Considerable contracting of wheat in sections where early delivery of the viting such selling the trader new crop will be made, is reported by the trade, although most interests are inclined to down the trader and repurchased. The result is net changes for the day were inclined to deny that they are partici-pating in the trade.

Reports that \$8 has been paid and is still being offered in Columbia river counties for Turkey red, have created much interest in the local market, especially as this price is somewhat bigher than had been generally expected. Reports indicate that Europe is "feeling the market" and that some business in new crop is likely to develop from the foreign field within a short time.
