

INCREASE IN FRUIT RATES SHOWS MARKET STRENGTH FOR EGGS

Market for eggs, while continuing of nominal character in the local trade, is nevertheless showing strength. Receipts remain very limited with scarcely sufficient to take care of home requirements at the moment.

MARKET FOR EGGS SHOWS MARKET STRENGTH FOR EGGS

As high as 40c a dozen was paid for current receipts in the country base Portland delivery, during the last 24 hours. Selling price is shown as follows:

Special eastern fresh eggs are being received here, but the trade doubts their character, as it is possible to find a market in the East is still taking from eggs from the Coast, therefore shipments from that direction would scarcely be profitable at this time.

BUTTER MARKET HOLDS STEADY

Market for butter is holding steady. Demand for butter is finding a movement and so surplus is shown generally. Prices were unchanged for the day.

CHICKEN DEMAND RULES GOOD

Demand for heavy hens and suitable sizes of broilers is holding steady. Prices are not showing any change. While lightweight hens are slow, prices are maintained generally.

STILL TALK OF SUGAR DECLINE

With the recent serious weakness and price level in sugar in the East, the market here is talking of a possible decline here. The situation is weak everywhere.

CANTALOUPE AKE DEMORIALIZED

Demoralization continues in the market for cantaloupes here, with standards selling down to 11.50 for good stock. The market is in a state of asking 11.75 and even more for fancy offerings.

POTATO PRICE IS EASING OFF

Further easing of prices is shown in potatoes. Purchases of good stock from grower are shown down to 2 1/4c a pound. The market is generally no higher than 2 1/4c for best.

BRIEF NOTES OF PRODUCE TRADE

Country killed veal, market nominally steady. Dressed hams are easier, but prices hold. Sheridan-Beckley company report in first Oregon grades from the Dulles.

WEATHER NOTICE FOR SHIPPERS

Weather bureau advises: Protect shipments during the next 24 hours against the following maximum temperature: 82 degrees; minimum, 62 degrees; northeast wind, P. M. & R. H. 88 percent. East to Baker, 94 degrees; maximum temperature at Portland Wednesday about 84 degrees.

WHOLESALE PRICES IN PORTLAND

These are prices for wholesale, except as otherwise noted. Butter—Selling lots: Creamery prime, parchment wrapped, 50c lb.; prime firsts, 47c lb.; firsts, 50c lb.; smaller lots, as follows: 45c lb.; 46c lb.; 47c lb.; 48c lb.; 49c lb.; 50c lb.; 51c lb.; 52c lb.

MARKET BASKET

The markets are today well supplied with cranberries. Siberians have received the market, but that they have been practically no sale for these supplies. The housewife, despite all warnings, appears to have forgotten this fruit.

Home grown eggplant is reaching the trade in abundance and prices are dropping fast. The quality of the Dallas offerings is unusually good.

Howling Mob corn, one of the best species known here, reached the wholesale trade during the day and will retail around 50c a dozen.

Potatoes are now good enough and cheap enough to buy more liberally, but it is not yet advisable to stock up.

Cantaloupes are selling at such low prices that everyone can afford them. They're of very good quality, too.

Asparagus is now in season. Consumers are expected to pay retail stores. Quality is good, fancy stuff being slightly better.

NEW FINANCING PLAN PROPOSED

Congressman Burton L. French of Idaho Outlines Idea for Helping Farmer.

Moscow, Idaho, Aug. 17.—Burton L. French, congressman for the first Idaho district, spoke at Genesee, Friday night, at the request of farmers and business men of that place, on his proposed plan for having the federal reserve banks finance the marketing of the wheat crop by rediscounting the "wheat paper" every 90 days, with the proviso that at least 25 per cent of it must be taken up each quarter, thus permitting the farmers to carry their wheat and stabilize prices, by not forcing more than 25 per cent on the market during any quarter of the year.

Following the address, resolutions were passed, asking the united action of Congress, State Legislatures, Commercial clubs and other organizations of the Northwest in presenting the matter to the federal reserve bank board, with a united demand that the plan be adopted.

Congressman French said that he had been asked if the federal reserve banks were capable of handling the vast sum of \$250,000,000 and that this would be the entire wheat crop of the United States at a uniform price of \$2.50 per bushel and leave plenty of money after the purchase was made, so there is no fear of not having sufficient funds to carry the loans.

Market operators are watching the call money market, with the intention of selling at the first show of a further advance in the rate.

WALL STREET IS SUBJECT OF TALK

returned Monday from a two weeks' outing with the Massachus. The peak of Mount Baker was the destination of the mountain climbers this year, and the summit was reached by every member of the party. "The party that was in previous years, but the trip was the most successful one that the club has ever had."

Advancements Announced. The board of directors of the Cattle Loan company of North Portland announces the election of H. A. Ebling and H. B. Duff, formerly treasurer and vice president, respectively, to the office of secretary of the company, and the advancement of J. C. White from assistant secretary to the office of treasurer.

Incorporations. Articles filed: Monarch Fire Clay company, Portland, \$100,000; Incorporated, Arthur C. Emmons, Chevalley Cream Cocoa company, Portland, \$25,000; Incorporated, Leon Chevalley, J. E. Dunne and George W. Burt.

Money renewed and remained all day at 7 per cent. There was one rather weak spell, and a rally, but the day was spent in the close watch without definite trend. Bethlehem Motors was the only stock to show any particular weakness and it broke 4 points on the forced liquidation of a few hundred shares. Rumors were current of a change of control.

An announcement was made that the American Can company and the Cattle Securities company were back of a new automobile club company.

Even the strongest companies seem to be needing money, and so the street received without surprise a report that the Atlantic, Gulf & West Indies would borrow several millions. The money is expected to be needed for the oil business. The stock was heavy.

Further evidence that the oil boom is over was found in a report that, in addition to distribution at a stock dividend, the Standard Oil company of New Jersey would reduce the par value of its shares to \$25, so that the public could afford to buy them.

Market operators are watching the call money market, with the intention of selling at the first show of a further advance in the rate.
