

DEMOCRATS ARE WANTED TO FILL ELECTION BOARDS

The county commissioners, District Attorney Evans and County Clerk Beveridge conferred today regarding the personnel of the election boards and the difficulty experienced in securing Democrats to serve in various precincts. Beveridge informed the board that in 43 precincts the boards as at present constituted have no Democrats on them, although he had made efforts to get members of this party to serve.

It was decided that Beveridge shall at once notify the Democratic county central committee of this situation and ask that it immediately furnish him with names of Democrats who will serve and that if this is not done he shall arbitrarily select names of Democrats to be registered in each precinct and notify them that they have been appointed members of the election boards.

Dr. Elor T. Hedlund, chairman of the Democratic county committee, has sent a letter to Beveridge and District Attorney Evans in which he issues a warning that unless the statutory requirement regarding bi-partisan election boards is complied with, suit would be instituted to reject all ballots in precincts where the law is not obeyed.

M'ARTHUR REPLIES TO HANNAN ATTACK

"In an interview published in Tuesday's Journal, J. C. Hannan takes me to task for numerous sins of commission and omission," declares Representative C. N. McArthur.

"I shall not undertake to answer all of the charges preferred by Hannan, for they are too ridiculous to admit of serious consideration, but I do wish to deny most emphatically his statement that I have branded as traitors all those who are opposing me in this campaign. 'I have never at any time, either from the platform or in private conversation, made any such charge as Hannan imputes to me.'

RADICALS ARE PLAYED

"I have, however, said and I say again that all the radical elements of the community are opposed to my candidacy. There is a vast difference between what I actually said and the words which Hannan attempts to put into my mouth. 'Many of the best citizens of this district are supporting my Democratic-Prohibition opponent and nobody but a knave or a fool would brand such people as traitors. Furthermore, nobody with a serious regard for the truth would misquote a candidate on a matter of this kind.'

HANNAN FORGETS POINT

"Hannan forgets to tell the people that he is secretary-treasurer of the Plumb Plan league of this city. No mention of the fact is made in his interview."

"He is doubtless ashamed to make public admission of the fact that he is identified with an organization which seeks to raid the public treasury for the purpose of setting up a soviet railroad system in the United States. I am opposed to the Plumb Plan and other soviet schemes and for this reason Hannan and his associates are opposed to me, but they attempt to camouflage their opposition behind other issues and by misquoting me."
