

LUDENDORFF MAY CAST HIS FORTUNE WITH RED ARMY

Former Quartermaster General Says He's Ready if People Call; Claims Allies Force Bolshevism

By Karl H. von Wiegand
Berlin, Aug. 7.—"If the German people call on me I will come and serve them and my country with all that is in me. Unless they call me I shall do nothing, nor shall I place myself at the head of or join any movement," tersely declared Erich von Ludendorff, former quartermaster general of the German army, to me today, when I asked him if there was truth in the reports from allied diplomatic sources and also from German governmental circles that he was planning to place himself at the head of a national Bolshevistic movement in Germany.

In Wilhelmstrasse I was told officially that many recruiting bureaus are being opened by the nationalistic Bolshevists. Packing cases, trunks and miscellaneous baggage are piled high in the hall of the home of Mrs. Henry Newman, the American woman with whom Gen. Ludendorff and his wife have been living.

MOVING TO MUNICH
General Ludendorff is leaving today for Munich, where he will make his new home.
"I was told in Munich that if you would place yourself at the head of a national Bolshevistic movement all South Germany would go with you," I told him as he was preparing to leave.
"I know nothing of that," he replied.
"It is certainly not my purpose in moving to Bavaria."

"I am informed," I told him, "that you have expressed the view that if England and France persist in their present course toward Germany nothing will be left for Germany to do but to go with Russia or with what some call National Bolshevism."

BOLSHEVISM IS SPREADING
"That is true. It is my view. I am not for national Bolshevism, but national Bolshevism is spreading over Germany with fire-like rapidity. The entente is driving Germany and its people into the arms of the East and is creating a turmoil in the central powers."
Ludendorff said he had been informed that the American people had invented more than 7,000,000 marks in Germany since the close of the war. He asked if the Americans were aware that if the allies violated German neutrality they would cause either civil war or Bolshevism and that the value of the property in which they had invested would be destroyed. He said he could not understand why America does not exert its financial pressure against the allies, forcing them to adopt a "sane course."

In diplomatic circles there is considerable talk about "Ludendorff's plans being impracticable." From this it is deducible that there has been an interchange of views with Ludendorff.
HINDENBURG FIGHTS SHY
I am reliably informed that efforts have been made to win Von Hindenburg to the national Bolshevistic idea. Among others who have approached him is General Groener, his former chief of staff, who has been quoted as saying, "Bolshevism is not as bad as it is painted."
Hindenburg is reported to have solemnly warned Groener that "it is a dangerous idea."

GERMANY IS READY TO RESUME RUSSIAN RELATIONS
Berlin, Aug. 7.—(U. N. S.)—The communist newspaper Freiheit today quoted Dr. Walter Simons, the foreign secretary, as saying that Germany is ready to resume complete diplomatic relations with soviet Russia if Russia agrees to make reparations for the assassination of Count Mirbach, former German diplomatic envoy to Russia.

Victor Kopp, Russian envoy to Germany, is now in Moscow and is reported to be conferring with Lenin upon a renewal of diplomatic relations with Berlin.
The foreign office press department is giving out information concerning Polish abuses of Germans which had been kept secret for months. In many quarters this is regarded as the beginning of an anti-Polish propaganda campaign.

Despite the critical situation, Konstantin Fehrenbach, the chancellor, and Dr. von Simons announced they were leaving on a vacation today. There was much comment over the fact that these important officials were leaving at a time when the country is facing the crisis since the Versailles treaty was signed. It recalled the black anti-war days of July, 1914, when the high German officers of state deserted their offices, leaving no competent officials in Wilhelmstrasse to answer questions of policy.

French Threaten Advance
Paris, Aug. 7.—"If the German coal deliveries to France, agreed to at the Spa conference, are not maintained, the French armies will advance from the Rhine," the French foreign office declared today. The regularity of the coal deliveries is threatened by a strike of miners in the Saar basin.

Troops Continue to Patrol Streets of West Frankfort, Ill.

West Frankfort, Ill., Aug. 7.—(U. P.)—Eight hundred state troops continued to patrol the streets here tonight, although the authorities announced they anticipated no resumption of the two days of sporadic rioting.
Scores of Italians who fled from the town when their colony was attacked by a mob of foreign born American miners were still absent and it was believed they would make no attempt to return. Individual fighting occurred frequently today between miners and Italians who remained here. In one of these Italian was killed by a blow, probably from an axe. This was the first death resulting from the rioting.
The exact whereabouts of the three men believed to be implicated in the murder of Tony Demphill, 24, and Abel Calcaterra, 14, was unknown tonight, though they were believed to be held somewhere in Southern Illinois. Failure of a crowd in its attempt to lynch them here Thursday night started the riot.

Would Bar Slacker Boxers From Game

New York, Aug. 7.—(U. N. S.)—Colonel H. F. Dickerson, commander-in-chief of the American Loyalty league, said here today that he is planning to introduce in congress a bill which prevents boxers who did not serve in the late war from boxing. He declared he had received encouragement from a number of congressmen.
