Prayer Brings Many Changes in Everyday Life, Avers Gordon

Almost 700 people heard S. D. Gordon Monday noon at the Heilig theatre when he spoke on the subject, "Does Prayer Change Anything?" Gordon is speaking every noon this week at the theatre from 12:15 to 1 o'clock, under the auspices of the Portland Federation of Churches. The subject Wednesday will be "Women's Winsome Resistless Power." The public is invited.

Gordon said Monday, when speaking of prayer:

"Yes, it changes things at the other end, and it changes things at this end. When God can reach in his hand and do as he likes in us, we can reach up and out with our hands and do as we like in the common circumstances of life.

"Our praise and faith must be bigger than our prayers. As you wait for the answer to your prayer sing, for the change is coming."

9446 Acres O. & C. Lands in 4 Cities Added to Forests

A total of 9446 acres of O. & C. lands within the city watersheds of Oregon City, Dallas, Corvallis and Ashland have been added to the national forests under provisions of the act of February 11, C. J. Buck, assistant district forester, announced this morning. All the proceeds from timber sold on these lands will go back, however, into the O. & C. land grand fund.

The addition includes 5766 acres of land on the Clackamas river, adjacent to the Oregon national forest, where Oregon City obtains her water supply.

At Ashland 800 acres have been added to the Crater national forest, 1720 acres at Corvallis to the Siuslaw, and 1160 acres at Dallas to the Siuslaw.

Lieutenant Canfield Takes Commission in Quartermaster Line

Word has been received in Portland that First Lieutenant Joseph Branson Canfield has been honorably discharged from his emergency commission to accept appointment in the regular United States army as a first lieutenant, quartermaster corps. Lieutenant Canfield was a member of the original field hospital which was enlisted in Portland in May, 1917, and which went to Camp Lewis July 15, 1917. The company was numbered 364 and placed in the 316th sanitary train of the Ninety-first division soon after the Wild West division was formed more than two months later.

Lieutenant Canfield came from Hood River to enlist in the Portland company and after six months' service he was appointed a lieutenant in the sanitary corps. For some time he had been detailed from the sanitary corps to the quartermaster corps. He is stationed at Camp Custer, Battle Creek, Mich., but nothing definite is known here regarding his new assignment.

Portland Woman's Exchange to Close Its Doors October 15

The Portland Woman's Exchange, which has supplied home cooked food, canned fruits, jellies and vegetables, needlework and knitted articles to Portland patrons for a number of years and at the same time given employment to hundreds of women who needed to earn money in their own homes, will close its doors October 15. This decision was reached Monday at a meeting of the official board.

"The very prosperous condition of labor offering opportunities of different kinds of work has diverted into other channels those who formerly consigned to the exchange," says a formal statement issued by the board.

"The original 10 per cent charge to consignors, increased to 15 per cent five years ago, was always inadequate to meet expenses and it has become impossible to maintain the business with the more than doubling of the overhead. The exchange feels in closing the store that it is not now an economic necessity, inasmuch as it extends essential help to only a handful of women—less than 25. The organization remains intact ready to accept its responsibilities when again the need arises."

China's Awakening Discussed; Square Deal Is Watchword

"China's Awakening" was explained to members of the Foreign Trades club at the Chamber of Commerce Monday evening by F. Marshall Sanderson, newspaper man, who arrived in Portland Monday afternoon in connection with his tour of American industrial and business centers.

Sanderson told his auditors of the success of the recent Chinese boycott on Japanese manufacturers and urged a "square deal" policy on the part of Americans dealing with Chinese buyers.

Freight handling in France in connection with the world war was interestingly reviewed by Colonel Arthur Wells, who had charge of freight movements in various overseas ports.

Other speakers were H. L. Hudson, traffic manager of the Port of Portland, and J. Fred Larson, president. To Sanderson the club voted an honorary membership.

Silverton Schools Under Supt. Youel Open Fall Session

Silverton, Or., Sept. 21.—The Silverton public schools opened Monday, with the following teachers: Superintendent, B. T. Youel; high school, H. C. Tschants, principal; Josephine Hammond, Irma Botsford, Ruth Straw, C. N. Freeman; grammar school, Clover B. Miller, principal; Ava Darby, Rosella Richardson, Hannah M. Olson, Lillie Larson, Sophia Madson, Maybelle Sigloh, Margaret Humburg; primary school, Ina Hubbs, principal; Ethel Freeman, Eda Olson, Ama Kendall, Agnes Bock, Minnie Mascher, Olga Johnson, Blanche Hubbs.

Funeral services for J. L. Robinson of the Silverton Furniture company were held Saturday. He died Thursday at The Dalles where he had gone for treatment. His wife, one son and one daughter survive.

A new Ford coupe belonging to Charles A. Reynolds, assistant cashier of the Coolidge & McClaine bank, was stolen Sunday night.

Western Norwegian Danish Methodist Conference to Open

The twenty-seventh annual session of the Western Norwegian-Danish M. E. conference opens tonight at First Norwegian-Danish M. E. church, Eighteenth and Hoyt streets, and closes next Monday morning. Tonight a reception will be held for visiting ministers and delegates, the music being in charge of Miss Hilda Lindborg, assisted by Mrs. Adele Case, Van Carlson, Theodore Carlson and Albert Bowman.

