

MILLS TO CUT PAY TO KEEP RUNNING

Marshfield, Aug. 26.—At a meeting of several of the mill operators and representatives of the local Legion of Loggers and Lumbermen it was agreed that there should be a temporary cut in wages of 50 cents a day.

Millmen stated that they would have to close down operations at present market unless the wages were reduced.

One of the big mills had contemplated closing soon. The representatives of the men stated that they would rather work at less wages than be out of work entirely. So the cut was agreed upon, with the understanding that the mills all keep running and that the wages be raised as soon as the market conditions improve.

BONUS OF \$42,000 IS PAID TO MILL WORKERS AT BEND

Bend, Aug. 26.—When 1204 employees of the Shevlin-Hixon company and the Brooks-Scanlon Lumber company, the two large lumber concerns of this city, appeared at the pay window Wednesday, they were greeted with additions to their checks in the form of a 5 per cent bonus.

The total amount paid out to the men was \$42,000, of which \$30,000 for 704 men covered the employees of the Shevlin-Hixon plant, and \$12,000 for 500 men of the Brooks-Scanlon Lumber company.

In letters addressed by both companies to their men, the managers stated that the bonus covered the first six months that the men were in the employ of their various companies.

A portion of one of the letters stated: "There is no other motive except to reward continuous service and to have you feel that when the opportunity presents, we are only too glad to do something which will make you feel your present interests lie in staying with your present positions."

Tillamook Branch Grade Crossings Will Be Made Safe

Salem, Aug. 26.—The elimination of hazards said to exist in certain grade crossings on the Tillamook branch of the Southern Pacific railroad is ordered in a letter addressed to A. T. Mercier, superintendent of the company, by Fred G. Buchtel, chairman of the public service commission, Wednesday.

Section foremen, it is recommended by Buchtel, should be instructed to clear the approach to the crossings from obstructing brush and lay plank between the rails on the most important of these crossings.

Declaring that the United Warehouse company at Bend not only enjoys a monopoly on the freight forwarding business of that city but also engages in a wholesale and retail business on the side, which is discriminatory and discourages competition, the Bend Flour Mill company has made complaint to the public service commission here, requesting that the company, which is said to be backed by the railroad interests entering Bend, be compelled to discontinue its wholesale and retail business.

Two boilers in the mill of the Yellow P. Lumber company, 3 1/2 miles south of Tillamook, have been condemned as unsafe by A. C. Gram, state labor commissioner.

Permitting Pair To Operate Still in Home Costs \$100

Dallas, Or., Aug. 26.—Frank Evans, in whose home at Independence a large moonshine still was found in operation two weeks ago by Sheriff John W. Orr, together with more than 800 gallons of mash, voluntarily appeared before Justice of the Peace John R. Sibbey and pleaded guilty. He was fined \$100 and costs.

Evans claims he had no interest in the still, but permitted his home to be used for a distillery by two other men during his temporary absence. The operators fled when the sheriff approached the house and have not been apprehended, although they are known.

Warrant Almost Twenty Years Old Gets Man Nothing

Salem, Aug. 26.—A warrant for \$4, drawn by Secretary of State F. I. Dunbar on the state seal bounty fund, September 25, 1900, was presented at the secretary of state's office for payment by W. A. Moore of Troy, Or., Wednesday. Moore explained that the warrant had been mislaid and asks payment with accumulated interest for the 20 years.

The warrant, however, was cancelled under act of the legislature in 1915. Moore's only chance for realization on the warrant is through action of the legislature, it is explained.

According to a French scientist, who made tests, it is the lash of a whip which strikes a horse the most severely, not the snapper on the end.

Mate Kept Family Porker on Front Porch, Complaint

Albany, Or., Aug. 26.—A hog's bedroom on her front porch and a hog's bathroom in her back yard were incompatible with the marital happiness of Mrs. Mary Alice Titus, who alleges in a suit against M. H. Titus for divorce. They were married at Vancouver, Wash., in April, 1919. Mrs. Titus claims that her husband insisted upon housing their hog on the front porch of their home, and upon allowing the animal to maintain a wallow in the back yard.

At one time, she alleges, he prayed that the Lord would "deliver him of his torment," alluding to her. Again, her husband was accustomed to keep his automobile to himself, compel her to walk to church, and continually asked her for money though he had \$1000 in the bank at Salem. Mrs. Titus wants a third interest in their property, \$2000 permanent alimony, and \$500 for her support and prosecution of the case.

Leslie, 18-months-old son of Mr. and Mrs. Albert Wilbur of Mill City, died at the home of his grandparents in Albany early Tuesday morning.

For ocean travelers a new suit case can be emptied and inflated with an air pump, with which it is equipped, to serve as a life preserver.

GRAIN HARVESTING STOPPED BY RAIN

La Grande, Or., Aug. 26.—All grain harvesting stopped Wednesday owing to a heavy rain which fell from early morning. Most of the fall wheat has been harvested, but there is much yet to be threshed, while combining of spring grain had hardly started. It is feared that

Alfred Hauke Has 'High Boat' With Catch of 25 Tons

Astoria, Aug. 26.—Alfred Hauke, fisherman for the Booth fisheries, had the "high boat" for the season on the Columbia river. His total catch was 25 tons. A number of other gill-nets are reported to have made hauls of from 15 to 20 tons each.

Hauke fishes in the lower harbor and at the mouth of the river, often making drifts into the breakers. At 12 cents a pound, or \$240 a ton, the ruling price paid for chinooks, his catch is valued

Lumber Orders to Go; Cars Lacking

Cottage Grove, Aug. 26.—W. Frazier Johnson, owner of the Western Lumber & Exporting company sawmill, reports that he will be forced to cancel 30 or 40 lumber orders on account of inability to get cars to ship. The lumber has been sawed. This will effect all business in Cottage Grove, as almost every line depends on the sawmills.

Rat Eats Dynamite; Meteor-Like Effects

Mayor James Bremner, nominated on the Republican ticket to succeed himself at the May primaries, but who had announced his determination to withdraw his candidacy, has reconsidered his decision and will go before the people for reelection in November. He has no opposition.

Bend, Aug. 26.—It was not a meteor

that disturbed the slumbers of a majority of the citizens of Bend early Monday morning, but rather the explosion of more than a box of dynamite a few hundred yards outside the yards of the Shevlin-Hixon company. It is believed that a rodent gnawed through the walls of the box containing the explosive, being attracted by the glycerine soaked paper.
