

# IRISH CITY IS REPORTED DARK AND IN HUNGER

London, June 24.—(U. P.)—Sir Hamar Greenwood, secretary for Ireland, today received a second urgent message from the Londonderry magistrates stating that the situation there was desperate and feared it was becoming worse. Supplies of food were giving out and a shortage of gas threatened to throw the city into darkness, the message said.

Belfast, June 24.—(I. N. S.)—Comparative quiet has been restored at Londonderry, according to a telephone message from that city this morning. Only occasional shots were heard in the streets.

It has been impossible to estimate the casualties, but the dead are believed to number nearly a score, if not more. Heavy reinforcements of British troops have reached the scene and the city is under military guard.

Many of the wounded Sinn Feiners and Unionists were carried to their homes under cover of darkness. "The situation is still desperate," said a message to Sir Hamar Greenwood, chief secretary for Ireland, from the Londonderry magistrates.

"Food is very low and the gas supply is nearly exhausted," said a message to Sir Hamar Greenwood, chief secretary for Ireland, from the Londonderry magistrates.

The fighting, which broke out on Tuesday night, reached the climax of its intensity yesterday. The streets were swept with bullets and the air filled with the roar of machine guns and the popping of 500 Sinn Feiners and Unionists. Many buildings were shattered by bombs and rifle fire. The streets are littered with debris and blocked with trenches and barricades.

Charters Are Given Clubs for Boys and Girls; Cities Named

Oregon Agricultural College, Corvallis, June 24.—Boys' and girls' clubs in many parts of the state have been given standard club charters by H. C. Seymour, club leader at the college.

Higher Rates Sought By Express Company

Salem, June 24.—Application for an increase in rates on intrastate express business was filed with the public service commission Wednesday by the American Railway Express company. The increase sought corresponds to that involved in the proposed new interstate schedule, application for the instatement of which is pending before the interstate commerce commission. The state regulatory body is asked to withhold action on the application pending action on the latter.

Thief Takes Trousers And Cash of Tourist

Salem, June 24.—E. Sutton of Phoenix, Ariz., a tourist camped at the state fair grounds here, is minus a pair of trousers and \$50 in cash. Some miscreant, disregarding Sutton's care in placing the trousers under his pillow as a safeguard, took them while Sutton was sleeping. C. E. Madson of Gilbert, Ariz., another automobile tourist camped at the fair grounds, Tuesday night lost \$65.

# Witnesses Say Waterspout in View 50 Miles

Baker, June 24.—Damage of which the extent is not reported is said to have resulted in the Long Creek valley from the rain of last week. In the upper part of the Long Creek valley the storm is said to have assumed the aspect of a waterspout. From other parts of the valley witnesses report that the waterspout was discernible from a distance of 50 miles.

# BACK EAST NEWS GIVEN IN BRIEF

(Continued From Page One.)

water system includes new mains all over the town. Cement walks are being laid on nearly every block in the city limits.

Sausage Mill Mishap Not at Jones' Place

William Werner, who caught his hand in a sausage machine Monday and lost two fingers, suffered the accident in a market at Fourth and Yamhill streets, and not at Jones' market, as was erroneously reported.

Grain Dealer at Convention Mr. and Mrs. Wade Siler of Enterprise are in the city this week taking in the Shiloh convention. Siler is prominent in Wallawa county grain market at Fourth and Yamhill streets, and has an interest in one of the large grain companies there.

Stanfield's Water System Installed

Pendleton, June 24.—A 150 foot tower and 50,000 gallon tank, which will serve Stanfield with water, was completed this week and put in use Wednesday. The

Iwaco, Wash., June 24.—Deputy Fish Commissioner J. E. Campbell arrested Sante Aho and Elmer Pulkkinen, Finns, on charges of operating a fishing boat without a license, and for fishing without naturalization papers.

Both are said to have records for I. W. W. activity. Aho, who had been naturalized, gave up his papers at the time America entered the war, saying he preferred to let American boys do the fighting while he remained at home and worked. He steadfastly refused to give to the Red Cross or other war drives.

Pulkkinen was arrested last winter at a North River logging camp, charged with I. W. W. activities and is out on \$1000 bail pending an appeal from the circuit court of Pacific county.

