

5,000 PETITIONERS IN PORTLAND URGE JOHNSON TO BOLT

Five thousand, and more, Portland supporters of Hiram Johnson have signed a petition asking him to repudiate the platform adopted by the Republican convention and announce himself as an independent candidate for the presidency. This is the information telegraphed to the California senator at Washington Tuesday by William F. Adams, 1037 Chamber of Commerce building. In his telegram Adams says: "Please be advised that in excess of 5,000 signatures of voters of the state of Oregon are being secured to repudiate the Chicago platform and announce yourself an independent candidate for the presidency have been secured the first day of circulation." The sponsors of Adams and his fellow Johnsonites springs from a telegram received Tuesday by Herrin & Rhodes, stock brokers, from Dow Jones of New York, stating that petitions were in circulation in New York requesting Johnson to repudiate the Chicago platform and announce his candidacy as an independent, and that they were being freely signed, between 50,000 and 60,000 signatures having been secured in the first day of the circulation. As soon as this telegram was read by Adams and other Johnson supporters, disaffected with the result of the Chicago convention went to work, rounding up between 5000 and 6000 signatures during the forenoon. Adams says that the action here is spontaneous and has no connection with any third party movement, so far as he and his friends are concerned. He does not know whether the New York movement is of third party origin. "We will continue to secure signatures to the petition unless Senator Johnson orders us to stop. In which event we will comply with his wishes," Adams said. Richmond, Va., June 15.—Thousands of workers today were signing petitions addressed to Senator Hiram Johnson and asking that he repudiate the Republican party platform drawn at Chicago and announce himself an independent candidate for the presidency.

Of the 121 chapters in the state 106 were represented Tuesday by three or more delegates. The annual report of the secretary shows a gain in membership of 1445 for the year, bringing the total to 14,471. The opposition was manifested in a letter from the lumber company read at the port meeting Tuesday. The project was based on the cost of such a venture and the allegation that the timber owners pay heavy taxes.

Why Trifle With Green, Unripe Drinks? Drink Schlitz—It Is Aged

YOU would not eat green fruit—fruit which is unripe. Yet unless you exercise care you will drink an unripe beverage—and suffer consequences. There is a tendency today to cheapen and hasten beverages to meet a quantity demand. Schlitz is not rushed. It is a scientific product—not a trifling concoction of the moment. The years of experience and the hundreds of thousands of dollars worth of equipment that made Schlitz famous is making the Schlitz of today. Schlitz is thoroughly aged—fully ripe. Then it is cooled in plate glass rooms, in filtered air. The final step, after bottling and sealing, is sterilization by Pasteur's process—through which it is impossible for any germ to exist. When we say Schlitz is pure we mean also that it contains no living organisms—no bacilli—nothing that causes fermentation in your stomach. Drink Schlitz today. The Brown Bottle protects it.
