WHEN the lawyer from among the group of Pharisees and Sadducees, harking back to the materialistic and mistaken sense of Judaism, asked Jesus (Matt. 22:36-40), "Master, which is the great commandment in the law?" our Master replied, "Thou shalt love the God with all they heart, and with all they soul, and with all they mind. This is the first and great commandment. And the second is like unto t. Thou shalt love thy neighbor as thyself. On these two comamndments hang all the law and the prophets." This is a profound and entirely metaphysica eaching; a setting forth in concise and direct fashion of the fact underlying all the truth about God and man, the absolutely necessary fundamental knowledge upon which, as Jesus says so hang all the law and the

IN REPLY TO MR. McKERCHER Portland, April 10.—To the Editor of The Journal—I would like to answer Paul McKercher's article in The Journal of April 9, headed "When Leaguers Come" Replying to paragraph 1: McKercher refers to the American Institute of Banking as fearing the farmers. He is evidently quite ignorant of the American Institute of Banking, as this organization is composed entirely of bank clerks and is organized for the purpose of educating the junior clerks and preparing them for higher posi-It is not an organization of the bank owners, so to speak.

In paragraph 3 he says the big bankers in Oregon are owners of enormous areas of land. I do know of one Portland man who has stock in one of the banks and who owns several thousand acres of land far in the interior of Ore-gon, and I regret that I do not know more bankers who own farms of any size in Oregon. However, I think this paragraph is very misleading to the In paragraph 4 he states that the

I have attended many bankers' conventions and I have visited the big banks in New York, and I am inclined to think he is very, very much mistaken. He may inform us where he gets this information, so we can post ourselves. He also states in this paragraph that when the farmers organize, the bankers consider them a menace to the United States constitution. My good fellow! It is very evident that you are a radical and know little of the banking fraternity. In the first place, no bank in any section of the United States can succeed unless the farmers, as well as the merchants, are prospering. The only possibility of success for a bank is that its customers prosper, and there is no other organization in the United States that works as hard to assist its cus-

tomers as the banker. In paragraph 6 you ask Mr. Banker sets the price of products which the farmer sells, the market of beef, etc. I would like to find someone who could answer these questions myself, as certainly the banker has nothing to do with it more than the farmer or the merchant. If he did, I think perhaps prices would be lower, for abnormal conditions are the one thing that bankers fear. You ask also if the government takes any action in this matter. That is up to you. You are as much a part of the government as any one man in the government. Your vote counts for just as much. You ask about the potato grower having anything to say about prices. potatoes are quoted at \$7 to \$7.50 per hundred, that he is perhaps not complaining. The Standard Oll company, you say, is demanding 250 per cent diviand farmers are all paying tribute in the banker.

writers have complained about reckless driving. I very much agree with them. In one of those letters your answer was, not to become lawless. I suppose we shall have to before long, since the city seems to be without law, for every time a pedestrian is killed the driver is sure to go free. Look at Sorenson and Joe Meilke. Since Meilke went free after he killed little Viola Cummings a short time ago, he was arrested again for driving while drunk, and again he is free. Before long he may have another victim. I have watched my step while crossing the street, and have had several narrow

escapes. The drivers seem to enjoy the fun, for they are always smiling. They own the street, so we pedestrians will have to keep off and stay away from shopping.

Another complaint is that two boys living on Sixty-seventh street own a motorcycle, and have used the walk for motor ing from Forty-second avenue to Powell Valley road since last fall, and they are using it yet. There are several small children playing along the street, and their lives are in danger, especially during Saturdays and Sundays. It's no wonder the law never looked into this.
