and President-haters, all over the

Monroe Doctrine

By Carl Smith Washington, Oct. 9. - (WASH-INGTON BUREAU OF THE JOUR-NAL.)-There were Lodges and Hardings, bitter-enders, president haters and reservationists in time of Monroe, as well as in time of Wilson. There were bitter debates in congress over the now revered Monroe doctrine, which was

assailed as a departure from the

policies of Washington and an ac-

ceptance of English diplomacy. The Monroe doctrine debate of 1826 bears all the marks of the League of Nations debate of 1919 and 1920, with practically the same arguments invoked against the declaration of Monroe that are now advanced against the league. The greatest eruption of oratory then was in the house of representatives and the critics of the Monroe doctrine did most of the talking.

W. C. Rives of Virginia was one of the leading reservationists. He wanted a specific declaration by congress that the United States is not pledged to maintain by force the principle that no part of the American continent is henceforward subject to colonization by any European power. SAW DIRE RESULTS

"Let us not commit ourselves upon it by anticipation," he exclaimed, Thut continue as we now are, free to take our course, whenever the question may arise, with a full regard to all those considerations which ought to influence our determination."

Mr. Rives also cautioned against the policy of exerting American influence in sympathy for new republics that were gaining freedom and preached the present day doctrine of taking care of ourselves, saying:

"Sir, if other nations are destined to lose their liberties, let us acquit our-selves of the high trust which Providence has devolved upon us and endeavor to preserve our own. MORAL OBLIGATIONS THEN

Louis McLane of Delaware, afterward secretary of state, in the style of Lodge discussed "moral" and "legal" obligation and termed it "vapor" if only a noral obligation.

"It will not do to treat it as a pledge. from ourselves to ourselves, or as de-igned to throw the moral weight of he opinion of this nation into the f these governments," said McLane. is it simply a vaporing, or does it "This is either the holding out of a

hreat with the hope that the threat would be sufficient," he proceeded, "or it means that we intend to execute the hreat when the time for executing it shall arrive. Is this what is meant? If it is not, the threat should not be made, or if made, should not be recognized. Jan we tell these powers that we meant only to take a moral attitude? LIKE LEAGUE OPPONENTS

Other speakers pointed out that the Monroe doctrine had been merely stated by the president and was not of binding Mr. Claiborne, in an argument against it, spoke'in much the same language now used by opponents of the league. He was afraid of foreign enanglements and the guaranty of political integrity. For at that early date he had discovered Article X. He said:

(the Monroe doctrine) contains sentiments that have never received the sanction of this government. To the defense of our soil this whole nation is devoted. I trust we will never pledge ourselves beforehand to take part in the disputes which may arise between the South American governments and European governments on the subject of colonization. It is manly and generous to declare that while we will defend all we will not pledge ourselves beforehand Man Is Killed in to guarantee the entireness of any other

Quincy Adams had succeeded Monroe in the presidency. He had been secretary accused of ignoring the senate. James yon, an electrical engineer. Hamilton said the president had "treated the senate with neither justice nor canercively employed by the administration St. Vincents hospital, where it was (Concluded on Page Four, Column One) injuries.

Oregon Metropolis Leaps Into Front Rank As Result of Its Advertising of Advantages.

O. S. K. Line, One of Largest in Far East, to Mak Portland Port of Call; Trade Field Tapped

Oregon's "O" has been put across n the "O"rient, and when that part of the world adjusts its present financial difficulties this state will feel the effect of missionary work that will place them on equal commercial ground.

This is but one little part of the message brought back from the Orient Saturday by E. L. Whitney, official of the Pacific Coast Steel company, who stopped here before proceeding to San Francisco, his headquarters. He is the son of Edwin D. Whitney, well known business man of Portland. STEAMER LINE COMING

He brings back word which is credited that a tacit understanding has already been reached that the Osaka Shosen Kaisha, one of the largest steamship ompanies of the Orient, will soon make Portland a port of call in serving Northern China through the port of Tsin Tsin. The territory thus opened is tremendous It was also said in steamship circles in the Orient that the Admiral line, now running a fleet from here abroad, would make Tsin Tsin a point of call.

The work of the Port of Portland in advertising this city in the Orient has made other intersets "gasp," Whitney reports. It is due more to this effort, he feels, than any other single display that the Orient is fast awakening to the posibilities of Portland. PORTLAND TO FRONT

in their newspapers telling them of this city; until representatives went from office to office and urged them to do business through Portland, their minds centered chiefly on Seattle and San Francisco. Now, he stated, they talk of Settlement of the financial turmoil now gripping Japan in particular is ooked forward to by the financiers of the Far East as due in the spring or, at

Promoter Picked Him for Office Six Years Ago, Boosting Him Into United States Senate First

How Astute and Practical Politician Drove Obscure Editor Into Limelight Against Latter's Will.

