Dresses Fashioned by Peggy Paige New York
 For Girls 13, 15, 16 and 17 Years

PEGGY PAIGE frocks are the very quintessence of youthful charm—each fold of soft georgette and satin and every crisp taffeta puff and ruffle is eloquent of youth—and fashion—and grace!

—Utterly different and wholly charming are these irresistible frocks of splendid quality taffeta and georgette crepe, whose skirts are either ruffled or puffed or shirred, or hang in graceful accordion pleats—and whose basque-like blouses are ingenious affairs displaying unexpected means of garniture.
 —Bands of satin, gold-edged ribbon (in quaint lovers' knots) and wool embroidery in lovely shades contrive to form the most fetching adornments.

Black, Navy, Brown

—The fashion display of Peggy Paige dresses in our windows gives one an idea of the appeal of these lovely new frocks, which are to be found here only.

The Man's Clothes Question Is Best Answered Here

THERE is no doubt about it—the man has a clothes problem to deal with. We've not looked at the matter slantwise—we started to work on this problem a year ago, and our contention is that we, in offering a representative line of men's spring suits and overcoats at

\$52.50

have answered the question and solved the problem to the keen satisfaction of the average man.

—Understand, please, that the suits at this price represent the product of the tailoring geniuses of America.

—Just come in tomorrow and investigate, and in every suit you will find the label of one of these celebrated makers:

Stein-Bloch
Fashion Park and Langham

WE ARE enthusiastic, men of Portland, because, in our wonderful clothing stock, which was "merchandised" six months in advance of the time that the average store buys spring clothing, we know that we have the edge on competition at every price from \$40 to \$75.

—We know that our planning far in advance has made it possible for us to do things now for you that never would have been possible otherwise.

—We will be mighty pleased to show you through the new spring lines—tomorrow will be an excellent day and it does not particularly matter if you simply want to look. We are converting lookers into buyers every day because we started far in advance to solve the clothing problem of today.
