

WOOD ARRIVES FOR CONFERENCE WITH SENATOR HARDING

The General Plans to Line Up His Following for G. O. P. Ticket; Then Back to Army.

Marion, Ohio, July 10.—General Wood arrived late today for a conference with Senator Warren G. Harding. The general is expected to take the necessary step to line up his following for the Harding-Coolidge ticket and then to withdraw from political activities.

The general is in active army service. Regulations of the war department prohibit army officers in active service from participating in political campaigns and from engaging in active support of any party candidate. It is believed here, however, that because General Wood was a candidate for the Republican nomination he will be permitted to close his political activities with a final statement to his friends before his retirement to army quarters.

General Wood came from Chicago, Senator A. B. Cummins of Iowa being his traveling companion. Both will be guests, while here, of Senator Harding at the latter's home.

SALESMEN BACK HARDING

Senator Harding declined today an invitation to be the dinner guest in Chicago next Monday night of the 500 traveling salesmen of Marshall Field & Co. He will send a message of felicitations and greetings. The organization, through George Wilson and William F. Hynes, assured him of its united support in the campaign.

Senator Harding announced today his intention, if elected president, of inviting the vice president to participate, ex-officio, in all cabinet conferences.

A bulletin issued from the Harding headquarters says:

"Senator Harding believes the country would greatly profit through this participation by the vice president in the cabinet conferences of the administration. It not only would elevate the office of vice president, but would give the president the sound advice and able assistance of his chief partner in handling the nation's affairs."

COMMENDED FOR TEAMWORK

Senator Harding conferred with Governor Calvin Coolidge of Massachusetts this morning at Washington two weeks ago on the issues of the campaign. He has received numerous letters from every section of the country commending him upon this display of teamwork. His announcement today is a reply to these letters.

"The sort of government I have in mind," commented the senator, "ought to take advantage of the capacities and services of the vice president who is the second officer of the government. I don't know why it hasn't been done long ago. Governor Coolidge is an experienced American executive and should have helped the senator."

The plans of Senator Harding with respect to his use of the vice president is a development, it was explained, of the senator's "teamwork" association "to substitute party government for a one-man government and return to a constitutional form of government in this republic."

He has stated that the vice president should be more than a "nerve substitute in waiting." It is his intention, if elected president, to make the vice president the official medium of communication between the administration and Republican senators, thereby establishing and helping to maintain cordial and working relations between the executive and the legislative branches of the government.

The Richard County Executive and Coolidge club with headquarters in Mansfield will be received July 21. This will mark, formally, the opening of the "front porch" campaign and this organization has been pressing for the honor to be the first to be received. The club will come to Marion on a special train.

DAIRYMEN CRITICIZED FOR RAISING PRICES

(Continued From Page One)

may be expected to point out that the proposed advance from \$3.20 per 100 pounds to \$3.80 on the part of the dairymen is unjustified. Threats have been made by the city officials that the entire matter will be laid before the federal grand jury for investigation, with a view to prosecution for profiteering under the Lever act.

In a short time, the distributors predict, the officials of the dairymen's league will be coming forth with the annual prediction about declination of the herds by the slaughter house route because the dairymen will not be making enough money to maintain their herds.

"BUGABOO" EXPLODED
This expected threat Wheelwright brands as a "bugaboo," pointing out that it was broached last summer, and the present herds are as large as at any time in the history of the industry in this state.

As usual in summer, as the cows go dry, a few will be sold to the butchers, but the herds will be depleted no more than usual, he believes.

The pasture is good now, much better than usual for this month, the season being slower and the dry weather having been encountered. Some scarcity may be expected as usual, Wheelwright said, later in the summer, before the fall rains, but the condition is far from existant at present.

"It has always been a most extraordinary thing to me that the distributors in the city should have to pay much more of their milk from the dairymen than the condenseries pay," he continued.

Sweetest Story Of the Year; Price Of Candy Is Cut

Yum, yum! Chocolate creams are cheaper.
Saturday Portland candy makers announced a three cent decline in the price of chocolates, which makes this creamy candy two cents a pound cheaper than mixed candies. The wholesale price of chocolates is announced as 40 cents per pound, while mixed candy is 42 cents.

CONGRESSMEN ON COAST TO STUDY ORIENTAL PROBLEM

California Governor Will Urge Against Further Oriental Invasion of Farm Land Districts.

San Francisco, July 10.—(U. P.)—The congressional committee on immigration and naturalization, headed by Representative Johnson of the state of Washington, which is to make an extensive investigation into the Pacific coast's Chinese and Japanese problems, will hold its initial meeting in the St. Francis hotel here Monday morning.

The program of the first conference, as announced this evening, will include a statement by John P. Irish of Stockton, Cal., whose past utterances indicate he is a defender of the Japanese. He is expected to declare the Japanese are not a menace.

The Rev. G. W. Hinman of San Francisco, attached to the American Missionary association, also will talk. With him at the meeting will be a number of persons interested in the oriental problems.

Tomorrow Senator Phelan will entertain the committee members at his country home. Monday evening they will journey to Sacramento for additional hearings in the state capital.

Governor Stephens of California announced today he will urge the committee members to visit the islands of Hawaii to study conditions there. Present inhabitants of the island will be included in California's future population if further oriental "invasion" of farm lands is not halted, he will tell the committee.

