

# SENTENCED TO 90 DAYS FOR DRIVING CAR WHILE DRUNK

## John Howie Had Served 60 Days in Jail for Disorderly Conduct and Appealed Case.

A sentence of 90 days was added to 60 days already served by John Howie, by Judge Morrow Thursday on a case appealed from the municipal court. Howie had previously been sentenced to 180 days in the city jail or pay a fine of \$3000 on a charge of drunk and disorderly conduct.

In placing the case before Judge Morrow in the circuit court, Deputy City Attorney Ted Lansing entered a modified plea for leniency, stating that Howie was a good citizen when sober, but adding that when drunk he went all to pieces.

The sentence was imposed by Judge Morrow following an accident on November 13, when an automobile in which Howie was riding and which was driven by his wife, collided with a gasoline pump in a garage at East Eleventh and Market streets. Officers who were summoned at the time testified that both Howie and his wife were drunk, and a bottle half full of moonshine whiskey said to have been reposing between the two, was produced in evidence. The bottle later mysteriously disappeared.

Howie was convicted by Judge Roseman on the charge of operating an automobile while intoxicated, and she appealed the case. The hearing will come up in March.

In his defense, Howie admitted that he had quaffed a few drinks, but denied the charge that he was intoxicated at the time of his arrest.

#### Builders of Gulf and Atlantic States Appear in Support of Jones' Bill.

Washington, Jan. 9.—(WASHINGTON BUREAU OF THE JOURNAL.)—Builders of wooden ships, principally from the Atlantic and Gulf states, appeared Thursday in force before the senate commerce committee in support of the Jones bill to reimburse builders for equitable expenditures not specifically covered by contracts.

John Barton Payne, chairman of the shipping board, expressed approval of the bill in general terms. Differences developed between members of the committee as to whether the board should be given a free hand to make adjustments or whether relief should be limited to those who made plant extensions on concrete assurances of responsible government officials.

Senators Chamberlain and McNary, both members of the committee, expressed the opinion during the hearing that the builders' good faith in reliance upon promises or upon acquiescence of the shipping board should be tested. McNary announced he intends to offer several amendments, which the committee will consider later. Senator Chamberlain of Louisiana favored granting full authority to the shipping board to adjust the claims, while Lenroot of Wisconsin and Kirby of Arkansas favored restrictions. John H. Fahey of Boston, representing the term shippers, made a long statement of their vicissitudes and conditions under which the claims are now presented. The hearing will continue tomorrow.
