FRENCH SAILER IS FIXED TO LOAD CARGO OF GRAIN

the French bark Pierre Antonine, loading. Wheat or barley for the United Kingdom by Straus & Co.

This is the first charter of a sailing vessel for outward grain to be anunced during the past six years. The Pierre Antonine is an old trade in Portland and during the days of the French bounty act made frequent trips to this port.

S. S. ROSE CITY REPORTED SOLD TO ADMIRAL LINE

Passenger and freight service between Portland and San Francisco will probably be restored to a pre-war condi-tion in the near future. Sale of the steamship Rose City to the Admiral line is reported on the waterfront and the changing of the steamships President and Governor from the Seattle run to Portland as a terminal is contemplated During the past four years Portland

sas been struggling along with the Rose City, out every 10 days; the City of Topeka, sailing once a fortnight, and steamers of the McCormick line at irregular intervals. The steamship Bear was lost on Cape Mendocino June 15, 1916. After the outbreak of the war the sister ship. Beaver, was commandeered by the government. The Northern Pacific and the Great Northern, operating from Flavel were drafted into the transport service and Portland was left with the old Rose City and haphazard sailings of the steam schooners.

Passenger business between California ports and Portland is now at the top and frequent sailings will further stimulate travel by water.

GASOLINE MAY BE SUPPLIED BY SHIPS FROM GULF PORTS

Organization of a steamship service between Gulf ports and Portland and Puget Sound, which will relieve gasoline shortage in this district and supply the great demand for sulphur, cotton and other products of the South, is being planned by firms at New Orleans Galveston.

This statement was made this morn ing by Walter Parker, general manager of the New Orleans Association of Commerce, who, with J. A. Landry, head of the International Storage & Warehouse company, spent the day in the city inecting terminal facilities and gathering knowledge of possible return car-

"During the last year we have ex-ported millions of gallons of independent gasoline, which could be sent to this as well as any other," said 'We have no shortage in the

Final plans for the service will be made after the New Orleans men visit
