BIRD REFUGE BILL WIL

Percy Cupper Says Harney Re-

By Percy W. Cupper

Malheur lake and the probable effect of the Roosevelt bird refuge measure. W. L. Finley takes exception to my statement that the lands

finley, is the result of a compromise between William Hanley and other irrigation interests of Burns and the Swift-Corbett intrests of Portland, and the proponents of the measure, and this has been strongly urged as a reason for the passage of the measure. When we take into consideration the fact that the original measure proposed to give to the fed-control of the lake was worth more to Oregon. inal measure proposed to give to the fed-

into consideration the fact that the original measure proposed to give to the federal government all waters tributary to Malheur lake, including Silvies and Biltsen rivers, upon which Mr. Hanley and the Swift-Corbett interests must depend for any further development of their holdings, it is not surprising that titles interests found it necessary for the protection of their property to agree, to the compromise measure.

HOME INTERESTS OPPOSED

The vote of the Burus Commercial club, 28 to 1 against the measure, would indicate that the section most vitally interested fully appreciates she detrimental effect that the measure would have upon the development of Harney valley.

The 47,000 acres, a large part of which is suitable for agricultural purposes, should be retained for the benefit of the Oregon school fund, particularly when part of the lake can be diked off and maintained as a bird refuge and the remainder disposed of so as to net several hundred thousand dollars to the school fund. The matter should be handled on a sound business basis for the best interests of the people of the state of Oregon, and in my opinion this can only be accomplished through defeat of the proposed mesaure.

BIRDS OR BABIES THE ISSUE,

BIRDS OR BABIES THE ISSUE. HARNEY COUNTY MAN WRITES

"Burns, Oct. 29.—To the Editor of The Journal—Every community has its own plans and hopes for its own future, and every community has its own struggles. unknown to outsiders, in carrying out those plans. Now I ask you to imagine a situation in your own community parallel with that over here in Harney counne big balance of to put over on us by popular vote a Proposed Ordinance Analyzed and measure to take away from us the waters of Malheur lake.

"The proponents of this bill propose to cede Malheur lake to the federal govern-ment to be held with all its waters in perpetuity as a wild game reserve, the federal government to control the water rights and to be the sole administrators edly stand by the babies.

lars; to ranchers' families it is worth La Roche, and reads as follows:

purposes—begs and prays of you to vote No. 317—No! "Yours,

"HARNEY VALLEY IRRIGATION

William Hanley, Chairman."

Insists Local Post

That misrepresentation was employed by the Public School Profective league in a leaflet assertion that the American Legion has indorsed the anti-compulsory vaccination law is asserted in a statement by James A. Bain, vice com-mander of the Portland post of the American Legion. His statement reads:

There has been called to my attention a pamphlet published by the Public School Protective league on behalf of the amendment prohibiting compulsory vaccination, wherein it states that the amendment is indersed by the American Legion. This is entirely misleading in so far as it purports to be an expression of opinion of the American Legion as a body throughout the state of Oregon.

as a body throughout the state of Oregon.

The indorsement as therein presented was secured from the La Grande, Oregon, post, which is but one of 89 posts in the state of Oregon, and has a membership of 390 out of a total membership in the state of 16,000.

The post in the city of Portland where these pamphlets are being circulated has taken no action upon this matter, and none of the other 83 posts in this state has taken any action in regard to the indorsement of this amendment. As a matter of fact, the indorsement of this amendment by the La Grande post is contrary to the regulations of the department of Oregon relating to posts giving publicity to questions of policy without first securing the consent of the state executive committee, and when one reade this indorsement as of the American Legion it must be borne in mind that the La Grande post represents but a very small per cent of the membership in the state of Oregon and in no wise represents the indorsement of the American Legion in Multnomah county or in any other part of the state.

