Editorial

The Full Meaning and Significance of Our CORSET SERVICE

—Corset Service is a hobby here. It is as far removed from a money making proposition, insofar as the manner in which the department is conducted, as any merchandise department could be.

—We believe that our Corset Service is the foundation of our entire business in apparel of all kinds.

—Therefore, we have established rules, one of which is this:

You cannot buy a corset here if we have not the proper model and correct size.

—And so we might say that the physical welfare of the womanhood of Portland, in a great measure, is in our hands, as one cannot deny that the well fitted corset is a health aid, as every woman and medical authority will tell you.

—We are here to sell corsets—as many of them as possible—but not at the expense of the reputation which we have built up for CORSET SERVICE.

—The world's best makes will be found in our stocks, including