Oregon Educators Named Officers of National Association

E. F. Carleton, former assistant state superintendent and recently elected city superintendent of Eugene schools, has elected one of the vice presidents of the National Education association at the Salt Lake convention just closed. A. C. Hampton, city superintendent of La Grande, was elected a director. Hampton constantly kept the teachers' association last year.

Rains Bring Relief to Overheated Nogales

Nogales, Sonora, Mexico, July 10.—(U. P.)—Rains today cooled the intense heat caused by brush fires in Northern Mexico which had been raging for a week. The confagurations constantly kept the thermometer above the 105 mark.

"The condenseries cannot stand an increase in price and will not," INVESTIGATORS PEZZLED

Other distributors say that the condensed milk market is "weak" at present, the supply on hand being large and the demand nominal, and if anything the condensers would welcome a lessening in the supply.

It has frequently been said in Portland recently by persons interested in the milk price controversy that the distributors would be willing to cut down the milk rate to consumers if the dairymen would come down to the prices afforded the condensers. Why condensers should pay only \$2.80 per hundred for exactly the same standard of milk as is sold to the Portland distributors for \$3.20 and which now threatens to go to \$3.80 per hundred is not understood by the investigators, inasmuch as the farmers do not have to pay any additional costs for selling to the city, and transportation charges for the most part being absorbed by the purchasers.

"A Shoefull of Comfort Is Worth a Barrel of Money to a Man With a Headfull of Brains"

Divorce your feet from all fretfulness, for in this shop of satisfaction shoes, service and comfort have been wedded—and the beauty of it is that the prices of our footwear are dictated by reason and concurred in by our satisfied custom.

PACKAGE COMES BY AIRPLANE

Left to right—Aviator Roth, Mechanician Greco. Below—Postmaster R. E. Williams of The Dalles. The picture shows Postmaster Williams receiving from the hands of Aviator Roth the first package ever delivered by airplane in this section. Picture was taken immediately after the plane came to rest at The Dalles, 10:15 a. m., July 5.

Hundreds Horrified As Woman Is Killed In Airplane Crash

Salsbury Beach, Mass., July 10.—(U. P.)—Mrs. Richard E. Long, wife of a prominent Massachusetts politician and a recent candidate for governor, and Lieutenant Gordon Groah of Lynn, Mass., were killed this afternoon when their airplane crashed to the ground. Gaston Gornet, mechanic, was seriously injured.

Hundreds of spectators witnessed the accident.

Contracts Let for Grading and Bridges

Toledo, Or., July 10.—The county court of Lincoln county Saturday opened bids for the grading of a section of the Corvallis-Newport highway and for the building of two bridges across Drift river in the southern part of the county. John Dillon of Toledo was the successful bidder on the grading contract, and Otis Hamer of Nashville received the bridge contract.

Women Praise Bryan For His Dry Stand

Bellingham, Wash., July 10.—A message of appreciation for his stand on the dry question at San Francisco was sent to W. J. Bryan last night by women of several Bellingham churches. The telegram commends the one who has "put the thousands to flight" and states that the Commoner's influence with the people of America is today greater than that of all the other delegates to the Democratic convention, who opposed him.

Confidence Voted in Italian Government

Rome, July 10.—(U. P.)—The chamber of deputies voted confidence in the Giolitti government, 255 to 146 today.

FRANCE ASSURES GERMANY SHE IS READY TO AID HER

Premier Millerand Shows First Proof of "Get-Together" Attitude Which Marks Spa Confab.

Spa, Belgium, July 10.—A tone of cordiality and conciliation marked today's conferences between the allied and German statesmen for the first time since they assembled here. With the disarmament question out of the way owing to Germany's unconditional acceptance, all occasion for sharp verbal clashes and icy ultimatums seems to have been removed and the allies displayed a conspicuous spirit of concession.

The first concrete proof of this "get together" mood came when it was announced the allies had desisted from their original demand for the establishment of an allied coal commission in Germany and agreed to submit the question of coal deliveries to experts from both sides. These will make their reports Monday, taking up first the German proposal of the manner in which the Versailles treaty terms with regard to coal are to be fulfilled.

Premier Millerand, having won for France the disarmament victory upon which he had staked all, made the first conciliatory remarks German officials have heard from the lips of a French statesman since August 1914.

In an eloquent speech at the afternoon session delivered with all grave and cordiality that stood in marked contrast to his observations on the vital disarmament issue, the French premier declared that it was far from France's intention to desire to see Germany crushed. On the contrary, he said, France was willing and ready to help the former foe to meet his problems and fulfill the Versailles pact.

As soon as M. Millerand had finished, Dr. Walter Simon, the German foreign minister, was on his feet and with a deep bow toward the French premier expressed his thanks for the latter's remarks, saying he was glad to hear France's attitude thus voiced.

Daughter of Late Mayor Gaynor Is in Reno for Divorce

San Francisco, July 10.—Mrs. E. T. Bedford, daughter of the late Mayor Gaynor of New York city, has been in Reno since the middle of February, establishing a residence so as to sue for a divorce. She was accompanied by her mother and younger sisters. Mrs. Bedford is an active member of the Reno Golf club and one of the most proficient of its women players. She also has her own motor car at Reno. She is the second of the Gaynor girls to go to Reno for divorce, the first having been granted a year ago.
