

MYSTERY COMPANY SEEKING LOCATIONS

The Dalles, October 25.—Word was received from Washington Friday that application had been made with the federal water power commission for power development permits by the Columbia Valley Power company on five locations along the Deschutes and Metolius rivers.

The sites are in Southern Wasco and in Jefferson counties. They are about 40 miles from The Dalles, beginning near Two Springs and extending to a point about five miles above the mouth of the Metolius river. If these permits are granted, practically all the available water power sites of the Deschutes river and its tributaries will have been taken. The Columbia Valley Power company is a mysterious corporation so far as anything is known of it in The Dalles. C. D. Charles of Portland, representative of the company, was in The Dalles last April, but he kept his movements under cover to such a degree that only few knew what he was working on. Maps were filed by Charles at The Dalles office of the general land office on April 30, covering the area embracing these sites. It then became known that Charles represented a syndicate of Eastern capitalists.

Irregular Election in Multnomah Charged By Portland Woman

Salem, Oct. 25.—If there were irregularities in the conduct of the primary election of May 21, last, in Multnomah county, as intimated by Mrs. Francis Myers, chairman of the housewives' council of Portland, in a letter to Attorney General Van Winkle, it is the duty of the district attorney to make an investigation and present the facts to the grand jury, Van Winkle has advised Mrs. Myers.

In her letter to the attorney general's office, Mrs. Myers alleged that in the primary notice the names of candidates were given out to voters irrespective of their party affiliation, that persons registered as Democrats voted the Republican ticket and voters registered as Republicans voted the Democratic ticket without changing their registrations. Numerous other allegations involving irregularities in the election proceedings are contained in the letter, which has been referred to District Attorney Evans at Portland for attention.

Road Planked and Ready for Traffic; Rain Halts Work

Salem, Oct. 25.—All of that portion of the Willamina-Grande Ronde road operated by the Willamina & Grande Ronde Railway company for railroad purposes has been planked and is now open to vehicular traffic, according to a letter received by Fred G. Buchtel, chairman of the public service commission, from T. O. Russell, chief engineer for the road. Delay in the work of planking the road in shape was caused by the unprecedented rainfall of the past few weeks, Russell explains.

The state commission had written the company, urging haste in planking the road in condition for travel, many complaints reaching the office here to the effect that communication between Tillamook county and valley points by this route being practically shut off because of the condition of the highway since the railroad had taken it over for their own purposes, on an agreement with the Polk county court.

State Road Board Leases Rooms for Legislative Period

Salem, Oct. 25.—Arrangements were completed Saturday by the state highway department for a lease on the top floor of the Derby building, known as Moose hall, for the period of the coming legislative session. The regular biennial exodus of highway department and industrial accident commission employees to make room for the coming of the lawmakers will begin about December 1. The length of time the departments will be out of the state house will depend largely upon the reception of the divided session measure received at the hands of the people November 2. The accident commission has not yet arranged for temporary quarters for its employees who must vacate legislative committee rooms.
