Does the Things You Want a Range to Do

## The Universal Combination Range

does in a most perfect way the many things you want a range to do.

### A Wood and Coal or Gas Range

All in the space of 40 inches. Some of the Universal's other features are:

- Body of cast iron—the most durable of ranges—unsurpassed for baking.
- Fitted with efficient coil and fire-box—gives abundance of hot water.
- Gas self-starter eliminates necessity for paper or kindling when starting fire.

Besides you have a COMPLETE gas range—oven, cooking top and broiler—gracefully designed, substantially built and handsomely finished.

Make Your Own Terms in reason on this range if desired.

"The Range That Almost Thinks"

## The Acorn Automatic Gas Range

A gas range of superior quality plus a "fireless cooker" oven that will cook without its being necessary to keep up the fire. An entire dinner may be placed in the cold oven without pre-heating. The gas will burn for a short time and then shut off automatically. Heat stored in the thermostones completes the cooking and your meal is piping hot, ready to serve when wanted. Saves fuel, food and labor. Eliminates pot watching.

### SPECIAL!

A number of these splendid Acorn Automatic ranges that have been slightly damaged in transit, standard \$150 grades, offered while any remain at each. **\$119**

—Meier & Frank's: Sixth Floor, Fifth Street.