By Louis Scibold

Published by Permission of New York World.) New York, Oct. 9 .- "DAUGHER-TY'S CANDIDATE" is the way most of the Ohio politicians describe Warparty for president of the United States. There is ample justification

DAUGHERTY (Henry M, or Harry to his familiars) is credited with exercising he does, and national leaders are beginning to believe it. The Daugherty brand which they view the candidate. PUT HIM IN FOR SENATE

DAUGHERTY projected Mr. Harding into the race for the senate six years ago. He personally picked him before the hitherto obscure Marion editor entertained an ambition to wear the toga of a senator. Daugherty groomed his candidate for future use through many unprofitable years. When he decided that Mr. Harding should go to the senate he found the latter prostrate on the leskie closes today against the Dodgers that choked his voice, he let the tears beach at a Florida resort, soaking in the warm leisure. DAUGHERTY aroused the Ohio jour-

> Daugherty boasted he had been com-pelled to "push" the Marion editor into he senatorial waters and then fight to keep him there. At any rate, Mr. Harding permitted himself to be "pushed" into the senatorial waters, as it were and later on into a seat in the senate. DAUGHERTY directed the senatorial destinies of his senator with such seal that more than a year ago he figured out that there was a chance to "put him over" on the Republican national convention as presidential candidate. With discriminating acumen, Daugherty discovered a "soft spot" in the competition for that honor provided by the number

of entrants and the demoralized condition of the party itself. HIS ENTHUSIASM LAGGED

DAUGHERTY does not appear to have cared particularly for Mr. Harding when the preliminary skirmishes disclosed the fact that his man did not appeal to the Republican leaders. There is a widely told tale among the higher Republican averse to setting Mr. Harding aside if There is another-that Mr. Harding himself was skeptical; that he, in fact, told will follow the example of Herbert Daugherty he did not believe that he Parsons and vote for Cox and Roose-(Mr. Harding) was "big enough for the job," an estimate generally shared by velt on the League of Nations issue. all of the potential president makers

Republicans, Dismayed by Former Chairman's Resignation, Fear Repetition of Split of 1912.

Disappointmnt Is Felt Because Harding Goes Over to Borah-Johnson and Forsakes Lodge.

By David Lawrence

(Copyrighted, 1920, by The Journal) New York, Oct. 9 .- Republicans and Democrats who have been predicting that Senator Harding would win the election "unless something bappened in October." are wondering if the revolt started by Herbert Parsons, influential Republican leader here, against Harding, can possibly be that "something."

The Democrats in 1912 won by a division in the ranks of the Republican party. They succeeded in 1916 again because they retained the support of the progressive elements that had broken away in 1912. The big question today s whether the Republican party will divide definitely into pro-League of Nations and anti-League of Nations fac-

PRODUCES SENSATION The announcement by Herbert Par-

sons that he must resign us a member of the Republican county committee and support Governor Cox, has produced almost as much of a sensation as if former President Taft or Elihu Reot, or former Attorney General Wickersham had withdrawn their support from Harding. The Republicanism of Herbert arsons was unquestioned. But he took part in the war as a lieutenant colonel and he is so affected by the death and destruction he saw in Europe that he cannot recognize domestic or local issuer s transcending the preservation of eace by the League of Nations.

"The issue," says Mr. Parsons, in his etter of resignation from the Republican county committee, "Is not between the league as Wilson brought it and the league with reservations. The situation in the senate is such that the treaty cannot be ratified in the form in which Wilson brought it. There will be res Independent's Editor Announces ervations such as will relieve America of obligations, even moral, under Article X, and will render congress wholly free to declare war or not in any given case. The issue to the American voter is between going into the league with reservations, or not going in at all.
"Harding is and will be for not going

The effect of Mr. Parsons' bolt has been to stimulate the Democrats to further efforts and to dismay the Repub-licans, many of whom in their hearts are absolutely in sympathy with Parsons and disappointed at the Des Moines speech of Senator Harding, in which he definitely abandoned the present

League of Nations with or without res-

ervations or interpretations or any obli-

gations whatsoever and declared for a new association. Here in New York, where the importance of the existing league, with its membership of 38 nations, is recognized by many Republican business men as having a vital relationship to the stabilization of world economic conditions and the prosperity of this county, among Republicans that Senator Harding surrendered to Senators Borah and Johnson and threw overboard Senator Lodge and former Senator Root, Had Mr. Harding come out for the present league with the Lodge reservations as he voted a year ago, he would have preserved party harmony. His alliance
