

## SUFFRAGE LEADERS ARE CONFIDENT OF TENNESSEE BATTLE

By John Gleason  
(United News Staff Correspondent)  
Washington, June 25.—Suffrage leaders believe their long battle for the right to vote will end when the Tennessee legislature meets in special session to consider the proposed nineteenth amendment, which would enfranchise 26,000,000 women and enable them to participate for the first time in a presidential election. Thirty-five state legislatures have acted favorably. One more is needed to make the amendment effective. Miss Alice Paul, chairman of the National Woman's party, today declared she was confident the Tennessee legislature would act favorably, basing her opinion on canvasses that she said were recently made among members of both the upper and lower houses. A legal obstacle which stood in the way of action by Tennessee has been removed by the decision of the supreme court in the Ohio referendum case, where the validity of the legislature's ratification of the prohibition amendment was attacked after a popular vote had decided against ratification. Tennessee's constitution contains a clause that an election of legislators must intervene between the time a proposed amendment is submitted and the time the legislature acts on it. The Ohio decision, however, in the opinion of Acting Attorney General Frierson, invalidates that section of the Tennessee constitution because it interferes with the method of amending the federal constitution prescribed in that instrument itself, namely, by state legislatures.

## Republicans Sickly Bunch; Prescription Blanks All Used Up

(By United News)  
Chicago, June 25.—Delegates to the recent Republican national convention fainted right and left and had to be given stimulants. Chicago doctors told Captain Hubert Howard in applying for new prescription books today. Ninety per cent of Chicago's 8000 licensed doctors have used all the blanks in their prescription books. Captain Howard said, and no more will be forthcoming until August. It has been the rule of the Chicago prohibition officers to give a physician a 100-prescription book every three months. The Washington authorities have decreed that one book a year is sufficient. Chicago doctors pleaded with Captain Howard that if this rule was to be enforced it would be as good as no more political conventions here, nor any other conclaves where delicately constituted persons are brought into contact with Chicago's erratic climate.

## Grange Head Tells Sen. Harding What The Farmer Wants

(By United News)  
Washington, June 25.—Senator Warren C. Harding, Republican presidential candidate, received from T. C. Atkinson, representative of the Farmers' National Grange, an active farm organization, a memorandum setting forth what the farmers want. Atkinson told the candidate that farmers were opposed to government ownership, that they favored a "safe and sane course" and wanted farmer representatives on those boards and commissions of the government that are designed to assist the farming industry. "Our farmers are conservative in fa-

## ARMED CAMP AT LONDONDERRY TO QUELL FIGHTERS

Dublin, June 25.—(U. P.)—Several regiments of British troops, including a cavalry company, controlled the situation at Londonderry today. The city had the appearance of an armed camp. Tanks, machine guns, mortar lorries and barbed wire entanglements effectively dampened the ardor of Sinn Feiners and Unionists who had held citizens in their homes and prevented conduct of business by factional fighting since last Friday night. Two more men, one Sinn Feiner and a Unionist, died at hospitals early today from wounds received last night. The only disturbances reported today were on the outskirts of Londonderry. Several refugees arriving here said Unionists had strongly entrenched along the road from Carrigan to Londonderry. Soldiers were stationed on the roof of the cathedral to pick off snipers on housetops. A battalion of the Cheshire regiment was reported marching toward Londonderry. No confirmation was received of reports that disorders had occurred in other northern towns, although rumors were current that Sinn Feiners were massing near Belfast.

## Argentine Sugar to Be Sold in America At Reduced Prices

(By United News)  
Washington, June 25.—Fourteen thousand tons of Argentine sugar, soon to arrive in New York from the South American republic, will be distributed by the department of justice to essential industries and household consumers at prices lower than the prevailing market figures. This sugar, the department said today, was purchased by the American Trading company under the supervision of the department, after representations had been made to President Irogoey of Argentina by the state department that the distribution would be carried out under direction of government agencies. Irogoey issued a decree permitting the exportation. The sugar, it is hoped will enable canners and preservers to carry out their usual activities without interruption because of a sugar shortage.

## Thursday Holiday, So Mexicans Could One and All Bathe

(By United News)  
Mexico City, June 25.—All good Mexicans, rich and poor, bankers and beggars, generals, servants and peons, took a bath Thursday. San Juan day, the holiday originally instituted to pay homage to John the Baptist, has now become the occasion for general ablutions in the part of all the celebrants, the lower classes recognizing only one duty—the duty of bathing—as its main feature. As early as 4 o'clock Thursday morning the public baths were jammed with celebrants, who, after dipping in the water, wended their way to church to offer prayers for the cleanliness of mind and body. By noon long lines of would-be bathers stretched from the doorway of every public bathing institution in the capital.
