

91 WATER PERMITS ISSUED DURING 2 MONTHS BY BOARD

Salem, Aug. 17.—Ninety-one permits for the appropriation of water from Oregon streams for the irrigation of 3129 acres of land, municipal supplies, domestic uses, mining and other purposes, and three permits for the construction of reservoirs were issued by State Engineer Cupper during the months of June and July.

Development work contemplated under these permits includes the construction of 64 miles of canals and other irrigation works at an aggregate cost of approximately \$90,000, and the construction of reservoirs with a storage capacity of 281 acre feet of water, at an estimated cost of approximately \$200,000. Among the most important permits issued during the two month period are the following:

To the Oregon state fish and game commission, covering the appropriation of water from Stout creek and Santiam river for a fish hatchery near Mehama. To the North End District Improvement company of Weiser, Idaho, covering the appropriation of water from the Snake river for the irrigation of 608 acres of land in Oregon. To the city of Glendale, covering the appropriation of water from Mill creek for a municipal supply.

Little Girl's Jaw Broken When She Runs Into Auto

Salem, Or., Aug. 17.—Katherine Gouley, 11-year-old daughter of Mr. and Mrs. Romeo Gouley, living 11 miles north of Salem on the Pacific highway, suffered a broken jaw and other severe injuries about the head and face when struck by the fender of an automobile driven by Frank C. Perry of Portland, Sunday afternoon.

The girl, it is said, ran from behind a truck, parked in front of her home, into the automobile. She was rushed to a hospital here.

State Engineer Cupper has been asked by the directors of the Ochocho irrigation district, to make an inspection of the huge dam, practically completed and ready for acceptance. The dam is 125 feet high and contains 500,000 cubic yards of earth, situated on the immense reservoir which it forms. The dam and distribution system for the irrigation project cost approximately \$1,250,000.

G. F. Smiley of Umatilla county, owner of a large quantity of wheat in the stack, which was destroyed in two separate fires, evidently of incendiary origin, last week, has been exonerated from any blame in connection therewith in a report made by H. H. Pomeroy, deputy state fire marshal, to A. C. Barber, state insurance commissioner.

Mrs. Virginia Clark Confesses That She Killed Her Husband

Oakland, Cal., Aug. 17.—(U. P.)—Mrs. Virginia Clark shot and killed her husband, Chester J. Clark, while in a blind rage because he had treated her indecently, she told the police today, according to their statement.

"I was crazy with anger and revulsion," she said.

"I reached over him and found the revolver under his pillow. Then I shot him four times. I tried to make it appear he had killed himself."

Mrs. Clark said she met Clark through the medium of an advertising agency. Mrs. Clark is said to have confessed that she killed a negro in Norfolk, Va., some years back. She is 27 and good looking.

Teddy's Old Running Mate Offers to Aid Cox in His Campaign

New York, Aug. 17.—(I. N. S.)—Governor John M. Parker of Louisiana, Progressive vice presidential nominee on the ticket headed by the late Theodore Roosevelt in 1916, has volunteered his services to the Democratic national committee. It was announced by Senator Pat Harrison at Democratic headquarters. The governor will be assigned a speaking tour early next week. Senator Harrison also announced that Senator James Hamilton Lewis, Senator A. A. Jones of New Mexico, Edward N. Hurley, former chairman of the shipping board, and Mayor George R. Lun of Schenectady, N. Y., former Socialist congressman, had volunteered to speak in behalf of the Democratic candidate.

Fate of Offending Teachers Is Passed To State Official

Whether the certificates of the 23 Portland teachers who recently violated the law by submitting their resignations within less than 60 days before the opening of the fall term will be revoked depends entirely upon J. A. Churchill, state superintendent, says W. F. Woodward, member of the educational committee of the board, who is most active in protesting against their "utter disregard for all principles of business honor."

"We have reported this violation of the law to the state superintendent," said Woodward Tuesday, "and with this our jurisdiction ends. It rests with Churchill as to whether their certificates will be revoked."

Churchill Monday issued a statement to the effect that the certificates of the teachers may be revoked for one year. Woodward deplored the non-enforcement of the law in the past which has upset the school system each year by resignations coming in during the late summer months, and announced his intention of seeing that this evil is changed during his administration and the employment of teachers placed upon a more business-like basis.

FLAT BUILDING IS DAMAGED BY FIRE; INJURE DWELLINGS

Fire which broke out on the roof of a flat building at 352½ Jackson street at 8 o'clock Monday night did considerable damage to the building, another flat structure and two dwellings at Park and Jackson streets. The entire loss was estimated at \$3500, partly covered by insurance.

The flat at 352½ Jackson street was occupied by Mr. and Mrs. James W. McDonald. The family was at the seashore and the alarm was not turned in until the fire had gained some headway. Fanned by a strong wind, the flames spread rapidly. A flat building at 350½ Jackson street had caught fire and the paint and shingles on two dwellings at 463 and 464 Park street had been damaged before the fire apparatus arrived.

The lower flats at 350 and 352 Jackson street were occupied by J. L. Wilkinson and Mrs. J. E. Garretson respectively. They were damaged by water. Thomas Gavin, a city fireman, lives at 350½ Jackson street.

The wind made the fire hard to handle, and it was difficult to keep it from spreading to other buildings, according to Fire Marshal Grenfell.

All of the buildings were owned by the Buback estate. They were all protected by insurance, except the flat occupied by J. L. Wilkinson.

A dwelling house belonging to Mr. and Mrs. H. J. Butcher, at 5616 Fifty-sixth street Southeast, was destroyed by fire about 3 o'clock. The loss was about \$1400, covered by insurance. The house was unfinished.

The fire started when a window curtain was swept by a breeze into the lighted wick of a kerosene stove.

Seven in Car Are Saved When Tree Halts Wild Career

Eugene, Aug. 17.—An unknown tourist party driving an automobile along the upper Willamette highway Sunday afternoon met with an accident that belongs in the category of the miraculous. In the car, besides the driver, were his wife and five children. At a point between Lowell and Dexter, at the top of an embankment, the wheels struck a patch of gravel, swerved and the machine went over the bank.

A tree part way down the bank caught the front end of the radiator and prevented the car from tumbling over. A big limb of the tree was rammed completely through the body of the car. In spite of this and the fact that the occupants were hurled from the car, none of them sustained serious injury.

John Curl, Pioneer Of 1847, Is Dead

Salem, Aug. 17.—John Curl, 83, a resident of Salem, died at the home of his daughter, Mrs. C. A. Barr, on Riverside drive here Tuesday morning. Curl was born in Carroll county, Mo., in 1847, crossing the plains to Oregon in 1847 and locating in Lane county. He is survived by one son, F. C. Curl of Jefferson, and three daughters, Mrs. C. J. Anderson of Portland, Mrs. L. E. McIntyre, Vremona, Canada, and Mrs. C. A. Barr of Salem. A brother, J. M. Curl, lives at Jefferson.
