#### **TODAY'S FORECASTS**

Portland and vicinity-Tonight and Tuesday fair; easterly winds. Oregon and Washington-Tonight and Tues-day fair; gentle easterly winds.

#### WEATHER CONDITIONS.

No well defined area of low pressure is shown on the map this merning. The pressure is above normal over practically the entire country, the highest readings being in the extreme northern plains region and on the north Atlantic coast. plants region and on the north Atlande Cosat-Except for light precipitation in parts of Cali-fornia, Utab, Arizona and New Mexico the weather remained Tair, although there is con-siderable cloudiness in various sections. Mild temperature is the rule over the greater part of the United Stetas, but there is an area of ex-treme cold that covers the middle western Canadian provinces and reaches southward over North Lakota. In the upper Mississipoi valley Canadian provinces and reaches southward over North Dakota. In the upper Mississippi valley the temperature is more than 20 degrees above normal. Under the influence of the prevailing high pressure fair weather is expected to con-tinue in Portland and its vicinity tonight and Tuesday.

Tuesday. Relative humidity at Portland: Noon yester-day, 83 per cent; 5 p. m. yesterday, 80 per cent; 5 a. m. today, 83 per cent. EDWARD L. WELLS.