Wednesday morning at 9 o'clock Bishop William O. Shepard will address the conference, conduct devotional sessions and preside at business sessions. Wednesday night boards of home missions and church extensions will have their anniversary.

Oregon Too Modest In Claims for State, Avers V.-President

Salem, Sept. 21.—Oregon, ever long on modesty and short on state consciousness, must needs shed a little of the former and strengthen the latter if it is going to keep pace with its neighbors on the north and south, President P. L. Campbell of the University of Oregon told members of the Salem Commercial club at luncheon Monday noon.

While California and Washington have been capitalizing their climate, their scenery and their natural resources, Oregon has been sitting modestly by saying little or nothing, he said, and the people of Oregon are too strongly inclined to an apologetic mood for the good of the state. Oregon's abundant rains, for which the people of the state are wont to apologize to newcomers, form one of Oregon's greatest assets, showering the land with millions of dollars of wealth annually, he said.

Oregon, President Campbell said, is a vast empire entirely self-supporting, but the state's greatest resource lies in its people, a well read, highly intelligent population, absolutely safe and sane and dependable in any emergency. This state, he pointed out, has more accredited high schools than has California, with a vastly larger population.

The University of Oregon, President Campbell said, is facing the opening of the new year with brightest prospects in its history.

Democratic Women to Meet

The next regular meeting of the Democratic precinct committeewomen will be held at headquarters, 325 Morgan building, at 8 o'clock, Thursday evening. Matters of great importance are to be taken care of. Walter Gleason will discuss Article 10, League of Nations. Democratic women will be welcome.

"Oh, pshaw! Here I hung my things on the line for an 'airing' and they got a 'sooting' instead. I must get this whole neighborhood to put in Gasco furnaces and stop all this annoyance!"

The Epoch-Making Test at The White Temple

Mr. Edison wanted to prove to the music lovers of Portland that his new phonograph reproduced the art of great artists with perfect realism. The test he made was dramatic—even spectacular.

Miss Alice Verlet, sent here by Mr. Edison, stood beside the New Edison and sang. Suddenly she stopped singing. The New Edison took up the song and sang it alone. The living voice and its RE-CREATION by the New Edison were thus directly compared. The human ear could detect no difference between the two voices. It was both the test and the proof. And the proof marked a new epoch in music.

this NEW EDISON

"The Phonograph With a Soul"

It is an exact duplicate of the Official Laboratory Model which made music-history last Wednesday in Portland. This instrument has been certified by Miss Verlet herself.

Do you hope to own a phonograph as wonderful as the Official Laboratory Model, which enthralled an audience of Portland's music-lovers at The White Temple? Do you want your home to enjoy this new art of music RE-CREATED, with which Mr. Edison has amazed and delighted the whole world?

We have a few Official Laboratory Models in our store. They are exact duplicates of the epoch-making instrument, which triumphed in the test. They will sustain the very same test. Miss Verlet, in order to assure you of this, has signed Certificates of Authenticity which will be presented to the purchasers of these instruments. Only a few of these certified Official Laboratory Models left. You would better come in today.

Fights film in two efficient ways

Polishes so teeth glisten and film cannot easily adhere

Watch these five effects

Repeated with every application

All statements approved by authorities

Dental science has found ways to bring these five desired effects whenever you brush teeth.

Leading dentists everywhere advise this method now. Millions of people already employ it. Ask us to send it free to you, and see what it does in ten days. It will be a revelation.

To combat the film

The purpose is to combat film on teeth.

Film is that viscous coat you feel. It clings to teeth, enters crevices and stays. Old methods of teeth cleaning did not end it. So month after month, on countless teeth, it may do ceaseless damage.

Most tooth troubles are now traced to film. And those troubles, despite the tooth brush, have been constantly increasing. So film-removal is nowadays considered all-important.

It dims and destroys

It is the film-coat that discolors, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea.

So dental science has for years sought ways to fight that film. Efficient ways have now been found and proved by convincing tests. Authorities approve and advise them. And the teeth of millions are already being protected by them.

The methods are combined in a dentifrice called Pepsodent. And a 10-Day Tube is offered free so all may quickly know it.

Millions of white teeth

Millions now use Pepsodent. The glistening teeth seen everywhere show one thing that it means.

To children it is most important, for young teeth are most subject to decay. Men who smoke and stain the film will see conspicuous effects. Women's teeth will be made to look their best.

Quick, visible results

The benefits of Pepsodent are quick and apparent. You see and feel them every time you use it. Within ten days you'll realize well how much this new way means.

One ingredient is pepsin. Another multiplies the starch digestant in the saliva, to digest starch deposits that cling. The alkalinity of the saliva is multiplied also, to neutralize the acids which cause tooth decay.

Two factors directly attack the film. One of them keeps teeth so highly polished that film cannot easily adhere.

The film itself is twice a day combated in most effective ways.

Everyone should know

Everybody, young and old, should know of these effects. Old methods of teeth cleaning do not bring them.

Send the coupon for the 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear. Watch all the results, and the book we send will tell the meaning of them.

Do this for your sake and the children's sake. It means whiter, cleaner, safer teeth. It means results you want and which you cannot get without it.

Cut out the coupon now. This is too important to forget.
