

LOCAL RAD TINED TO FORESTALL MAY DAY RED ACTIVITIES

Portland police Thursday raided the headquarters of the Shipyard Laborers and Riggers' union, 310 Lumber Exchange building, and arrested four alleged radicals, in an attempt to forestall any possible May day demonstration in this city.

MEN ARE RELEASED

After questioning the four men taken into custody the greater part of the afternoon, Special Agent William Bryon of the department of justice and Lieutenant Harvey Thacher decided to release them without preferring charges.

LETTERS ARE FOUND

Lehto was arrested Wednesday night by Patrolmen J. M. Miller and E. E. Miller, who also assisted Sergeants Epps and Thacher in the raid Thursday. Letters addressed to L. Kennedy, 310 Lumber Exchange building, relating to I. W. W. business, which were found on Lehto, caused Chief of Police Jenkins to order the place raided.

CLAIM FEDERAL OFFICIALS ARE MARKED FOR DEATH

Washington, April 30.—Government officials and others have been marked for assassination, May 1, Attorney General Palmer has announced. At the same time he made public literature of radicals calling for a general strike similar to those called for other countries, notably France.

MARKED FOR DEATH

"Information we have recently received from sources we are not at liberty to reveal, shows a number of men, largely government officials, have been marked for assassination May 1, in connection with radical activities," said Palmer.

FACTS BEING COLLECTED

Agents of the department for months have been collecting facts and have had men "planted" in the various organizations. State police have cooperated, and protection is being given threatened men.

BLUEBEARD PENITENT; HE IS AWAITING DEATH

Ever heard in the United States, Harvey was in a very weakened condition at the county hospital. He refused to see anyone but hospital attendants, one of whom he is said to have told that he knew that he faced the gallows and was resigned.

RESIGNED TO HIS FATE

"I tried twice to kill myself," he is reported to have said, "so I don't fight the extreme penalty for my confessed crimes. But I must have been insane. I know now I was insane when I did it."

WIFE'S BODY SOUGHT

Supplied with picks and shovels, an expedition headed by District Attorney Woolwine left San Diego today for a lonely spot near Borrego Valley to locate the grave of Nina Lee Deloney, one of the four women whose murders have

Farmer, 63, Also Teacher, Writer, Dips in Politics

Aberdeen, Wash., April 30.—W. G. Powell, aged 63, a farmer living in the mountains, six miles west of here, superintends the work of a large farm and teaches the neighborhood school. He rises each morning at 4 o'clock to attend to the farm duties and is at school promptly at 8:30. He has time to write for farm journals and is interested in county politics. His school has five pupils, each in a different grade.

been admitted by Charles Newton Harvey, the modern Bluebeard and super-bigamist.

The expedition was guided by a map drawn at Harvey's direction in which he outlined in detail the route to be taken in going to the grave of the Deloney woman in a small valley off the canyon.

WEDDED 15, HE SAYS

He admitted that he had married 15 women altogether, probably more. Nina Lee Deloney, whose early homes were in Montana and Kentucky, and Betty Prior of Seattle, were cruelly beaten to death with a heavy hammer and their bodies buried, Harvey said in his confession.

TWO ARE DROWNED

Bertha Goodnick and Alice M. Ludvigson both met death by drowning. The Goodnick woman fell out of a small boat into Lake Washington when she and Harvey were boating together, he said, and he made no effort to save her, but sped away, leaving her to death.

INSANE BLOOD LUST

He contended that his desire to kill was an insane "blood lust" over which he had no control, which developed since the war. His crimes were committed in mental blank periods and he himself in his confession said that he may have committed from sources we are not at liberty to reveal, shows a number of men, largely government officials, have been marked for assassination May 1, in connection with radical activities," said Palmer.

BEGAN 15 YEARS AGO

The trail of Harvey was first picked up in Massachusetts, where he began his operations 15 years ago, and ended at Los Angeles, where after the two attempts at suicide he made his remarkable confession from the bed in the county hospital.

SEATTLE WILL ATTEMPT TO EXTRADITE BLUEBEARD HURT

Seattle, Wash., April 30.—(I. N. S.)—Unless Los Angeles authorities have a strong case against "Bluebeard" James R. Hurt, a determined effort will be made to bring him to Seattle for trial for the murder of Mrs. Harry M. Lewis, formerly Miss Elizabeth Pryor of Spokane and Wallace, Idaho, according to word received here today from Sheriff J. H. Grifford of Thurston county.

MYSTERY IS CLEARED

Mystery surrounding the fate of three Washington women is cleared by the confession of the arch-bigamist and murderer. Until last night's confession, it was not known positively that the Pryor woman had been slain and buried in a shallow grave at Plum station, near Olympia. Bits of clothing were identified as belonging to Miss Pryor, but the body never had been positively identified.

SOUL MISS

WITH each purchase of 25c or over of any Soul Kiss item in this series will give you a 25c bottle of Soul Kiss Perfume FREE.

- Soul Kiss Soap 25c
Soul Kiss Lip Stick 25c

REDS ARE CALLED LAWLESS TRAITORS BY PROSECUTION

"A gang of lawless traitors," was the manner in which Deputy District Attorney Bernard designated the I. W. W. in the close of his two and a half hours argument before the jury Thursday, in the trial of Lawrence A. Sorrellie on the charge of criminal syndicalism.

