

MINERS ORDER STRIKERS BACK TO MINES

Indianapolis, July 31.—(I. N. S.)—Telegraphic orders to every local union, instructing "runaway" miners to return to work in accordance with President Wilson's demand, were sent out today by John L. Lewis, president of the United Mineworkers of America.

Lewis' order, it is believed, paves the way for rapid settlement of the strike crisis. Declaring he is "impressed with the fairness" of the president's suggestions, Lewis today sent a telegram to President Wilson appraising him of the fact that telegraphic orders have been issued to striking mineworkers to return to work.

"I herewith acknowledge receipt of your telegram of July 13 dealing with the state of confusion existing within the coal industry in the states of Illinois and Indiana," said the telegram. "I am impressed with the fairness of your suggestions in the premises and have today telegraphed to the local union of mineworkers in the aforementioned states the following instructions: 'No then return to work orders for the men to return to work.'

The telegram to the unions, after quoting President Wilson's message to the mineworkers, reads: "In consideration of the request of the president, as contained in the foregoing (the president's message), and acting in accordance with the authority vested in me as president of the United Mineworkers, I herewith order and direct all members of our organization who may be idle or on strike contrary to the provisions of the interstate joint agreement to immediately return to their employment and permit the normal operation of the mines."

"Meetings of your local unions should be immediately convened and action taken to comply with this order without further delay. The president's telegram emphasizes the grave responsibility which devolves upon every member of our organization to conform to proper procedure within our union and to discharge their obligations to society. It furthermore provides a way to secure consideration of the inequalities in the basic interstate wage agreement. The word of the president is pledged that a joint wage conference will be reconvened when our membership demonstrates their good faith in keeping their contract."

"It is therefore, apparent that immediate compliance with this order by our membership will expedite the disposition of the questions at issue. I earnestly hope that our members will demonstrate the integrity of our union and the sacredness of our obligation."

ONE DISTRICT TO DISREGARD ORDER TO RESUME MINING St. Louis, Mo., July 31.—(I. N. S.)—Any peremptory order from John L. Lewis, president of the United Mineworkers of America, to the striking miners to return to work will be disregarded by the Belleville sections of Southern Illinois, according to James Mason, secretary of the Belleville district. "We would pay no attention to such an order," Mason declared. "President Frank Farrington of the Illinois Miners' union in this sub-district. We are tired of the president's commissions. We are now having experience with one of them in a wage scale we are now objecting to."

HART AND OWENS ARE TAKEN WHILE ASLEEP Sheriff W. R. Taylor, Chief Special Agent E. W. Wood of the O. W. R. & N., and Special Deputy Sheriff Asa J. Thomson went to the Grand Saturday morning to return them early Sunday.

PUBLIC AGAINST AIDES Public sentiment is strong against the unknown persons who are believed to have aided the pair in their efforts to escape capture. Newspaper accounts of the death of Sheriff Taylor, his funeral, the man hunt and the various clues followed, were found on the captives. They had been recently shaved. They showed they had not lacked food, nor rest.

Coeds to Blow Smoke at Forty Cents Hourly in Laboratory Tests

Madison, Wis., July 31.—Twenty-four girl students of the University of Wisconsin will be paid 40 cents an hour next winter to blow blue clouds of smoke in the laboratory of Professor M. V. O'Shea. The same privilege is now being handed right out of the humidor to 24 male students. And the makin's are free.

For 15 months the students have been the subjects of an investigation by Professor O'Shea, who is seeking to determine what effect, if any, tobacco has on the mental faculties of the users. The test will last another six months. One of the purposes of the investigation is to see if tobacco has the same effects on girls that it produces on men. Just what the test has shown to date Professor O'Shea will not tell. He will make a complete report when it is finished.

Simultaneously similar investigations are being made at other universities. In the schools, however, the examinations are to determine the effect of tobacco on the physical body and the morals. Professor O'Shea is specializing on the mental effect only. Other universities at which examinations are being conducted are: Johns Hopkins, University of Michigan, Leland Stanford, Harvard and Cornell.
