

WARRENTON DWELLERS RESENT PAPER'S ATTITUDE

Warrenton, March 13.—That citizens of Warrenton vigorously resent the aspersions cast on the integrity of the people of this city through articles published in the Portland Telegram relative to the recent elections, is the statement of City Attorney O. B. Setters and the Warrenton News. They say the Portland paper insinuates that the city of Warrenton seeks to repudiate its bonds, and that the Telegram articles are riddled with gross misstatements of facts.

TOPICS OF THE DAY

"If The Literary Digest chose the four words most frequently printed in the newspapers of the United States and Canada in the last three months they would be: 'Pay the teachers more.'"—Saskatoon (Canada) Star.

What Organized Labor Thinks of Prohibition

Labor leaders know the views of the workers as well as politicians know the wishes of their constituents, possibly better, for unionized labor makes its wants known in no uncertain manner. Consequently, when The Literary Digest wished to learn for its readers the attitude of the workingman regarding prohibition, inasmuch as we could not ask the individual union worker because there are about four million of him, we asked their duly elected officials.

In this week's number of THE LITERARY DIGEST—March 13—a summary of the very interesting replies is published. Approximately 30 per cent of the 526 replies of labor leaders inform us that a poll was taken on the question at the regular meeting. Replies came from every State in the Union, and they reflect a considerable sweep of opinion.

"Why don't you 'sick' the prohibitionists on the profiteers?"; "No man has a right to dictate to another what he shall eat or drink, except the doctor"; "There have been more deaths and murders in the period since prohibition went into effect than there were in the same period last year"; are a few of the many replies against prohibition. "Money which formerly bought whiskey is now buying happiness for the workingman's family"; "Men have more of the good things in life since the dry law went into effect"; "Since prohibition is in force, the workers are capable of clearer thinking and do more of it," are typical expressions from the many leaders who favor prohibition.

If you would learn from first hand sources the real opinion of the workingman upon the subject of prohibition, you will do well to read the LITERARY DIGEST this week. Other