This raised the ire of George F. Vanderveer, attorney for the defense, but District Judge Morrow held that the state's attorney was within his rights and refused to expunge the expression to which objection was raised.

FUNERAL HELD FOR JAMES WILLOUGHBY, HARRISBURG PIONEER

Funeral services for James Willoughby, pioneer of Harrisburg, who died at his home Sunday, were held at the family residence Tuesday afternoon. Interment was in the I. O. O. F. cemetery.

FUNERAL TO BE HELD FOR ROBERT INMAN THURSDAY

Funeral services for Robert D. Inman, president of the Inman-Poulsen Lumber company, who died Tuesday, will be held Thursday at 10 o'clock at the Scottish Rite cathedral, the Rev. Levi Johnson and members of the Masonic lodge officiating.

East Chicago Gains 88.3 Per Cent in Its Total Population

Washington, April 30.—(I. N. S.)—Preliminary figures were announced by the census bureau today as follows: East Chicago, Ind., 1920 population, 35,957; increase since 1910, 10,806, or 88.3 per cent. Crawfordville, Ind., 1920 population, 10,139; increase since 1910, 786, or 8.2 per cent.

Fire Damages Will Delay Operation of Mill at North Bend

Marshfield, April 30.—Henry Buehner, manager of the Buehner Lumber company, estimated that it will be 40 days at least before repairs to the engine room burned this morning can be made so the North Bend mill can operate again.

Two Nominated as Commission Members

Washington, April 30.—(U. P.)—President Wilson today nominated Henry Jones Ford of Princeton, N. J., and James Duncan of Quincy, Mass., to the members of the interstate commerce commission. Duncan was nominated to fill one of the new positions created by the Esch-Cummins railroad law.

Engineering Company Sued

Vancouver, Wash., April 30.—The Reed Engineering company has been made defendant in a suit to collect two claims, totaling \$225.03, assigned to T. W. Kendall by Slatter & Johnstone and Swift & Co.

UNDERSTAND ASIA OR FACE DISASTER, EDITOR'S WARNING

from this article I substitute the word 'Japan' for the word 'Germany,' and the word 'Japanese' for 'German.' Here is my revised version:

"There is no room for reproach of us Anglo-Saxons. Japan was quite anxious enough to listen to reason. Besides, she had the prospect of dominating by dint of moral and peaceful penetration if her relations with her western neighbors had been more intimate, she might have been saved from a great blunder and might have come to understand the English-speaking races. Her action was in part, at all events, the result of ignorance. Neither do we know enough about the Japanese, nor the Japanese enough about us. We knew almost nothing of their traditions, their literature or their customs. Our statesmen did not read their newspapers and rarely visited their country. We were deficient in the international mind. A continuous and strenuous search for fuller mutual knowledge was required."

JAPAN HAS SHORTCOMINGS

"As to Japan, she has certainly her shortcomings. Every honest Japanese frankly admits it. Indeed, intelligent Japanese are sick of the sugary talk of some pro-Japanese in this country. They know that Japan is in a state of transition and that her ugly side as well as her fine aspects come uppermost. But we have to admit that Japan is the bright boy of the Asiatic family. She is the one Asiatic nation which has been so freely given to all Asiatic nations. It is unquestionably true, also, that Japan has made amazing sacrifices in effecting her extraordinary advance. War with Japan would be a crime, just as history now counts the Crimean war as a crime, for the British and French had no quarrel with Russia which could not have been adjusted. America has no quarrel with Japan which cannot be adjusted by better information, plain speaking and honest action."

MUST USE COMMON SENSE

"One thing is certain, if we are to understand the situation in Japan, we have to use our common sense. Much of the finest spirit of Japan is in the life and ideals of the soldier. There has always been a Japanese militarism. It is not particularly a Prussian product. The Japanese farmer has always had to carry a Japanese militarist on his back, as well as a Russian and German militarist may be in Japan as elsewhere in our modern world, we have to recognize that it is human nature with the Japanese to be suspicious of the militarist who has received from the world. Why is Japan respected? She tells herself that she is respected because of her victories over China, Russia and Germany in turn, because she is prepared to fight for what she has. The wrong way to weaken the position of Japan's militarism is to give her the aid of many American writers and speakers who. The result is simply to make all Japanese stand together, to throw them into the arms of the militarists."

JAPAN SUFFERS ARISE

"Considering the slow rate at which militarism is spreading in the world at this moment, and considering the kind of abuse which is hurled at Japan by many authors and journalists, the Japanese are justified in being careful before they let go the weapon which they feel has stood them in such good stead. I suppose no country with which America is not at war or did not intend war has ever been more abused than Japan, except England, and being in the family she understands."

Horace W. Ogilbe

Horace W. Ogilbe, pioneer civil engineer of Oregon, died Wednesday at his home on Palatine hill at the age of 66 years. Ogilbe helped build the Northern Pacific railroad and that of the O. W. N. & N. He also worked on Cascade locks and on harbor development on the coast. He is survived by a wife, two daughters, Katharine Ogilbe and Mrs. Carl Taylor, and 10 grandchildren.
