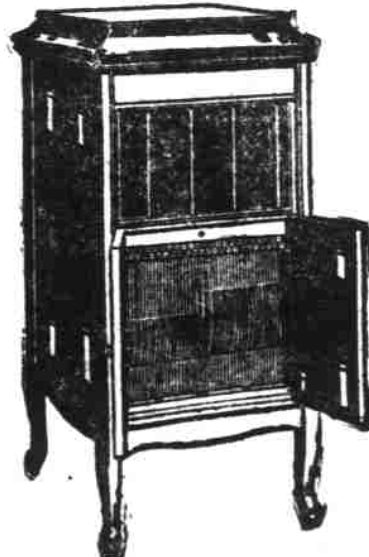

Priced \$20 to \$250.