William L. Finley, secretary of the Roosevelt Bird Refuge associgion Settlers Oppose Measure; ation, has forwarded the following Cites Burns Civic Club Vote. communication in support of the initiative measure now on the ballot, ceding Malheur lake and 40,000 acres of valuable land belonging to Salem, Or., Oct. 30.-The public the irreducible school fund of the is entitled to know the facts about state to the federal government as a perpetual breeding ground and refuge for wild birds:

"Theodore Roosevelt issued a special executive order, No. 929, on August 18, are now in control of the state land 1908, creating Malheur Lake reservation board. The state land board, com- For the use of the department of agrinosed of the governor, secretary of culture as a preserve and breeding state and state treasurer, cays: "This ground for native birds.' Since that bill arbitrarily takes this land from time the federal government has had bill arbitrarily takes this land from the school children and gives it away to the federal government without a just and due return to the school fund."

If these are state lands, they are in control of the state lands board. If they are government lands, as Mr. Finley would seem to indicate, then the Roosevelt bird refuge measure is useless.

EXPLAINS COMPROMISE

The present measure, according to Finley, is the result of a compromise between William Hanley and other irrigation and honest develop-

Benefits Claimed by Segregation Are Shown.

In a statement issued Saturday these rights now vested in the state the city planning commission urges of these rights now vested in the enactment of the zoning ordiwild bird life. Further, these emotionalists ask that the bird reserve be set the municipal ballot. The state-aside as a memorial to Theodore Roose-ment bears the signatures of J. C. velt, forgetting that he loved babies as well as wild life, and if the lines were Ainsworth, B. W. Sleeman, A. E. drawn between the two would undoubt- Doyle, Ira F. Powers, A. F. Flegel, E. B. MacNaughton, City Engineer "To the school funds alone this grant is worth several hundred thousand dol-

lars; to ranchers' families it is worth very much more; as taxable property to the state, it would be a source of perpetual and ever-increasing income; to the residents of Harney county Malheur lake represents the very heart and core of its plan for development and irrigation.

"The whole thing resolves itself into a question of birds or bables. The entire population of Harney county, a population lured in here by the presence of lakes and water for future irrigation purposes—begs and prays of you to vote No. 317—No!

La Roche, and reads as follows:

Portland's great asset is that 86 per cent of all buildings are single family homes. The zone ordinance protects the small home owner and is an encouragement to building.

It provides over 5000 acres of safe districts in which industries may be located without fear of protest and with every facility to do business. These are situated in several parts of the city naturally arranged for industry, along the river on both sides, through Sullivan's gulch and along the Columbia. Existing industries add only cover 1356 acres. ACREAGE INCREASED

Existing hotels, apartments and flats cover today 250 blocks. The zone ordi-nance establishes 1250 blocks in apart-Insists Local Post

Misrepresented on Vaccination Stand

That misrepresentation was employed by very great.

be very great.

Measured in dollars and cents we estimate roughly that it will prevent depreciation of rents, property values and taxable returns to the city amounting to many hundreds of thousands of dollars in the next five years. METHOD IS EASY

Measured in human health, comfort, convenience and safety gained, there is little favorable comparison possible for the present haphazard, uncertain and mixed up conditions now existing in certain parts of Portland, and possible all over the city unless a zone ordinance is adopted.

is adopted.

An easy method of amendment of the zone boundaries is provided, whenever changed conditions justify it, after consultation with the property owners within 200: feet., Any property owner can by request set such an amendment

in motion.

The members of the city planning commission pledge themselves to support all reasonable amendments as they come up and to see that they are promptly and fairly acted upon.

Forester Is Back In Portland After Alaska Inspection

B. F. Heinzleman of the forest service, who has been spending several months in Alaska on a study of Sitka spruce in relation to the extension of the paper pulp industry into the Far North, has returned to the Portland office of the

Prest service.

Heinzieman made studies as to suit-Pamphlet Demand Met

Owing to the increased demand for the book "Appeal to Christians" by Herbert Powell Lee, a fresh supply of this election pamphlet has been ordered. Ministers may secure copies free at \$25 Morgan building.

Heinzleman made studies as to suitable stands for paper pulp, water power, transportation and other features incidental to paper pulp factories in the Tongass and Chugach national forests. Two paper pulp mills have already completed arrangements for operating on a large scale in the Tongass.
