TAILORS TO

The Consciousness of Being Well-Tailored gives one self-possession and poise, a feeling of ability to hold one's own in any gathering. It is worth any effort it may take. See us for tailleurs, sport clothes, riding habits.

Then there's raccoon bringing the price of lynx; marmot, mink, fitch and hare as American sable; Ameri-can sable as Russian sable; opossum as marten; weasel as ermine; nu-merous inferior species of fox as black fox; nutria as beaver; rabbit as' ermine and French seal—and so on without end. Now ask yourself one fair question —How under the sun can you expect to distinguish the genuine from the imitation when in many cases the salesman who is trying to sell you the fur does not know the difference himself?

It takes men who have devoted their lives to the study of furs to de-tect some of the substitutes that are perpetrated, and it is not unusual for the average department store buyer to be fooled on what he purchases as completely as his customers.

This, however, does not help you in any way when the fur goes to pieces and you'll therefore find it profitable in the long run to play safe, disregard price "bait," and buy your furs of a reliable furrier who really knows the
