

MERCHANT MARINE OF MAGNITUDE IS DESIRE OF HARDING

(Continued From Page Eight)

reclamation and development is too important to admit of ample discussion today. Alaska is rich in resources beyond all imagination and needs only closer linking through the lines of transportation and a governmental policy that both safeguards and encourages development, to speed it to a foremost position as a commonwealth, rich in citizenship and rich in materialized resources.

FAVORS BUDGET SYSTEM

These things I can only mention. With becoming limits one can not say more. Indeed, for the present many questions of vast importance must be hastily passed, reserving a fuller discussion to suitable occasion as the campaign advances.

I believe the budget system will effect necessary, helpful reformations and reveal business methods to government business.

I believe federal departments should be made more businesslike and send back to productive effort thousands of federal employees, who are either duplicating work or not essential at all.

LABOR RECORDS OF HARDING AND COX TO BE DISCLOSED

Columbus, Ohio, July 22.—(L. N. S.)—The campaign of the American Federation of Labor to acquaint its membership with the labor records of presidential candidates Harding and Cox is in full swing today.

Tonight secretaries of thousands of local chapters of affiliated unions throughout the United States will read a formal announcement from national headquarters that the federation has prepared a comprehensive resume of the stand taken by the candidates on labor questions which have come before them.

Army Flyers to Hop Off in Michigan on Long Trip to Alaska

Grand Rapids, Mich., July 22.—(L. N. S.)—Captain St. Clair Street and his three associate army flyers were ready to hop off at Rose Swift air port here before noon today for Winona, Minn., on the third leg of their journey from New York to Alaska.

All four of the planes arrived here yesterday from Erie, Pa., having made the 500 miles without accident.

Of German invention are roller skates driven by an electric storage battery mounted between the members of each pair, their speed being regulated by a switch in a user's hand.

Ambassador Davis Will Leave Britain For U. S. on Aug. 18

Washington, July 22.—(L. N. S.)—John W. Davis, American ambassador to Great Britain, will sail for the United States on August 18 on a leave of absence, the state department announced today.

Mr. Chairman, member of the committee, my countrymen all: I would not be my natural self if I did not utter my consciousness of my limited ability to meet your full expectations, or to realize the aspirations within my own breast, but I will gladly give all that is in me, all of heart, soul and mind and abiding love of country, to service the labor union cause. I can only pray to the Omnipotent God that I may be as worthy a service as I know my self to be faithful in thought and purpose. One can not give more. Mindful of the vast responsibilities I must be frankly humble, but I have that confidence in the consideration and support of all true Americans which makes me wholly unafraid. With an unalterable faith and in a hopeful spirit, with a hymn of service in my heart, I pledge fidelity to our country and to God, and accept the nomination of the Republican party for the presidency of the United States.

Fire Razes Bedding Plant; Loss \$500,000

San Francisco, July 22.—(U. P.)—Fire destroyed the plant of the Continental Bedding Manufacturing company on Bryant street here early today at a loss of nearly \$500,000. Spontaneous combustion is believed responsible.
