SPECULATORS TRY

Market for butter continues to reflect weakness here. Efforts of allies of the old storage and speculative interests to undergrade butter is a drug on the mar-

published in some papers controlled by the manipulating creameries that only undergrade stock is weak. Fact of the matter is that the stock is weak. Fact of the matter is that the entire butter market is under pressure.

The manipulating interests know this. Some of them, with New Zealand, Canadian and midto make handsome profite, are trying to save those scalps by trying to force the market into satisficial strength.

While those in closest touch with the butter situation deplore the fact that the present situation is rather hard on producers, still they results that the public is entitled to the truth regarding the situation. egarding the situation.

Those desiring special information regarding market, should write the Market Editor, regon Journal, enclosing stamp for reply:

Lower Labor Cost May Prove Good Thing for Fleece

Boston, Mass., Oct. 25.-Manufacturers of little wool.

A feature of the week has been the cleaning up of various small lots of low secured wools, grades that holders were very glad to have taken off their hands. wools, grades that holders were very glad to have taken off their hands.

Another encouraging feature of the present situation, wool men say, is the beginning of the drive for lower labor costs in the big textile mills of New England. Wool men say that this move presages the return of the woolen manufacturing industry to a "safe and sane" basis. It is stated that the proposed reduction of 15 per cent in wages simply cuts out the ill-advised advance allowed in July, an advance that was justified by nothing existing in the industry at that time or since.

Territory wools are quoted on the scoured basis of about \$1.25 to \$1.30 for fine staple, \$1 to \$1.10 for half blood staple, 75c to 80c for three eighths blood staple, 60c to 65 cents for quarter blood staple and \$1 to \$1.10 for fine and fine medium clothing.

Receipts for the week were: Domestic, \$28,-200 pounds; foreign, \$6,000 pounds.

One important factor which is making for confidence is the disposition on the textile mills to accept lower wages. Manufacturers report that this movement is becoming intensified and it indicates realization by working people of the desirability of a reduction in wages in order to gratify the demands of the public for lower prices.

Although retail prices have reflected but little of the severe decline in the prices of commodities behavior of the public prices of the

prices of commodities, banking interests are confident that the ultimate consumer depreciation in the prices of commodities not expected to continue to levels that banking institutions of the country.

"Build roads To carry the loads"

All over the country this is the slogan that is being preached. It is a refrain that comes from dire necessity, from a crying need. Motor truck traffic has assumed such proportions that only the best type of road will stand the terrific strain and to meet this condition all roads should be paved with