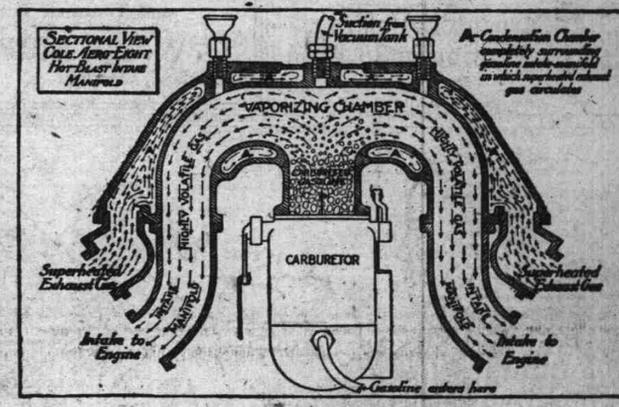

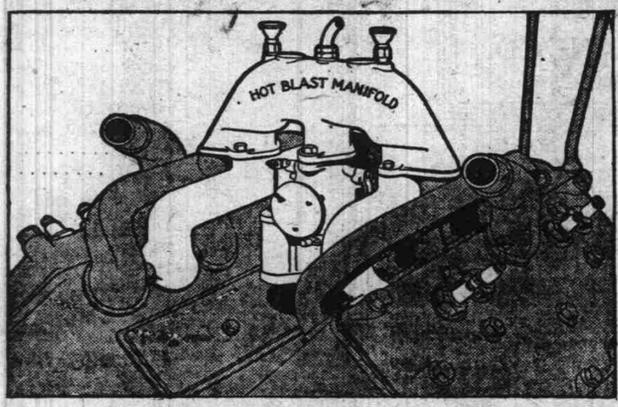

An effort will be made to deport both.

The Iwaco city council has awarded a contract to the Iwaco Motor company for the installation of a 25-horsepower oil burning engine and two-stage three inch centrifugal pump, having a capacity of 300 gallons per minute, for the city water system. The old pump, electrically driven, will be kept for emergencies. The new outfit will cost approximately \$4000.

Accommodating Auto Driver Is Robbed

Gold Hill, Or., June 24.—Close watch is being kept for two highwaymen who robbed E. Taylor of Drain of \$100 on the Pacific highway south of here near Merlin. Taylor, on route to Rogus River, invited two young men to ride with him. When about five miles from Grants Pass one of his passengers drew a revolver and held him up.

# There's a Touch of Tomorrow In All Cole Does Today

# The Cole Aero-EIGHT Manufactures Its Own High-Test Gas at No Additional Cost

Perfect Combustion—Smoother Running—Quicker Get-a-way In Cold Weather—Less Carbon With Aero-EIGHT Hot-Blast Intake Manifold

Quick to realize that in order to get the maximum motor car efficiency something must be done to combat the handicaps imposed by the rapidly deteriorating fuel supply, Cole engineers developed a superheated intake manifold. Through this device, the gasoline was heat-treated before entering the carburetor and properly vaporized to insure smooth running, quicker get-a-way in cold weather, and the elimination of carbon deposits usually associated with the use of low-test fuel. From this early vaporizer the present highly efficient HOT-BLAST MANIFOLD of the Aero-EIGHT was evolved. This new device manufactures high-test gasoline as it is required by the motor. There is no additional drain on

the fuel supply carried by the car—no subsidiary appliances, nothing to get out of order, nothing to require adjustment. The heat expended from the time of the first explosion of the engine is utilized to accomplish the results, being concentrated where the fuel is most susceptible. The quick get-away of the Aero-EIGHT, its smooth operation on low throttle, its exceedingly high mileage per gallon of gasoline, its freedom from carbon annoyance, its adaptability to varying conditions of temperature and its ability to give maximum efficiency even though the poorest test fuel is used are all traceable to the Aero-EIGHT HOT-BLAST MANIFOLD. It is a true revelation.

First, let us take you for a ride in an Aero-EIGHT that you may appreciate its superior performance. Then let us show you how the Aero-EIGHT HOT-BLAST MANIFOLD manufactures its own high-test fuel while the car is running
