FOR THE PUBLIC SERVICE COMMISSION

Portland, Sept. 20.-To the Editor of The Journal-I have read The Journal in the eye and say so defiantly. If he is several years and always read the letters a Harding man, he admits it in an from your readers on topics and conditions of the times and feel you will take an interest in my letter.

Since the Portland Railway, Light & company increased the carfare to Power cents I have "cheerfully" paid the increase without complaint. But the car company carries an advertisement, or anouncement, that it will sell tickets in books of 6 or more at a reduced rate. I had decided to buy my tickets-six for cents, thus saving 3 cents on six rides. I and my family use the cars very frequently. On four occasions I asked for wix tickets for 45 cents, and the con-ductor-No. 149, on the Bridge Transfer car-said he did not have any tickets. asked him why, and he said he had run out, and he was nearly through for the day. He would not buy any more until next morning. So I had to pay three full fares, 24 cents. This same thing has happened on the Rose City line, on which I have to travel. Last evening I asked, as usual, for tickets, but the conductor ignored my request and took 8 cents out of my half dollar for a cash fare. When I called him back he said, "I have no tickets."

I suppose this has happened to many othters. I feel that if I, a car rider, ask quarter. for a strip of tickets and the conductor has no tickets to sell, I, the car rider, can refuse to pay the full fare, 8 cents.

I would like to have an opinion on this question, also to have this question brought to the attention of the people for action. But I suppose the car company will put the blame on the poor conductor; who has to pay for these tickets wealth up in tickets with no interest until he resigns or gets fired. In comclusion I would like to have an opinion on the action of a car rider refusing to full fare, 8 cents, if the conductor had no tickets to sell as they advertise in all their cars. James B. Rogers. Strips of tickets should at all times be available to car riders who apply for them. If the company does not provide them the Uregon public service commission should order it dons. The Journal hereby calls the attention of the commission to the complaint of this car rider.]

The human mind, uninstructed by divine science, is controlled by its own suggestive fears of evil, disease and death. Thus controlled, this mind is more or less continually looking for these evils. On the other hand, that person whose thought is fundamentally fortified by Christian Science is able to discriminate intelligently between the impressions and suggestions which present themselves, excluding those which later produce these evils, and admits into his consciousness daily those ideas of truth and good which he desires later to see reproduced in his active experience.

The universe of the Christian Scientist is filled with God's ideas-with ideas of Life. Mind, Love-instead of diseased thought-germs of the mortal mind. He knows, in a degree, that the omnipotence of God, good, is not a divided omnipotence in which sin, disease and And death also are factors.

GRATITUDE TO MRS. EDDY

Christian Scientists have a tender regard, love and gratitude for their revered leader. It would not be right to assume that there is anything in the nature of personal worship in this attitude. On the contrary, this feeling of regard and gratitude is in acknowledgment and recognition of the broad, universal service which characterized Mrs. Eddy's life.

From the time of her healing on that morable Sunday morning in the year 1866, Mrs. Eddy's life was spent consistently and exclusively in unfolding the facts connected with her healing in such terms and manner as would best be understood by the human mind. was necessary that these facts should idois, no longer, his face "aflame with be rightly correlated, and the science

which governed them made clear, in order that mankind always shall have at hand the means to alleviate and heal sin, sickness and sorrow. Likewise, my friends, the recognition is growing among intelligent people everywhere that the works of Christian Science reflect the existence of a definite law, and that the operation of this mariner at sea outriding the storm. I law is available in Christian Science to heal and bless all mankind in the de-

gree that it is rightly understood and put into practice

The statement of this law, or Christian Science, and the method of application are found in all of the writings of Mrs. Eddy, more especially in the book "Science and Health With Key to the Scriptures," which is the only textbook on Christian Science healing.

This book is unfolding to mankind the true idea of Causation or God. From this, does it not just so long must this burden remain on our shoulders. Our captains of industry seem, my brather, that the mental image or likeness of God which you hold in are foreign aristocrats in their style of living. Our middlemen bleed their consciousness and to which you pray patrons in order to live high. And both must be just as erroneous as the graven live through sucking the lifeblood of stone image which I worship, and to, which I pray?
