The matter of providing funds of necessity must be referred to the legislature, and a bill covering the development contemplated will be presented at the special ses-

In the organization of the port of As-toria it was provided that the port commission should have power to issue against the port to an amount equal to 10 per cent of the assessed valuation of the port. It is proposed to increase the bonding right to 15 per cent, thus raising nearly \$2,000,000 for use by the port in continuing develop-

The additional improvements desired by the port are listed as follows: Naval to mouth of Walluski river and to Miles Crossing and Warrenton, dredging Youngs Bay, drydock and completion of piers of 4, 5 and 6 at municipal docks. The proposed drydock would cost in the neighborhood of \$1,000,000.

FAYKING WOULDMAKE MARRIED Woman Is Jailed at MEN WEAR RINGS IN NOSES

(Miss King is a Portland girl, whose first news-paper work was published in The Journal set-eral years ago. She now is located in New York.)

Here's another married man that's been holdin' hands with some dame, and when the date rolls around for their wedding it turns out he's got a wife he's had for 25 years.

His wife thinks the "bride-to-be' must have known about her, as she wrote to her husband every day when he and this girl were at the same summer camp, because she says she put her name "Mrs. So and So" up in the corner of every letter! As if any married man who want-

ed to pass himself off as single to a girl couldn't explain away a little thing like that!

Lt's pretty tough to get a line on these fast men workers when you meet them. The "Mrs." on a

woman's name always is a clue, or she wears a wedding ring, but how are you going to tag one of these careless male birds that is heavily wed, but has single ideas? They won't wear wedding rings!

There ought-a be some kind of clue in the introduction such as "This is Mr.-and-Jones," the "and" meaning that there is a Mrs. He ought-a be made to have that on his cards; it would save such a lot of trouble for trusting young ladies

who are inclined to take a little at-

tention seriously! Of course, to anyone that is wise, a married man can't fool 'em long! There is an over enthusiasm and old tricks that give the house-broke and bit henpecked male away right at the start. Some time his very seeming singleness makes one suspicious, because, so far as I can see, the single guys generally would have you think they are tied so that you won't try to land them.

There are enough weak-minded girls around the world who are only too willing to entertain some other woman's husband, so why in the world is any married man so yellow as to win a real girl who wouldn't consider him for a minute if she dreamed that he were married! But it's being done!

Why don't some of these reformers lay off wine or cigarettes and the foreign missions and start in on the married men? They're the real men-ace!

The savages have better ideas than we have about these things. Why not adopt their methods of sticking a bone hairpin through the nose of married folks so they will have to give the singles a chance. Leap Year is here, girls! I may have my faults, but they're
