USED CARS THAT WE'RE SO PARTICULAR ABOUT TAKING IN ON NEW ONES is just the thing for a quick, dependable turn out and back—and comes in handy, too, when "the folks" want to do a little running about town or have some fresh air on Sundays—a

THEY'RE NOT AFRAID OF ROUGH ROADS AND LONG JOURNEYS Another thing: Did you ever stop to figure that dealing in used cars in the manner strictly observed here-that of taking in used cars in part payment for new ones—means that we never have anything on hand that is not in pretty good shape when we get it, because the former owner always sets his price, and if the car is not worth it, it simply means "no trade." In other words, we don't go into the open market and buy up "just any old thing" to fix up and sell at a big profit.

That's another thing about getting a used car here—profit. We get so many in that we have to turn them quickly—and we'll tell the world we're glad enough to dispose of them, as a rule, at what they cost us.

And then, too, we're an established distributive agency for a number of well-known standard makes of automo-biles, and the same high-class methods blies, and the same high-class methods of doing business that prevail in distributing these cars are in vogue in the work of disposing of our used cars. Thirs, when we place our knowledge of new and used cars back of your purchase, as is necessarily the case when you purchase here, you are assured of clean-out merchandising and close mar-
