Don't wait until it is too late—until the State Educational Fund is exhausted—enroll now. Call or write for the Big No. 4 Catalog today.

## Catalog Worth \$1 Given Free

The Adcox Catalog gives complete information about the largest and fastest growing auto and gas engine school in the West. Not only is this school the largest, but it is also the best, as proven by the number of graduates who have made good in a big way and by the reports of more than 500 satisfied students now in attendance.

This big 88 page catalog tells all about Adcox training. It shows pictures of the instructors, pictures of the school, pictures of the shop equipment and machinery, pictures of the 26 different types of motors and chassis used in our classrooms which includes everything from a Ford to a Packard Twin Six. It points out our method of teaching; shows why it is superior to working in a repair shop or being trained in a repair shop; shows what you should know about magnetos, coils, armatures, starting motors, generators, lighting systems, batteries, carburetors, ignition and valve timing.

There are scores and scores of letters from former graduates who have gone out and made good—if you call making good earning \$500 a month with bright prospects of a great deal more. It shows how Adcox has a practical training school instead of an annex to a repair shop. It warns you to look out for the cunning statements and unsupported claims of auto schools that cannot back up their statements with facts. We prove every statement we make. We go farther than any other gas engine school on earth to prove our reliability. We do not leave even a shadow of a doubt. We give you a month's free trial and let you be the judge of whether or not you are entirely satisfied. No other school anywhere will go this far. The only reason we do it is because we are right, we know we are right and we want you to know it.

Any little "one horse" school can make big, swaggering claims and fill you full of "hot air," but they cannot meet the acid test of superiority—money back and pay for your time if not satisfied.

## Our Guarantee A Month's Trial Free

You are guaranteed satisfaction. Take the course for 4 weeks. If we prove every statement we have made, then and then only, pay your tuition fee. Not only that, if you find any statement in this catalog that is not absolutely true, we will pay you 50 cents an hour for every hour you have attended the school.

We will put it in writing, too. This ought to be fair enough. A school that didn't "deliver the goods" couldn't afford to take chances like this. Better not wait for us to mail you a catalog, but come over at once and see the school.
