## GRAIN CROP OUTLOOK IN CENTRAL OREGON IS VERY GOOD 15 UND BE CORDER IN CORD OF THE CORD OF BASKET CENTRAL OREGON **EXCHANGE RISE**

## **BUTTER ADVANCE**

in Butterfat Caused by the Insistent Call From California.

of butter and butterfat mentioned in the thin layer of salt and then a layer of excellent and present prospects are for market closed irregular today. Most of the last edition of The Journal Thursday, went into effect Friday with the market

Such a course in butter prices had been expected here for some time, although the leading recements were making every effort to keep values down because of the fear that such a movement of values would have a very bad effect when a surplus was shown in the trade.

It has been the extreme call for supplies from failfornia as well as from other places that finally forced the sharp advance in butter values here, and the supplies are average, fancy stuff being forced the sharp advance in butter values here.

When some of the fish are wanted for ports the outlook for grain as most hopeful. "Fall wheat is about one inch high at this time in the Mayville section," says Mr. Beckley, "and it looks goed. While the area planted is most time in the Mayville section," says Mr. Beckley, "and it looks goed. While the area planted is one agreat as in some years, there is much moisture in the ground and already spring found the sharp advance in butter values here. Sightly higher and inferior stuff fractionally few weeks. It has been the extreme call for supplies from falfornia as well as from other places that finally forced the sharp advance in butter values here. For some days cubes have in reality been 2c bigher proportionately than the print values and such a condition could not exist indefinitely. No change was previously made in print prices ere because the trade felt that the cube advance and the California demand would be of short duration, but such a demand has continued and is still shown not only here but at other Pacific

EGG TRADE IS HOLDING WELL With a further advance in the price of eggs at California points, the local trade is holding very well with no change in quotations here during the day. Receipts continue liberal with quality excellent.

CHEESE TRADE IS DEMORALIZED Trade in the cheese market is thoroughly de-moralized here and packers are offering triplets down to 26c a pound in 10 case lots to whole-alers. This is for the output of districts out-ide of Tillamook. The latter is quoted steady but nominal here.
