

ASSASSIN'S BULLET IS REMOVED FROM GREGIAN PREMIER

Paris, Aug. 12.—(U. P.)—The assassin's bullet which split the shoulder blade of Premier Venizelos of Greece in four pieces was removed today in an operation which was declared successful.

After the operation it was announced the premier's condition was very satisfactory but that absolute rest was necessary. He had a good night.

The bullet was removed by means of a radiograph.

The assassins are believed to be mem-

bers of Greek royalist cliques. They gave the names of Georges Kericis, army reservist, and Apostolos Theraps, former naval officer, now a journalist. Their attempt to kill Venizelos was believed to be a plot to restore former King Constantine to the throne.

House of Quality

PRICES UP OR DOWN?

With shoe factories closing, freight rates increasing and labor getting as much money as ever, we see, no chance for good shoes being any cheaper. There are plenty of accumulated inferior shoes on the market which you can buy at almost any price, but experience has taught you that money spent for this kind of shoes is thrown away. **Quality**, therefore, should be your first consideration when buying footwear. In order to relieve the situation, we are continuing to sacrifice our profits and selling good shoes at fair prices. A comparison will convince you.
