

WILSON DECLARED BETTER THAN EVER BY DR. HUGH YOUNG

Mental Vigor Is Prodigious and His Improvement Is Complete, Asserts Consulting Physician.

Baltimore, Md., Feb. 11.—(U. P.)—President Wilson in many ways is in better shape than before his illness, his mental vigor is "simply prodigious," Dr. Hugh H. Young of Johns Hopkins university, one of the president's consulting physicians, declares in a copyrighted interview published in the Baltimore Sun.

"If you think it would quit unassisted, which is without foundation, and ally alarm, which is without justification, I shall gladly lay all the facts as to the distinguished patient's condition before the public," Dr. Young said in the interview.

"From the very beginning, the medical men associated with the case have never had anything to conceal. When I first saw the president in October a crisis had arisen of such gravity, owing to the development of prostatic obstruction, that an emergency operation to relieve this situation was contemplated, but by a fortuitous and wholly unexpected change in the president's condition the obstruction began to disappear.

"The improvement in this respect, which has been steady, is now complete. The president was organically sound when I saw him first, and I found him not only organically sound when I visited him last week but furthermore, all organs were functioning in a perfectly normal health manner.

"Partly passed, the president's general condition and specifically the slight impairment of the left arm and leg have improved, more slowly it is true, but surely, steadily. There have been no setbacks, no backward steps and rumors to this effect are rubbish.

MIND ALWAYS CLEAR

"As you know, in October last we diagnosed the president's illness as cerebral thrombosis, which affected his left arm and leg, but at no time was his brain power or the extreme vigor

and lucidity of his mental processes in the slightest degree abated. His condition has from the very first shown a steady, unwavering tendency toward resolution and complete absorption. The increasing utility of the left arm and leg, greatly impaired at first, have closely followed on this improvement. The president walks sturdily now, without assistance and without fatigue. And he uses his still slightly impaired arm more and more every day.

BETTER THAN EVER

"As to his mental vigor, it is simply prodigious. Indeed, I think in many ways the president is in better shape than before the illness came.

"His frame of mind is bright and tranquil and he worries not at all. He knows that he is now quite up to fighting weight; in fact, he weighs quite a few pounds more than he did when we put him to bed.

"You can say that the president is able-minded and able-bodied and that he is giving splendid attention to affairs of state and that we have every assurance that his will become progressively more active in these matters with the advent of spring and sunshine which cannot now long be delayed."

A. Lincoln

Steward of Almighty God

What was the secret of Lincoln's power? He revealed it once in a letter to a personal friend:

"I hold myself as an instrument of Providence. I have my own views and purposes. I have my convictions of duty and my notions of what is right.

"But I am conscious at every moment that all that I am, all that I have is subject to the control of a Higher Power."

"An instrument of Providence"—a steward of Almighty God—in that conviction lay his mastery.

To promote a wider consideration of the claims of Christian stewardship, both inside the churches and out, the Protestant denominations of America have set aside February, the month of Lincoln and Washington, as Christian Stewardship

Month, climaxing on Sunday, Feb. 22, as nationwide Stewardship Acknowledgment Sunday.

These are fundamentals of Stewardship:

1. The recognition that life and all its possessions, are a trust from Almighty God.
2. The determination to execute this trust by setting aside a certain definite first proportion of time and income in His name and for His work.

America's problems are spiritual and must find their final solution in the increase of the spirit of Lincoln.

The spirit of Christian stewardship that subordinates selfishness to service, and asks not: "How much can I get?" but "How much can I give?"

Will you dedicate some definite proportion of your income to His cause?
