

WASHINGTON HIGH PRINCIPAL TO RUN SAFETY COUNCIL

The election of Hugh H. Herdman, now principal of Washington high school, as vice president and general manager of the Oregon and Columbia basin division of the National Safety Council, was announced by B. C. Ball, president of the division safety council, Thursday evening.

He will begin his new duties on the termination of the present school year. His experience in executive organization includes his 12 years as principal of Washington high, the presidency of Multnomah Amateur Athletic club, the University club, the "tenants' treatment fund" and other civic organizations. He has been active in the Oregon Safety Council since its organization in 1917. "Safety organization in the Oregon country must include a certain autonomy," said Mr. Ball, "because of the distance from the headquarters. At the special session of the legislature which convened in January," he added, "a general safety law was passed committing to the state industrial accident commission the duty of making and enforcing rules and regulations which should be binding on all employers of labor. Full provision is made for public hearings and careful investigation of plant conditions before rules are formulated, but when the industrial commission finally determines on the rules and regulations affecting safety in the various industries, these rules have the force of law and any violation is punishable by fine and imprisonment."

H. P. Coffin, who has acted as manager of the local safety council since its inception, will continue in departmental charge of features of its work, it is said.

MRS. HAWLEY APPEALS FROM DECISION GIVING DIVORCE TO HUSBAND

Oregon City, April 23.—Appealing from the general decree issued by Judge George B. Bagley in her divorce suit against Willard P. Hawley, Jr., attorney for Mrs. Margorie Hawley has filed in the county clerk's office a notice of appeal to the state supreme court and has filed a bond for all damages, costs and disbursements which may be awarded against the plaintiff on the appeal. No appeal is taken from the decree wherein the plaintiff was given the temporary custody of the child, nor \$250 a month alimony, both pending the further order of the court, nor the allowance of \$1000 for costs of appeal. Attorneys C. Schuebel and Latourrette & Latourrette, attorneys for Mrs. Hawley, will base their appeal on the grounds that since Judge Bagley found that the charges of Mrs. Hawley against her husband were disproved, and also those in the counter charge of the defendant against Mrs. Hawley, Mrs. Hawley was just as much entitled to a decree as was the defendant.

DOCUMENTS TAKEN IN RAID ON I. W. W. TERMED EVIDENCE

The first day of testimony in the case of the state against Lawrence A. Sorlie, charged with violation of the state criminal syndicalism act, is in progress in Circuit Judge Morrow's court. The police officers participating in the raid on the I. W. W. hall at 128 1/2 Second street, on the night of November 11 last, have been on the witness stand to identify books, papers and seized documents.

George F. Vanderveer, attorney for Sorlie, made a demand for the restoration of the articles taken in the raid, alleging that they had been acquired by lawful means and were improperly introduced as evidence. The court denied the demand and objection, stating that so far as this court is concerned, the questions raised have been settled in the case of the state versus Ware, where there was search and seizure without the formality of a warrant.

It was testified today that a full truckload of papers and documents were taken in the raid on the I. W. W. hall.

This order, which was made without the demurrer being argued, was given in order that an appeal may be taken to the state supreme court at the earliest possible moment. The ruling of the circuit court practically holds that the proceedings in connection with the recent bond election at Seaside were legal and the plaintiff will thus be forced to take the appeal.

Missing Judge Is Found With Fans At Premier Game

There was a wild scurrying to and fro to discover the whereabouts of Circuit Judge H. H. Belt of Dallas, sitting in court sessions here, when he failed to appear at the courtroom at 2 o'clock Thursday afternoon.

A jury had been sworn in to try the case of H. S. Simmons against Alex Zefrithas, an ejection suit. The jury, clerk, bailiff and attorneys appeared in court, but the judge was not to be found. Recently he tried an I. W. W. case of much note, and there was wondering as to the possibility of a kidnapping by the "Wobblies."

Finally, someone thought himself of the opening baseball game. A telephone message was sent to the press box, and the information was flashed back that Judge Belt was there, happily ensconced between Judges McCourt and Gatens.

Hose and Airgun Used to Battle Burglar, 'Mere Boy'

F. C. Schulz in frantic tones Friday night summoned police.

"Burglars on the roof of my house at 674 Fifty-seventh street north," he whispered into the telephone. "I saw them. Driving at dare-devil speed, motorcycle policemen Abbott and Forken prepared to battle the bandits."

When they arrived, Mr. and Mrs. Schulz were themselves conducting an offensive. Schulz was taking beads with an airgun, while the police played the garden hose toward the chimney, where the marauder lurked.

"Come down from there or we'll plug you full of lead and drown you," they shrieked.

A sight of the bluecoats probably reassured the fugitive and he braved the attack and slid from the roof.

The policemen took him home. He was 14-year-old Dan Kullin, who lives at 672 Fifty-eighth street north. He had been playing hide and seek with the boys.

Siberia in Bad Shape Every Way, Asserts Portland Physician

Dr. A. K. Higgs returned to his home in Portland this morning from Siberia, where he has spent the last few months as a nose and throat specialist for the American Red Cross. The doctor arrived at Seattle early in the week in charge of a party of Red Cross nurses who have been associated with the medical and surgical work of the Siberian country.

Dr. Higgs traversed much of the territory along the Trans-Siberian railroad from Vladivostok to Omsk and had opportunity to view conditions at close range. His review of these conditions is not a happy one.

"Politically, socially and in a sanitary way, the country is in very bad shape," Dr. Higgs said today. "Affairs have improved within the last year, but they are yet far from perfect."

Judge H. H. Belt Must Pay Penalty For His Truancy

Circuit Judge H. H. Belt, who went to the opening baseball game, leaving jury, clerk, bailiff and attorneys in his courtroom without any formal adjournment of court, must pay the penalty therefor. It has been so decreed by the bailiff, to whom the jury delegated authority to decide what was to be done.

The august judge, according to the resolution adopted, "was induced by slick city fellows, to wit: John McCourt and W. N. Gatens, to report with them to Judge McCredie at Twenty-fourth and Eighth streets, Portland, Or., there to sit en banc in a case where the Portland baseball club was plaintiff and the Los Angeles baseball club was the defendant."

The decision is that Judge Belt shall furnish transportation and tickets for counsel and jury to a "rehearing" of the baseball case at 2 o'clock Saturday afternoon.

It is probable the judge will pay the penalty.

Sent to Jail and Fined for Using 1 License for 2 Cars

Freed only a few days ago by Judge Jones after arrest on a charge of attempting to steal potatoes near Gresham, George Abdie and Charles Tedesco met different luck today when they appeared before Municipal Judge Rossmann. Patrolmen charged the pair with violating the state motor vehicle laws by operating two cars on one license.

According to Deputy District Attorney Deich, Tedesco's automobile was smashed in an accident. Patrolmen found only one proper license on the car. Investigation revealed that the license had been issued for a truck operated by Abdie.

A garageman, according to police, says Tedesco has been using Abdie's license for several months.
