

JAPANESE HEADS WANT AMERICA TO JOIN IN ALLIANCE

By A. L. Bradford
Washington, June 3.—(U. P.)—
Japanese diplomats here today open-
ly expressed the hope that the United
States will become a party to the
British-Japanese defensive alliance.

While Great Britain's views on this
subject are not known definitely, it was
understood that she would like to have
this country become a party to the pact.
The date for notification of the ter-
mination of the alliance is July 18 next.
If on this date neither Great Britain
nor Japan notifies the other nation of
its desire to terminate the alliance, the
pact will continue indefinitely until re-
newed by either party.

Negotiations have not yet been opened
between Britain and Japan for formal
renewal of the alliance. On the
strength of the provision for indefinite
continuation, the Mikado's government
has assumed a policy of watchful wait-
ing. Japan, it is understood, will be
satisfied to have the alliance continue
in effect indefinitely without reopening
of formal negotiations.

Great Britain, on the other hand, is
said to have been ready not to renew
the pact had the United States entered
the League of Nations. Even without
this country in the league, Great Britain
is said to be noncommittal to the al-
liance.

Because of the growing importance of
her dominions, Great Britain will sub-
mit the question of renewal of the pact
to Australia, New Zealand and Canada,
probably at a meeting of the dominions
in London.

Geological Co-ed Is Accorded Honor

University of Oregon, Eugene, June 3.
—Miss Rachael Husband, a junior in the
geology department, and how the only
woman majoring in that department,
was awarded the pin of the geological
and mining societies of the American
universities recently at the Condon club
meeting. The award is given to the
junior in the department who has done
the best work during the past year and
who has been the most inspiration to
fellow workers. This is the first time
it has been awarded here, but it will
now be an annual event according to
Dr. Smith.

Choose Your Shirts Like You Do Your Golf Clubs

You wouldn't say, "Give me a golf club, would you?" Instead, you're particular about
the kind you buy.

Knowing you will require certain clubs for certain purposes, you select with your
needs in view.

Did you ever think of picking your shirts with the same careful discrimination?

Beau Brummel Shirts

A REAL COMBINATION OF STYLE AND COMFORT

Beau Brummels are mighty good reasons why you should be particular
about your shirts. For instance, the collar of a Beau Brummel sets com-
fortably; the neck is cut to make it that way (1). There's ample room
through the chest and at the elbows (6), and the shoulder seam (4) is at
the proper place to prevent binding.

Then its five-button center pleat (5) keeps the front neat and
dressy, and across the shoulders there's that smart, tailored appear-
ance (2) you admire of a shirt.

These are reasons of fit and wearing comfort. Beau Brummels are as
pretty of pattern and stylish as they are comfortable. You'll find
them in every material, from lustrous silks to the more subdued,
conservative kind.

Sold by good stores everywhere
